

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

Norman Says

"DRAPER EXPERT VORTEX" SYSTEM

THE REVOLUTIONARY DRIVE SYSTEM THAT RE-INVENTS THE SOCKET

The "Draper Expert Vortex" system features a hollow head design with flutes on the outside of the socket allowing the Vortex ratchet to drive the socket from the outside. This allows fixings to pass through both the socket and the ratchet, avoiding the depth restrictions encountered when using conventional sockets.
