A world first from Bosch: Conveniently turn your garden into a small paradise using cordless tools, without the need for a cable or petrol. The new Bosch Cordless Garden Tools with innovative lithium-ion technology offer unbeatable advantages and make gardening work a real pleasure.

powered by
Li-Ion
technology

Lithium-ion batteries offer many advantages:

- ▶ More power at less weight
- ▶ Best handling: up to 40% more compact and 50% lighter than conventional cordless garden tools
- ▶ No self-discharge and memory effect
- ▶ Short charge times in comparison to conventional batteries

Now you can look forward to full cordless power and lightweight, handy tools!

Making gardening work really enjoyable – full cordless power at all times.

Due to innovative technology and superior know-how, Bosch now also offers its established reliability with modern lithium-ion batteries. Special protective electronics ensure that lithium-ion garden tools from Bosch achieve a maximum service life. The energy reserves are quickly replenished thanks to the fast battery chargers. This ensures that you immediately have access to the full battery power again.

World first: Offers unrivalled cordless performance.

Always ready for use:
no self-discharge, no memory
effect, extremely fast charging
in only 1 hour

High-performance 36V Lithium-Ion
battery for powerful cutting

Innovative grass combs:
cut close to the edge of walls,
flower beds and lawns

Up to 40% lighter than
conventional cordless
mowers

NEW!

Powerful: even cuts long grass
thanks to the powerful 36V
lithium-ion battery.

Extremely fast charging:
charge time of only 1 hour,
up to 16 times faster
than conventional lead acid
batteries.

Always ready for use:
no self-discharge, no memory
effect

16 times faster charging
After only 30 minutes the battery is
charged to 80%, and the full 100%
charge is available after 1 hour.

Mow right up to the wall

Grass growing close to the edge is
reliably guided to the blade and cut
cleanly.

Enormous power

The high-performance 36V lithium-ion battery
supplies maximum power, enabling you to
cut grass quickly and powerfully.

Amazingly lightweight

The Rotak cordless lawnmower is
considerably lighter than other cordless
mowers, meaning that it can be lifted
and moved around effortlessly.

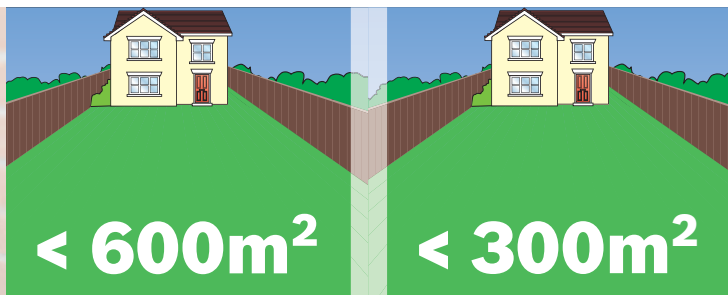

No cable, no petrol, full battery power for more freedom and enjoyment in the garden.

The new Rotak cordless lawnmower from Bosch is the first lawnmower that combines the power of an electric mower with the advantages of lithium-ion technology. Lots of power and extremely short charge times are the most important and most impressive advantages. And since the powerful lithium-ion battery has neither self-discharge nor memory effect, the new Rotak cordless lawnmower can be ready for use at all times.

Power pack, lightweight and compact: 36 volts of power
Modern lithium-ion technology makes it possible: the heart of the Rotak cordless lawnmower supplies a battery voltage of 36 volts, an amount of power otherwise provided only by mains-powered tools. At the same time, the higher energy density ensures that the battery, weighing only 1.2 kg, is considerably lighter than conventional batteries weighing up to 7 kg.

Continuous lawnmowing for large gardens

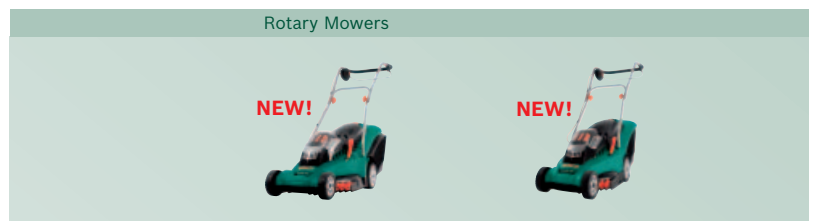

The Rotak 43 LI is recommended for lawn areas up to 600 m². Thanks to the fast charging process and two 36V batteries included with the lawnmower, you can mow your lawn continuously with the Rotak 43 LI.

For small to medium-sized gardens

The Rotak 37 LI is recommended for lawn areas up to 300 m². If required, the battery can be recharged up to 80% in only 30 minutes.

Always ready for use

No self-discharge, no memory effect: the compact, lightweight battery is always ready for use.

The new Isio from Bosch. Unbeatably handy and light!

The new Isio cordless shrub shear is perfect for shaping shrubs and hedges. Whether for individually designing small box shrubs on the balcony or patio – the new Isio is handy, very lightweight and always ready for use because the compact and lightweight lithium-ion battery provides full power and short charge times.

Charged four times faster

The lithium-ion battery of the Isio is charged faster than conventional batteries – with no self-discharge and memory effect, it can always be ready for use, when stored on the compact charger.

Practical charge indicator

After it has been used, the Isio can be simply and easily stored on the charger. The green light indicates that the battery is currently being charged.

Isio

Comfortable softgrip

No self-discharge, no memory effect, always ready for use thanks to innovative lithium-ion technology

Up to 50% lighter and 40% smaller than conventional cordless shears

NEW!

The new Isio cordless edging shears are the ideal product for accurately cutting the edges of your lawn. It is considerably lighter and more compact than comparable tools. The Isio is also suitable for larger gardens, allowing you to cut up to 600 m on one charge.

Flexible edging

The telescopic handle can be adjusted by 35 cm and allows for horizontal and vertical edging.

Compact and lightweight

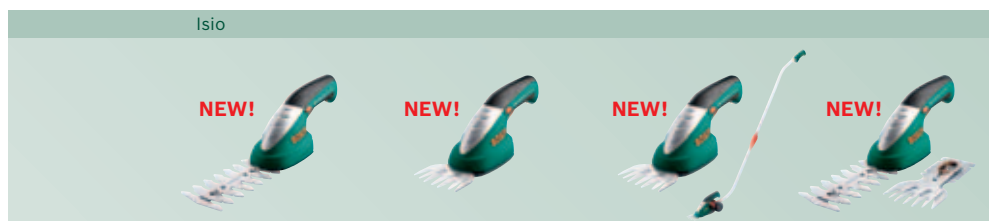

The new Bosch Isio is “handy” in the truest sense of the word! Thanks to lithium-ion technology, the Isio is up to 50% lighter and 40% smaller than conventional cordless shears.

Precise cutting

Laser-cut quality blades guarantee precise cuts at any angle.

Blade changing at the push of a button

Thanks to Bosch SDS, the blades of the edging and shrub shear can be quickly and easily changed without the need for tools.

800 metres without a cable.

Bosch Cordless Grass Trimmers – freedom without a cable. All are well balanced and easy to use. All Combtrim and Accutrim models have a cutter head that can be adjusted by 90 degrees for edging in the direction you are walking.

Less power consumption

The special plastic blade cuts accurately and efficiently which guarantees a long running time.

Replacement blade storage on the tool.

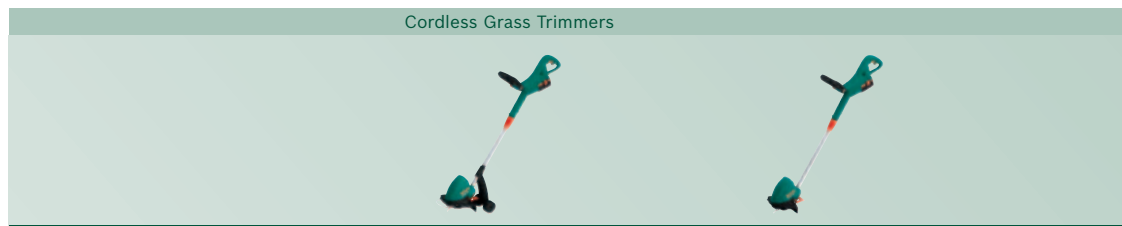

Fast effortless edging, in the direction you are walking. (Accutrim)

To trim under bushes, simply tap the pedal and adjust the cutter head. (Accutrim)

AHS 52 Accu

Powerful without a cable.

The Bosch Cordless Hedgecutters can even cut medium-thick branches because the cutting edge of the steel blade is diamond-ground. This guarantees powerful cutting – and makes it incredibly easy thanks to the low weight and practical design. The batteries included ensure high levels of endurance: 50 metres of hedge or 110 minutes running time with the battery double pack (AHS 52 Accu) and 25 metres of hedge or 55 minutes (AHS 41 Accu).

Optimum balance and ergonomics

Easy working in any position.

More stamina

50 metres of hedgecutting or 110 minutes running time with the double battery pack. (AHS 52 Accu)

Practical: one battery fits many other Bosch tools

While the battery is being charged, you can use another 18V or 14.4V NiCd battery from the wide range of Bosch DIY and Garden Tools. This user-friendly cordless technology allows you to conveniently change between numerous tools.

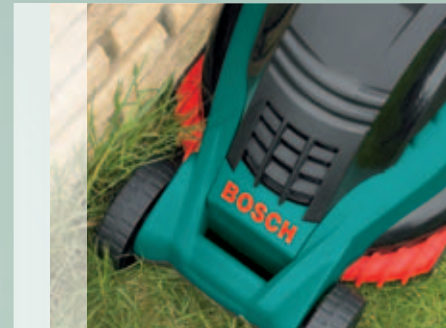

At last, mowing right up to the edge is easy.

Up to 40% lighter than conventional mowers

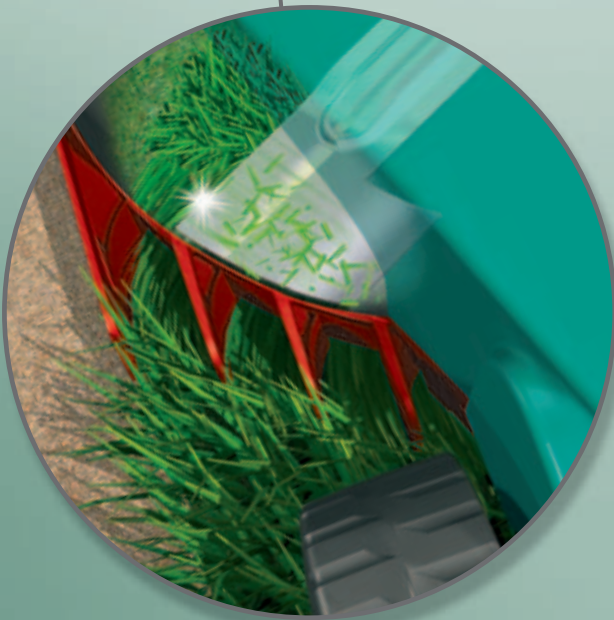

Easy to transport with large carrying handles

Powerful.
High-torque motor ensures a reliable cut, even under difficult conditions

Mow right up to the wall

The Rotak lawnmowers with innovative patented grass combs cut the lawn cleanly right up to the wall, saving you time tidying-up the edges.

The innovative Rotak grass combs

With in-set front wheels the grass combs enable cutting of grass growing close to the edge due to their special design. This means that they can cut the lawn cleanly along walls and edges, in areas that are usually left uncut by conventional lawnmowers.

The Rotak gives a significantly better cut than conventional lawnmowers. Its innovative patented grass combs offer unbeatable advantages: No other lawnmower can mow so close to the edge and even long grass is child's play for the Rotak.

Powerful: maximum power at the blade with the Powerdrive™ motor, even under difficult conditions.

Lightweight: up to 40% lighter than conventional lawnmowers.

Effective: cuts grass up to 30 cm long.

Sharp cutting right up to the edge

Also along flower beds, the Rotak allows for precise cutting in one operation and does not leave any strips of uncut grass behind.

Powerful in long grass

The Powerdrive™ motor gives a powerful cut thanks to maximum torque – even in grass up to 30 cm long.

Easy handling

Easy and convenient to handle, being up to 40% lighter than conventional lawnmowers.

Precise scissor-like cut.

Precise cutting and easy operation – these are the advantages of Bosch Cylinder Mowers. The “Quattro-Cut” 4 blade cutting cylinder, central 5-position height-of-cut adjustment and large rear grassbox ensure optimum cutting results. Convenient handling is guaranteed thanks to the ergonomic handle system.

ASM 32

Optimum cutting result

The special “Quattro-Cut” system with 4 bladed cutting cylinder for a precise scissor-like cut. (cylinder mowers)

Always ready for use

Lightweight and compact, the Bosch Handmower has simple “click” cutting adjustment. (Not available in the UK)

Gentle and effective

The metal Powerflex tines adjust automatically to undulations and retract over paving, avoiding damage.

Powerful and effective

The metal Powerflex tines of the lawn raker remove moss and debris powerfully and effectively.
