Make it your home. With Bosch garden tools.

People use and enjoy their gardens in different ways. Some people just want to recuperate from their busy day-to-day lives and appreciate every minute they get to relax. Others take great care in looking after their plants and outdoor space.

Whether it's alfresco dining, kicking a ball around with the kids, or taking pride in a well-maintained garden, Bosch garden tools ensure effortless gardening that will help you enjoy your outdoor living area.

Nothing beats cordless freedom:

Bosch has a complete range of cordless garden tools to make gardening as easy and enjoyable as possible. Cordless tools eliminate the need for a cable thereby offering unrestricted movement without the hassle of untangling and with no risk of cutting the cable. In addition, cordless tools are lightweight compared to conventional petrol tools, are easy to start and produce no petrol fumes.

The latest cordless technology using lithium-ion batteries offers many advantages

- ▶ tools are compact and lightweight
- ▶ lithium-ion batteries have no memory effect or self-discharge so tools are always ready to use
- ▶ short charge times

Bosch offers the flexibility of combining tools, batteries and chargers within the 36 V and 18 V tool ranges.

Unbeatable Bosch technology delivers house-to-garden solutions.

Bosch goes one step further. The Bosch lithium-ion technology offers long battery life, Electronic Cell Protection and intelligent power management. In addition to this, our garden tools are designed and engineered to get the most out of the lithium-ion batteries. This ensures that you get maximum performance, power and reach out of your tools. A good example of this is the innovative 'Efficient Energy Management' found on our cordless Rotak mowers, which gives increased run time.

Another example is the increased cutting performance on our shrub shears thanks to the groundbreaking 'Anti-Blocking System'. With Bosch garden tools, rest assured that you are always at the forefront of technology.

You'll find Bosch Tools are easier than ever to handle, use and manoeuvre, making your home and garden jobs easier and even more enjoyable.

Experience Bosch with multimedia!

This Bosch catalogue not only provides you with printed information. The small code squares – known as QR codes – can be scanned using a web-enabled smartphone. This will deliver moving pictures from the Bosch catalogue directly to your mobile. With interesting product information and application examples. Give it a try!

A lush garden scene with a wooden bench in the foreground and various colorful flowers in the background. The background is filled with green foliage and flowers in shades of red, white, and purple. The bench is made of dark wood and is positioned in the lower third of the frame.

The gardening season.

A time for satisfaction.

Simply take a moment to sit down, take a deep breath and replenish your energy. The short breaks you take from your day-to-day stress are always the best, especially in a garden that is easy to maintain. And even more so when you use garden tools that are handy, powerful and quiet. In addition to a full range of corded tools, Bosch also offers you new products with lithium-ion technology for cordless freedom, enormous time saving due to powerful batteries, and more convenience because they weigh so little. All of this is to ensure that you can put your feet up sooner and make the most of spring and summer. After all, what is the point of having a garden? To enjoy yourself, have a barbecue, meet up with friends and relax.

Lawn care

Robotic mower	8–9
Cordless Rotak mowers	10
Corded Rotak mowers	11
Lawn raker	12
Verticutter	13
Range overview	14–15

A beautiful lawn.

And everything you need to maintain it.

The type of lawnmower you require depends on the size of your lawn and what you use it for. We've got all the tools to help you keep your lawn in tip-top condition.

If your lawn is a space for playtime and leisure, you'll want to spend as little time as possible keeping it in shape. The **Rotak rotary mower** from Bosch comes with a 'Powerdrive Motor', which effortlessly cuts through all kinds of grass, even when it's long. Some models of the range of Rotak mowers also benefit from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing the lawn. And their innovative grass combs – this comes as standard even on our smallest model, the Rotak 32 R – let you cut right up to the edge. Which means you get more time to relax as your lawn does not require additional finishing touches.

If you find extension cords or petrol a hassle, our **Rotak cordless mowers** could be just the thing for you. They give you power, freedom and energy efficiency – plus all the benefits of our Bosch lithium-ion technology.

With a cutting width of 43 cm and two batteries, the Rotak 43 LI is perfect for larger lawns.

If you prefer not to mow the lawn yourself at all, you can now choose the innovative robotic lawnmower Indego from Bosch. Thanks to its 'Logicut' system, the Indego calculates an efficient route and mows it in clean, parallel lines. While the Indego is working, you can attend to other projects.

We've also got tools to help you keep your lawn healthy and lush. A **lawn raker** will efficiently and gently remove moss in its earliest stages of growth, without damaging grass. And if moss has already taken hold, a **verticutter** will help you remove the growth and prepare the lawn for reseeding.

You'll find a handy overview of all Bosch lawn care products on pages 14–15.

Mows all by itself, so you can enjoy other projects.

Just leave it to the Indego. It mows your lawn, finds its way all by itself and always delivers the perfect cut. How does it achieve this? It's simple – with Logicut. The intelligent navigation system automatically measures your garden, calculates the shortest possible route and gets mowing in parallel lines. Following installation, some simple programming is all that is needed to get it ready to do the work for you. Thanks to its efficiency the Indego uses very little power. It's also quiet when cutting and doesn't emit any exhaust fumes making it a good choice for you and the environment. If it finds a branch in its way – that's not a problem either. The Indego automatically mows around it. It's actually so autonomous that it can charge its lithium-ion battery pack itself from its charger. It also cares for your lawn as the short grass clippings act as a mulch. It can be used in most weather conditions, handles up to 35 % slopes, boasts all-round safety features and is protected from theft by a PIN and alarm system. Let the Indego take care of the lawn so that you can take care of other projects.

Logicut!

WITH 'LOGICUT'

WITHOUT 'LOGICUT'

Quick, accurate mowing, line by line

Mowing systematically means mowing more efficiently. The Indego uses its 'Logicut' technology to calculate a short mowing path and gets mowing in orderly parallel lines. The Indego easily moves through line by line, ensuring that no patch of grass is overlooked or repeatedly mowed. This is kind on your lawn, saves time and power and allows you to enjoy your garden in peace. Simply logical – simply efficient

Mowing without 'Logicut'

A random approach is taken when mowing without 'Logicut'. In other words, mowing continues until all of the lawn has been evenly mowed. It takes longer as it is cutting the same patches several times.

Mows all by itself

Find out more about the Indego, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

Clever at every level

Intelligent and efficient! With its 'Logicut' navigation system, the Indego autonomously measures the garden and automatically calculates an efficient mowing path. Line by line, parallel and quickly.

Practical at every level!
Three application examples:

1. Rain or shine, the Indego mows.

2. Even on lawns with up to a 35% slope.

3. Cares for your lawns through mulching.

Convenient at every level!
Simply start! The Indego is ready to go in just three simple steps:

1. Position charger and lay perimeter wire.

2. Set the mowing times and days of the week.

3. Press the start button – and off it goes!

Safe at every level!
Three examples of its safety features:

1. The Indego uses a bump sensor to detect obstacles on the lawn to avoid them.

2. When lifted, its mowing blades stop immediately.

3. The Indego is protected from theft by a PIN code and alarm system.

NEW! Rotak 32 LI Ergoflex cordless lawnmower. A compact mower for a city landscape.

The Rotak 32 LI Ergoflex: no annoying cable, no noise, no exhaust fumes. Instead it has a great deal of power for lawned areas of up to 300 m² – thanks to the latest Bosch lithium-ion technology. **Our full range of cordless mowers can be found on pages 14–15.**

*Rotak 43/37/32 LI
Rotak 43/40/37/32 Ergoflex

The AGR-quality cachet
The 'Ergoflex System' is approved by the renowned German institution AGR which promotes research into the prevention of back problems.

Effortless handling, cordless freedom

Find out more about the Rotak LI Lawnmower range, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

'Ergoflex System'
Ergonomically designed and adjustable handles to improve body posture and reduce muscle strain while mowing

Lightweight
For easy manoeuvrability and carrying

Cordless power
2.6 Ah lithium-ion battery for 300 m² lawns

More power
'Efficient Energy Management' increases runtime by up to 15%

Central height-of-cut adjustment
For convenient use

Front loading battery
For easy access

Foldable handles
For compact storage

31 litre grassbox
For less time spent emptying

Innovative grass combs
Cut close to the edge of walls, flower beds and lawns

Cordless freedom and power
Cable-free for unrestricted mowing with negligible emissions.

Effortless control
The 'Ergoflex System' and lightweight design gives reduced strain on muscles and more control whilst mowing.

CUTS UP TO THE EDGE

Cutting edge precision
Sharpened blade and grass combs combine to deliver clean, close-up cutting.

Rotak 37 Ergoflex rotary lawnmower.

Effortless handling right up to the edge.

The Rotak 37 Ergoflex electric lawnmower with innovative grass combs cuts the lawn right up to the edge. The 'Powerdrive Motor' delivers powerful cutting and it can even tackle grass up to 25 cm long thanks to its high torque. **Our full range of corded mowers can be found on pages 14–15.**

*Rotak 43/37/32 LI
Rotak 43/40/37/32 Ergoflex

POWERDRIVE MOTOR

Powerdrive Motor
1400 watt 'Powerdrive Motor' ensures a reliable cut, even under difficult conditions and high load.

Effortless control
The 'Ergoflex System' and lightweight design gives reduced strain on muscles and more control whilst mowing.

CUTS UP TO THE EDGE

Cutting edge precision
Sharpened blade and grass combs combine to deliver clean, close-up cutting.

ALR 900 lawn raker.

Thorough moss removal and aeration.

Your lawn will only flourish if you regularly free it from moss and leaves. You can remove both of these using the Bosch lawn raker by setting its 10 spring steel tines to the corresponding height from -5 mm to gently comb out thatch without damaging the grass to +10 mm to collect leaves. The 'Jet-Collect System' creates an airflow to blast everything into the collection box, therefore preventing annoying blockages.

Efficient

The combination of the 900 W 'Powerdrive Motor' and the 'Jet-Collect System' provides fast and clog-free raking at a working width of 32 cm.

POWERDRIVE MOTOR

Compact storage

Double folding handle, stackable collection box

Large 50 L collection box

For less stopping and time to empty it

'Jet-Collect System'

Innovative drum with spring carbon steel tines and airflow inlets quickly and completely removes thatch and moss

Compact storage

Easy to stow away thanks to storage height of only 40 centimeters.

'Jet-Collect System'

Blows moss, thatch or dead roots completely into the collection box.

Practical

Large 50-litre collection box means less stopping and time to empty it.

AVR 1100 verticutter.

Deep cutting for moss removal and reseedling.

Is your lawn more than two years old? Has your lawn been regularly maintained? Is your lawn infested with moss or thatch? Or is it waterlogged in places? If so, then you need the AVR 1100 verticutter to provide efficient, intensive care for your lawn. The carbon steel blades slit from -10 to +5 mm into the ground, therefore preparing it quickly for reseedling.

POWERDRIVE MOTOR

Compact storage
Double folding handle,
stackable collection box

Large 50 L collection box
For less stopping and
time to empty it

'Jet-Collect System'
Innovative drum with boron steel
blades and airflow inlets quickly
and completely removes the layer
of thatch consisting of plant debris,
moss and weeds from the lawn

Efficient

The verticutter frees the turf from thatch, moss, weeds and dead grass. Scarifying the surface opens the soil to enable the exchange of water and gas, stimulating stronger healthy growth of the lawn.

'Jet-Collect System'

Innovative drum with stainless steel blades and airflow inlets quickly and completely removes the layer of thatch consisting of plant debris, moss and weeds from the lawn.

Practical

Large 50-litre collection box means less stopping and time to empty it.

Lawn edging

Cordless grass shears	18
Cordless grass trimmers	19–20
Corded grass trimmers	21–22
Range overview	22–23

Neat lawn edges.

A made-to-measure tool range.

To put the finishing touches to your lawn, you will need to trim the areas that your lawnmower cannot reach.

If you only need to cut small corners or sections of the lawn, then all you need is a pair of grass shears. The compact, handy **Bosch cordless Isio** with lithium-ion technology is very lightweight and cuts the edges of your lawn precisely. A telescopic handle is available to enable you to cut without having to bend down.

The bigger and more complex your garden is, the more you have to work to maintain the lawn edges along paths, walls, fences, corners and around stones, shrubs, trees and flower beds. Bosch offers **cordless and corded grass trimmers** to help you with this.

Corded grass trimmers provide high power and cutting diameters of up to 35 cm. They give great results in little time. Then there are **cordless grass trimmers** that offer the greatest freedom of movement, are not dependent on a plug socket and are low in weight.

Whether cordless or corded, this comprehensive selection of tools ranges from standard models to more sophisticated **grass trimmers** with 90° rotating cutter heads, height-adjustable telescopic handles and plant protectors.

An overview of the complete range of Bosch products for cutting lawn edges can be found on pages 22–23.

Isio cordless grass shear.

Lightweight and powerful.

Sheer excellence is the only way to describe the Isio. Compact and lightweight, it's fantastically easy to handle. With high-quality Swiss blades and lithium-ion technology, the Isio gives you up to 50 minutes run time on a single battery charge. Its 'Anti-Blocking System' which reverses the blades to cut through higher branches, means there's virtually no stalling, so you'll sail through the task in hand. And its telescopic handle accessory makes the Isio even more convenient to use.

Compact and lightweight

Only 500 g for comfortable use. For extra convenience, use with the telescopic handle accessory that is height-adjustable.

Powerful

Ensure continuous cutting through dense grass thanks to the electronic anti-stall device 'Anti-Blocking System'.

Always ready to use

Lithium-ion powered tool with integrated battery status indicator and 3.5 hours charge time.

ART 35 heavy duty trimmer.

Versatile grass trimming for stubborn growth.

For areas with stubborn growth, the ART 35 is ideal for heavy duty trimming. Its powerful 600 W motor enables fast trimming without blockages and the 1.6 mm cutting line lets you cut thicker, tougher grass and weeds. The ART 35 has an adjustable second handle to let you undertake grass trimming with ease, whilst the shoulder strap makes sure you're well balanced for comfortable trimming. This trimmer has been ergonomically designed to help you tackle hard to reach areas of the garden and the durable materials ensure a long service life. **For our full range of corded grass trimmers please see page 22.**

POWERFUL

Powerful
600 W and 1.6 mm thick line ideal for cutting overgrown grass.

VERSATILE

Versatile
Provides easy access to slopes and confined areas.

ERGONOMIC

Ergonomic
Ergonomic design and shoulder strap for easy handling and operation.

ART 26 LI cordless grass trimmer.

Cordless power up to 1000 metres.

With a Bosch cordless grass trimmer, you'll be able to edge for up to a kilometre on a single charge, with no need for cables. Its blade system gives you a 26 cm cutting diameter, while its plant protector ensures precision trimming around fragile plants. The telescopic handle lets you adjust the trimmer to a perfect height, and the softgrip and large safety switch make this piece of equipment really easy to handle.

Our full range of cordless grass trimmers can be found on page 23.

Durable

High power tool, trims up to 1000 metres with one battery charge.

Versatile

Adjustable telescopic shaft and handle for comfort. Rotating cutter head enables walk behind edging.

Power4All

All 18 V lithium-ion batteries are interchangeable between other 18 V lithium-ion garden and power tools, part of the Power4All family. Please see pages 69–71 for more information.

ART 30 Combitrim grass trimmer.

Made for overgrown areas.

Stubborn, overgrown areas are no match for a Bosch Combitrim. Its 500 W 'High-Power' motor and changeable cutting system let you storm through wild and unruly patches of undergrowth just as easily as normal grass. The ART 30 Combitrim has a 90 degree rotating cutter head to let you tackle trimming and edging with ease. The easy grip and height adjustable telescopic handle mean you'll do it with perfect posture too. **Our full range of corded grass trimmers can be found on page 22.**

Powerful

Ideal for edging and use in medium and large gardens including overgrown areas. The powerful 500 W motor and 30 cm cutting width delivers an all-round performance.

Convenient

Maintaining optimum line length is easy – simply tap on the ground to control line feed. Spool replacement is convenient and sealed spools prevent tangling.

Versatile

Two spools, one for normal grass and one with extra-strong line for more stubborn growth.

ART 26 Easytrim grass trimmer.

Lightweight design takes the strain out of trimming.

This electric grass trimmer comes with a powerful 300 W motor, ideal for all your basic trimming needs. Work without straining thanks to the 100 cm shaft and secondary handle that lets you trim your lawn in a variety of working positions. The ART 26 Easytrim offers a 26 cm cutting diameter and features a convenient pro tap spool with a standard trimmer line for most garden conditions. **Also available with a 23 cm cutting diameter. See page 23 for more details.**

CONVENIENT

Convenient
Simply tap on the ground to feed through the 4 meters of trimmer line. Spools are quick and easy to replace when finished and sealed spools prevent tangling.

LIGHTWEIGHT

Lightweight
Only 1.8 kg for easy, ergonomic handling without tiring the arms.

The gardening season.

A time for living.

What is better than enjoying nature in an idyllic garden full of peace, quiet and tranquillity? Here there is always something to change or add because you may develop new preferences and higher expectations as the years go by. This is why good tools also become increasingly important for gardening. Whether mowing the lawn or cutting hedges – the innovative Bosch Garden Tools make all types of gardening work easier for you. Many of the new products are equipped with lithium-ion batteries, which makes them extremely powerful and lightweight. They turn the wildest of gardens into a haven of tranquillity without the need for a plug socket.

Shrub and hedge care

Cordless shrub shears	28-29
Cordless hedgecutters	30-31
Corded hedgecutters	32-33
Range overview	34-35

In good shape.

The best tools for cutting.

Shrubs and hedges can be very easy to maintain. Regular cutting is by far the most important way of looking after them.

It is essential that you choose the right tools to do this. The **Isio cordless shrub shear** is a great choice for creative shaping of topiary, small leafed plants such as box trees, yew trees and privets.

The **ASB 10.8 LI cordless shrub shear** is powerful, while still compact and lightweight for ultimate agility. You'll find the ASB shrub shear the perfect tool for shaping your shrubs just the way you want them.

Both the **Isio** and **ASB** benefit from the innovative 'Anti-Blocking System' which virtually prevents all chance of stalling.

A complete range of **cordless and corded hedgecutters** are available for maintaining your hedges.

Cordless hedgecutters offer more freedom of movement and remove the risk of cutting through a cable. Our new cordless lithium-ion hedgecutters with 'Anti-Blocking System' are compact and lightweight for effortless hedgecutting of smaller and younger hedges.

Choose the required tooth opening based on the branch thickness of your hedge. When doing so, remember that a hedge will grow. If in doubt, it is best to choose the next tooth opening up. The height and depth of the hedge determine the optimum blade length.

An overview of the complete range of Bosch shrub and hedge care products can be found on pages 34–35.

Isio cordless shrub shear.

Lightweight and powerful.

The most compact and lightweight lithium-ion shrub shear now offers even more power and performance than its predecessor. Its precision ground quality blades with 120 mm blade length and 8 mm tooth opening are perfect for shaping shrubs and small hedges without stalling. Its outstanding ergonomics also make it easier to work in hard-to-reach areas.

Compact and lightweight
For effortless trimming and shaping of bushes and small leafed hedges.

Powerful
Compact and manoeuvrable tool with 'Anti-Blocking System' that reverses the blade action for extra cutting and virtually no stalling.

Always ready to use
Lithium-ion powered tool with integrated battery status indicator delivers up to 50 mins run time.

ASB 10,8 LI cordless shrub shear.

Our strongest ever shrub shear for ultimate agility.

Shrub shearing has never been easier. Our ASB 10,8 LI shrub shear weighs in at just 900 g, giving you complete control to shape your shrubs and young hedges in exactly the way you want them. Its balanced design makes it highly manoeuvrable, and our 'Anti-Blocking System' lets you cut continuously without stalling.

Lightweight

Weight of only 900 g for effortless cutting of bushes and small leafed hedges.

ANTI-BLOCKING SYSTEM

Powerful

Compact and manoeuvrable tool with 'Anti-Blocking System' that reverses the blade action for extra cutting and virtually no stalling.

Always ready to use

Lithium-ion powered tool with integrated battery status indicator delivers up to 100 mins run time.

AHS 54-20 LI cordless hedgecutter.

Cordless mobility and maximum power.

This cordless hedgecutter makes work easier for you. Thanks to its lithium-ion technology, it's durable and is not dependent on a plug socket. It weighs only 3.5 kg and is ergonomically balanced. This means you can cut in any position without getting tired. Its 'Anti-Blocking System' and diamond ground steel blade guarantee a powerful cut.

Cordless freedom
No more having to untangle the cable or risking cutting through it.

ANTI-BLOCKING SYSTEM

Powerful
Where other hedgecutters stop working, 'Anti-Blocking System' ensures a continuous cutting performance.

Always ready to use
36 V lithium-ion battery, interchangeable with other Bosch 36 V lithium-ion tools. Fully charged in only 45 minutes (80% in 25 min).

AHS 52 LI cordless hedgecutter.

Lightweight, maximum performance.

This cordless hedgecutter ends the hassle of untangling and the risk of cutting the cable. Ergonomically balanced and weighing only 2.3 kg, it enables you to cut in any position with minimum effort. Its 'Anti-Blocking System' ensures a continuous cutting performance. **Also available with different blade lengths – see pages 34–35.**

NEW! AHS 45-15 LI cordless hedgecutter.

Lightweight and cordless for effortless hedgecutting.

The new AHS 45-15 LI cordless hedgecutter from Bosch is the ideal solution for smaller and younger hedges. Its low weight and extremely compact size are kind to your arms and back. The ergonomically shaped handles and the optimum balance make it easy for you to cut your hedges into shape. **Also available with different blade lengths – see pages 34–35.**

ANTI-BLOCKING SYSTEM

Powerful

Where other hedgecutters stop working, 'Anti-Blocking System' ensures a continuous cutting performance.

BATTERY SYSTEM

Power4All

All 18 V lithium-ion batteries in the Power4All family can also be used in other 18 V Bosch Power4All garden and DIY tools. Please see pages 69–71 for more information.

Cordless freedom

No more having to untangle the cable or risking cutting through it.

10.8 V LI BATTERY

Always ready to use.

Battery interchangeable with other 10.8 V Bosch lithium-ion tools.

AHS 70-34 hedgecutter.

Lightweight and extremely powerful for the toughest jobs.

The AHS 70-34 is lightweight and extremely powerful. Nimble, yet effective, it lets you storm through big jobs with minimal strain on your back and arms. It's up to 15% lighter than its predecessor, and its ergonomic handle and smaller dimensions allow you to work easily in different positions. **Also available with different blade lengths – see pages 34–35.**

Optimum handling
Well-balanced design makes it up to 15% lighter than predecessors.

Easy-to-use
See-through hand guard, soft grip handle and multiple switching positions ensure safer and more comfortable cutting.

Maximum performance
700 W motor and a newly-designed blade with sawing function and 34 mm tooth opening.

AHS 60-26 hedgecutter.

Less weight and more power, ideal for mid-sized hedges.

This nifty hedgecutter weighs up to 10% less than previous models – so it takes the strain off your arms and back. With its multi-position handle and compact size, the AHS 60-26 takes the sweat out of handling medium-sized hedges. **Also available with different blade lengths – see pages 34–35.**

Blade tip protector
For easy cutting along the edges of walls and paths.

AHS 60-16 hedgecutter.

Lightweight and powerful for convenient hedgecutting.

This compact, lightweight hedgecutter is a true gem that's perfect for small to medium hedges. It is ergonomically designed to be comfortable to use in any position. Its high speed motor and powerful 16 mm tooth opening give you outstanding cutting performance. Which all means that tidying up your hedge takes a lot less effort.

Also available with different blade lengths – see pages 34–35.

Convenience
A well-balanced tool with ergonomic handles to ensure a more comfortable working position.

Effortless handling
Lightweight hedgecutter, designed to put less strain on your arms and back.

* with Toolbox

An overview of the complete range of Bosch accessories can be found on pages 61–66.

A photograph of a garden in autumn. A person is raking leaves on a lawn, with a child nearby. A lawnmower is visible in the background. The scene is set in a lush garden with trees and bushes showing autumn foliage.

The Autumn season. A time for relaxation.

The garden is the ideal place to clear your head. Let the kids play around while you take care of your plants. Shrubs and trees grow old and rose bushes need to be pruned every now and then. There is a lot to do, and every task you perform in the garden takes your mind off other things. The sooner you achieve good results and the easier it is to do, the better. This is best accomplished with garden tools that are constantly improved and enhanced, providing you with useful innovations to help you be efficient. After all you aim to achieve the highest standards not only in your job. Quality and service should live up to those standards in all walks of life. It is good to know that you can access information about new products and technologies 24 hours a day on the internet at www.bosch-garden.com.

Tree care

Ciso cordless secateurs	40
Keo cordless garden saw	41
Cordless chainsaws	42
Corded chainsaws	43-44
Shredders	45-47
Range overview	48-49

Neat and tidy.

With Bosch garden tools for tree care.

For you to be able to enjoy a tidy garden, having the right secateurs, saws and shredders is essential.

For pruning branches and twigs use the **Ciso cordless secateurs**. This lithium-ion powered product is conveniently lightweight and enables comfortable cutting with minimal effort.

The **Keo cordless garden saw** is immensely versatile and packs a real punch. It can be used to cut anything from livewood and deadwood, through to metal and plasterboard.

For the more demanding cutting jobs, Bosch offers a range of **chainsaws**. The selection of a chainsaw should be based on power, chain speed and frequency of use.

Electric chainsaws have the advantage of being easy to use as they are maintenance-free and also extremely powerful. Our **cordless AKE 30 LI** is one of the most efficient, powerful and easy-to-use cordless chainsaws on the market.

The **Rapid shredders** are ideal for small gardens mainly consisting of shrubs, foliage plants and smaller branches.

Quiet shredders with cutting drum mechanisms are highly recommended for medium-sized gardens with larger trees, old hedges and a lot of wooden garden material.

Quiet shredders with the 'Turbine-Cut System' are perfectly suited to large gardens with all types of plant material.

An overview of the complete range of Bosch tree care products can be found on pages 48–49.

Ciso cordless secateurs.

Pruning made easier.

The world's first cordless secateurs with integrated lithium-ion battery. The Ciso makes clean cuts 'at the squeeze of a trigger': more than 500 cuts with one battery charge. Soft wood up to 14 mm and hard wood up to 9 mm in diameter, the Ciso gives a clean cut due to the bypass cutting system. The ergonomically designed Ciso weighs only 590 g and does not tire you out, even if used for lengthy periods of time.

Pruning made easier

Find out more about the Ciso, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

Effortless

World's first battery integrated lithium-ion secateurs replacing the straining manual cutting action.

Strong performance

'Power-Blade System' for powerful pruning with a cutting diameter of up to 14 mm.

Always ready to use

Lithium-ion battery technology with no memory effect and no self-discharge. Delivers up to 500 cuts of 9 mm soft wood with one battery charge.

Keo cordless garden saw.

Cuts effort as well as branches.

The Keo garden saw can be effortlessly operated single-handedly thanks to the innovative 'A-Grip' feature, which supports branches so you don't have to use your second hand. With low vibration, low noise and variable speed trigger, the Keo garden saw offers optimal user comfort whilst always ensuring a powerful and fast cutting experience, thanks to its precision Swiss blade.

Effortless cutting

Versatile help around house and garden. Cuts branches up to 80 mm with the push of a trigger. Delivers up to 30 cuts of 6 cm diameter or up to 190 cuts of 1.5 cm diameter per battery charge.

Always ready to use

Lithium-ion powered tool with integrated battery status indicator and only 3 hours charge time.

Hassle free

Detachable 'A-Grip' that holds the unsupported branches while cutting – no second hand required.

AKE 30 LI cordless chainsaw.

No petrol, no cable, full power.

Choosing the AKE 30 LI will give you one of the most efficient, powerful and easy-to-use cordless chainsaws on the market. There will be no cables, no extension leads and none of the hassle of petrol start up. The AKE 30 LI is always ready to use and will handle any cutting task around your garden.

Environmental label 'Der Blaue Engel' awarded for low noise and low emission garden tools. RAL-UZ 129

Oil level indicator and automatic oiling

To avoid running the chainsaw dry

Ergonomic handles

Softgrip and ergonomic shape for increased manoeuvrability

Dual brake system

Rapid rundown brake for normal operation plus electronic kick back brake with audible warning for increased safety

Compact design

With 30 cm bar length

High chain speed
8 m/s

Tool-less SDS system

For a quick and easy start to work

36 V / 2.6 Ah High Power lithium-ion battery

Provides high performance for all garden tasks

No petrol, no cable, full power

Find out more about the AKE 30 LI, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

Freedom

Cordless lithium-ion power delivers over 100 cuts in 10 x 10 cm pine wood with one battery charge.

Quick start

No untangling cables, no petrol start up hassle – always ready to use.

Powerful

Efficient high performance battery that copes with any task around your garden.

AKE 35 S electric chainsaw.

Powerful and safe.

This chainsaw has a chain speed of up to 9 m/s for fast and precise cutting of wood up to 35 cm in diameter. It has a kick back brake that stops in under 0.1 seconds for ultimate user safety and is perfectly balanced for comfortable working in any position. It also has the practical Bosch SDS tool-free system and automatic oil lubrication to minimise wear and tear on the chain. **For our full range of electric chainsaws please see page 48.**

FREQUENT USE

Sharper for longer

Three layer chrome coated chain for a long service life even with frequent use.

Top performance

The high torque 1800 W motor delivers optimum power and a fast chain speed.

Easy to use

SDS system for tool-free changing and tensioning of the chain.

AKE 40-19 S chainsaw.

Incredibly fast.

The AKE 40-19 S electric chainsaw features simple, tool-free chain assembly and tensioning. The kick-back brake operates in less than 0.1 second, disabling the chainsaw almost instantaneously. The large steel gripping teeth allow for good leverage, accurate cutting and reduced possibility of kick-back. **Also available with a 35 cm barlength – see pages 48–49.**

Easy to use
SDS system for tool-free changing and tensioning of the chain.

Extremely robust
Superior quality for frequent use and long life.

High performance
1900 W with a chain speed of 12 m/s for outstanding cutting performance.

AXT 25 TC quiet shredder.

Versatile, multi-purpose shredder.

Ideal for all types of wood and green material.

Do you want to shred your garden waste without having to separate green material from wood? Bosch has a quiet shredder with 'Turbine-Cut System' for all types of wood and green material. You also get your work finished more quickly due to the fast feed hopper and automatic feed for fast material throughput. The removable hopper even fits exactly in the collection box to ensure space-saving storage. **Also available with 2300 W motor power – see pages 48–49.**

Environmental label 'Der Blaue Engel' awarded for low noise and low emission garden tools. RAL-UZ 54

TURBINE-CUT SYSTEM

'Turbine-Cut System'

The 'Turbine-Cut System' guarantees extremely fast material throughput from greenery to hard wood whilst avoiding blockages.

Top performance

Up to 230 kg/h material throughput and up to 45 mm branch diameter cutting capacity.

Convenient

Removable hopper is stored in the large collection box – only 67 cm in height when stored, ideal for compact storage.

AXT 25 D quiet shredder.

Powerful shredding performance.

Ideal for shrubs and medium sized branches.

The AXT 25 D quiet shredder with a branch cutting capacity of up to 40 mm diameter is ideal for hard wood, old hedges and thorny shrubs. The drum cutting system cuts and crushes all in one go producing high quality biodegradable shredded material.

Environmental label 'Der Blaue Engel' awarded for low noise and low emission garden tools. RAL-UZ 54

Automatic feed and low noise levels
For extremely convenient shredding

Cutting capacity of up to 40 mm
For powerful shredding

Practical collection box
53 L capacity for easier collection of the shredded material

Removable hopper
For easy filling and safe release of blockages

'Drum-Cut System'
With optimised drum design and 2500 W motor power to cut and crush

Collection box safety function
The tool only works when the collection box is in position

DRUM-CUT SYSTEM

'Drum-Cut System'
With a powerful 2500 W 'High-Power' motor, the drum cutting system delivers an impressive material throughput of up to 175 kg/h.

Enhanced safety
The shredder only works when the collection box is in position for enhanced safety.

Convenient
Removable hopper is stored in the large collection box – only 67 cm in height when stored, ideal for compact storage.

AXT Rapid 2200 blade shredder.

Razor sharp – for fast shredder performance.

Ideal for green material.

If you mainly have to shred green, soft material, then you should use the Rapid shredder. It has the impressive Bosch 'Powerdrive Motor' for high material throughput, a laser-cut precision blade made of specially hardened steel for high cutting performance, and approximately seven times better cutting power than its competitors. It really does its name justice. **Also available with 2000 W motor power – see pages 48–49.**

Large capacity hopper
For quick and easy feed

Cutting blade
Swiss-made,
hardened steel,
double-ided
cutting blade

Practical plunger
For increased material
throughput

**Cutting capacity of
up to 40 mm**
For powerful shredding

**High-speed Bosch
'Powerdrive Motor'**
With 2200 W and
high torque

BLADE CUTTING SYSTEM

'Blade-Cutting System'

The 2200 W 'Powerdrive Motor' helps the laser-cut precision blade deliver a material throughput of up to 90 kg/h with up to 40 mm cutting capacity.

Convenient

Fast feed hopper and practical plunger for easy filling and fast material throughput.

Cutting capacity

Up to 40 mm for powerful shredding of green and soft material.

AMW Multi-tool.

The all purpose tool for the all purpose lifestyle.

Instead of buying dedicated gardening tools, spending time and effort in setting up all dedicated gardening tools, Bosch AMW Multi-tool system helps you manage the key gardening tasks with one power unit and the required attachments.

Every feature and design element of the multi-tool system is constructed to deliver outstanding performance, user comfort and convenience:

AMW 10 (power unit) provides a maximum of 1000 watts to operate the attachments in optimal speed and power. The adjustable auxiliary handle, and three shoulder strap positions are engineered to account for size and height of different users. This enables easy work for various ground work for extended periods of time.

The attachment change design provides a safe and quick swap of the tools.

AMW HS (pole hedgecutter attachment) comes with a 43 cm long blade and a 15 mm tooth opening. Equipped with the 180° head adjustment function for easy overhead trimming.

AMW SG (pole pruner attachment) delivers comparable cutting speed of a standard 12 m/s chainsaw. Its overall 2.1 m tool length provides precise overhead cutting.

Not enough? You can add the 70 cm long **AMW TS** (extension pole) to the pole hedge cutter or pole pruner attachment to reach a further height, meaning more possibilities!

No more fuss with winding and changing the spool line! **AMW RT** (heavy duty trimmer attachment) uses 3.5 mm thick cutting sticks for cutting more grass in tougher conditions without the worry of quick line replacement.

An overview of the complete range of Bosch products for AMW Multi-tool can be found on page 54–55.

AMW Multi-tool.

Trim. Cut. Prune. The all purpose tool for the all purpose lifestyle.

Complete a large number of gardening tasks with only one tool. With three elaborately designed attachments, the AMW 10 multi-tool can be used as either a heavy-duty trimmer, a pole pruner or a pole hedgecutter. The attachments are fitted to the tube of the power unit in only three steps: loosen the adjusting knob, insert the attachment until it clicks in, and tighten the adjusting knob. The trimmer, pole hedgecutter or pole pruner is then ready to use.

ERGONOMIC

Ergonomic design
for better handling and less strain on your back when working for extended periods of time

EFFORTLESS

Quick attachment change
No tools are needed to switch between applications.

POWERFUL

Powerful
1000 W motor delivers outstanding cutting performance.

VERSATILE

Versatile
Tackle trimming, tree pruning and hedgecutting with just one tool.

Tube Cover
With hook for easy storage

Heavy-duty trimmer

Angled drive shaft
With guard for a safer cut and minimal grass deflection

3.5 mm thick cutting sticks
State-of-the-art design for heavy duty trimming

The all purpose tool for the all purpose lifestyle
Find out more about the Multi-tool AMW, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

EFFICIENT

Heavy-duty trimmer
3.5 mm thick cutting sticks for powerful trimming

Angle adjustment
180° angle adjustment for easy overhead cutting

15mm tooth opening
Cuts even medium-weight branches with ease

43 cm blade length
Long enough to deal with most overhead jobs

CONVENIENT

Pole hedgecutter
180° blade rotation for adapting blade to any work situation

High chain speed
Extremely fast at 12 m/s

26 cm cutting length
With compact chain design for outstanding overhead cutting

Automatic oiling system
to make sure your pole pruner doesn't run low on oil

HIGH PERFORMANCE

Pole pruner
Delivers comparable cutting speed of a standard 12 m/s chainsaw

Pole pruner

An overview of the complete range of Bosch accessories can be found on pages 61–66.

A woman with blonde hair, wearing a brown vest over a light-colored long-sleeved shirt, dark pants, and safety glasses, is using a teal and black Bosch cordless leaf blower. She is standing on a stone path, blowing a pile of autumn leaves. The background consists of dense green and yellow foliage. The blower has a black long tube and a teal handle with the Bosch logo. A black collection bag is attached to the side of the blower.

Tidying made easy.

Keeping your garden neat and tidy.

If you like everything in the garden to be kept clean and tidy, then there is nothing better than Bosch outdoor clearing tools.

The Cordless ALB 18 LI leaf blower and the **ALS 2500 garden vacuum** are ideal for removing leaves and waste from your garden.

Thanks to the lithium battery technology, the ALB 18 LI leaf blower is operated on a cordless basis. It overcomes the limitations found with a corded blower, giving you the freedom to clear and sweep the leaves anywhere in the garden, around the flower bed, patio and garage. Free from memory effect and self-discharge, the battery allows maximum runtime of a tool on an 18 V battery.

In addition, the lightweight ALB 18 LI leaf blower prevents you from experiencing the annoyance seen with a conventional petrol product. No need to tolerate the petrol smell, noise or vibration. With the ALB 18 LI leaf blower you can simply enjoy the gardening work.

The ALS 2500 garden vacuum helps you to clear and collect the garden waste with ease. Equipped with a powerful 2500 W motor, it provides a dual function as a blower and garden vacuum. Firstly the leaves are gathered together using the blower. This can then be vacuumed with the suction tube, shredded, and compressed into the 45 litre water-proof collection bag.

Its state-of-the-art handle and balanced design provides you with the best ergonomics. Together with the easy-to-fit and easy-to-empty bag made of special moisture wicking material, it makes cleaning your garden a pleasurable experience.

ALB 18 LI leaf blower.

Tidy up wherever you want.

Our cordless ALB 18 LI leaf blower is perfect for patios and smaller gardens. It tidies with a 210 km/h concentrated jet of air, sweeping leaves and garden waste into easy-to-pick-up heaps. Part of the 18 V Power4All family, its cordless advantage allows you to work anywhere.

Maximum mobility
Cordless tool allows the freedom to work anywhere

Blowing speed
210 km/h airspeed – full power for patios and smaller gardens

Softgrip
For convenient working in any position

Small storage
Removable blower tube

Lightweight
Only 1.8 kg so no strain on arms while working

Run time
10 min uninterrupted running time, ideal for the vast majority of applications

Tidy up wherever you want

Find out more about the ALB 18 LI leaf blower, scan the QR code and learn more. For instructions on how to use QR codes turn to page 3.

BATTERY SYSTEM

Maximum mobility
Lightweight, cordless and lithium-ion powered for optimum mobility.

Full power
210 km/h jet of air banishes leaves from your garden and patio.

Power4All
All 18 V lithium-ion batteries in the Power4All family can also be used in other 18 V Bosch Power4All garden and DIY tools. Please see pages 69–71 for more information.

ALS 2500 garden vacuum.

The only problem you'll have is running out of leaves.

Our corded garden vacuum sucks up the most stubborn garden waste, allowing the shredder function to condense the amount of waste deposited for ideal compost material. This becomes the most effortless way to collect garden leaves.

Effortless control

Ergonomic handles, and designed specifically for improved balance and comfort.

Longer working

10:1 shredding meaning fewer trips to the compost heap.

Easy-to-use collection bag

Easy-to-fit, easy-to-empty bag made of special moisture-wicking material.

Compact, durable and quickly charged.

The system batteries with lithium-ion technology.

Tools with lithium-ion technology are ready for use practically all of the time. Regardless of whether the battery is fully charged, half charged or empty – you can put it in the charging station without having to worry about it. When doing so, you can forget about self-discharge or memory effect.

Due to their short charge times, Bosch cordless tools with lithium-ion technology are not only quickly ready for use, they are also especially durable. Even after a period of 4 months on standby, a fully charged lithium-ion battery is still charged to approx. 92%. This means that Bosch Power is available to you for 6 times longer than that of conventional NiCd batteries. In short: small battery, big progress.

The advantages of lithium-ion technology at a glance:

Full power at all times

No self-discharge, no memory effect: constant battery capacity over the entire lifetime.

High power, low weight

Bosch cordless tools with lithium-ion technology impress with their very compact design, low weight and very good ease of use. This saves you a lot of effort when working.

Same power at half the size

The size and weight of the batteries are reduced by approx. 60% compared to conventional nickel cadmium batteries – although they offer the same amount of power.

Long lifetime

The intelligent electronic cell protection, Bosch ECP, protects the lithium-ion batteries against excessive temperatures and overload, therefore giving them a particularly long lifetime.

36 Volt.

For greater power.

Delivering greater power with zero emissions, the 36 V range provides a real battery alternative to petrol and electric garden tools. With longer run times between charges (compared to NiCd batteries), no extension leads, fumes, petrol or pull cords to worry about, Bosch's 36 V lithium-ion technology really delivers. Providing full power at all times without any gradual power loss, the range offers a level of performance not traditionally associated with products of a similar size and weight.

18 Volt.

One battery fits all. Now there's a good idea ...

All the tools in the new Bosch Power4All system use exactly the same lithium-ion technology rechargeable battery. So no matter how many tools in the range you buy, you'll only ever need to invest in one battery and charger. Which is easier on your pocket, and means you won't have to find storage space for lots of chargers. Alternatively you can have many batteries for uninterrupted work. The single, powerful, 18 V battery fits all cordless tools in the Power4All system, including grass trimmers, hedgecutters, drills/drivers, combi drills, rotary hammers, jigsaws and sanders.

18 V lithium-ion Bosch garden tools

All of the tools listed on this page are available with or without the battery and charger included

18 V lithium-ion Bosch power tools

Unexo Maxx cordless rotary hammer

With maximum power and comfort simply for everything: hammering, drilling and screwdriving.

- ▶ Compact tool size, lightweight and handy: the 3-in-1 power pack for hammering, drilling and screwdriving with only one tool
- ▶ Maximum impact force due to pneumatic Bosch hammer mechanism

PSR 18 LI-2 cordless 2-speed drill/driver

Power and endurance in your hand.

- ▶ Most handy tool in its class due to particularly lightweight, compact design
- ▶ 2-speed high-performance planetary gearbox with superior lifetime and the best power transfer
- ▶ Drives up to 300 screws non-stop with one full battery charge

PSB 18 LI-2 cordless 2-speed combi drill

The versatile tool with lots of power.

- ▶ Most handy tool in its class due to particularly lightweight, compact design
- ▶ 2-speed high-performance planetary gearbox with superior lifetime and the best power transfer
- ▶ Setting ring with 30 pre-selectable torque settings, plus drill setting, plus impact drill setting

18 V lithium-ion Bosch power tools

PST 18 LI cordless jigsaw

Compact size, light weight and high precision for best sawing results.

- ▶ Maximum precision and control with the innovative Bosch CutControl and integrated PowerLight
- ▶ Bosch Electronic stroke rate control for easy sawing start and material-specific working
- ▶ 4-step orbital action for quick cuts with high sawing progress and high durability of the sawing blade

PSM 18 LI cordless multi-sander

The powerful, compact multi-talented sander.

- ▶ Bosch micro-filter system: the built-in dust extraction element sucks the dust directly into the micro-filter box
- ▶ SDS system for using various attachments
- ▶ Two-piece sanding plate: the delta tip of the sanding paper and the sanding plate can be effortlessly detached and rotated

PML 18 LI cordless multifunctional light

Brilliant light everywhere.

- ▶ High lighting power due to three high-quality LEDs
- ▶ Various applications due to a wide range of accessories for hobby & leisure

Always one step ahead with Bosch.

Leading technology that helps with everyday gardening work.

Bosch is always developing new products that are tailored to better meet the needs of gardeners. We make everyday gardening tasks easier and more convenient.

This is just a small selection of our leading technologies. If you'd like to read about more, please visit www.bosch-garden.com.

Power4All – one battery fits all ...
We introduced the Power4All and 18 V family of cordless tools that all use exactly the same lithium-ion technology rechargeable battery. So no matter how many tools in the range you buy, you'll only ever need to invest in one battery and charger.

'Powerdrive Motor'
The innovative reduction gear unit converts the high speed of the motor into enormous power. If it is slowed down by resistance, the torque automatically increases and the motor continues to work powerfully, even under difficult conditions and high load.

36 V – for greater power
Delivering greater power with zero emissions, the 36 V range provides a real battery alternative to petrol and electric garden tools.

Electronic 'Anti-Blocking System'
If a thick branch cannot be cut through immediately, the innovative micro-electronics detect this and instantly adjust the running direction of the blades to continue cutting powerfully through wood where other tools would stall.

'Efficient Energy Management'
This increases the run time of the lithium-ion batteries in the Rotak LI by up to 15% than its predecessor depending on the mowing conditions. The intelligent cutting electronics deliver exactly the required amount of energy to suit the length and density of the grass, and keep the blade rotation speed constant. And when the motor is switched off, the energy recovery system converts the energy generated by the blade run-down motion into electrical energy, which is fed back into the mower's battery.

Innovative Grass Combs
Wider than the front wheels of the lawnmower, the innovative grass combs enable cutting of grass growing close to the edge due to their special design.

'Ergoflex System'
Bosch strives to design garden tools that are easy-to-use with optimal ergonomics. The newest range of Rotak mowers benefits from the 'Ergoflex System', offering ergonomically designed and adjustable handles to improve body posture and reduce muscle strain whilst mowing the lawn. The 'Ergoflex System' is approved by the renowned German institution AGR which promotes research into the prevention of back problems.

'Power-Blade System'
The trigger system specially developed by Bosch combined with the bypass cutting system consists of a fixed guiding blade without sharp edges and an extra-sharp, moving blade positioned further back. It prevents unintentional cuts and allows for a safe, superbly smooth and fibre-free cutting result.

'Jet-Collect System'
The innovative drum with stainless steel blades or spring steel tines and airflow inlets completely removes thatch, moss and weeds. The shredded waste is pressed into the collection box by a powerful airflow that prevents clogging.

Effective 'Turbine-Cut System'
This newly developed turbine cutting mechanism makes it possible to shred greenery and hard wood together. 8 rotating blades in conjunction with the hopper design enable optimum automatic feed and extremely fast material throughput of up to 230 kg/h. This combination ensures efficient work with virtually no stalling, regardless of the garden material processed.

You can also visit Bosch on the Internet whenever you want to know more.

Are you looking for more tips and tricks on how to use garden tools? Are you not entirely sure which garden product exactly you need? Or do you want to find special accessories for your garden tools? You will find answers to all your questions on our website. Welcome to the gardening division of Bosch. You can find us 24 hours a day at: **www.bosch-garden.com**.

Here you will find not only a gardening advisor with basic knowledge about garden care, but also the latest products and information about how to use them.

From lawnmowers through to the practical Isio, from easy to challenging – you are bound to find something to inspire you! Our aim is to ensure that you enjoy your garden all year round. There are also many other things to discover. So why not pay us a visit? The garden portal is always open for you.

If you are looking for information and study aids regarding the technology of Bosch garden tools and power tools, visit **www.bosch.com**.

Bosch – Taking responsibility for the future. Because environmental protection begins in-house.

Environmental responsibility is a basic principle of our philosophy at Bosch. Bosch drafted its first binding directive concerning environmental protection thirty years ago. Environmental protection guidelines valid for the entire Bosch Group were formulated in 1996. In the same year, Bosch also began the gradual introduction of environmental management systems at all its manufacturing sites. Projects covering a wide variety of topics were launched, e.g. energy-saving products. For example, cordless mowers in the new Rotak lithium-ion generation are the first to be equipped with 'Efficient Energy Management'. This helps to save up to 20% energy in combination with the tried and tested Bosch lithium-ion technology. And it makes lawnmowing a real pleasure – quiet, odourless, climate friendly, environmentally friendly.

Other projects cover topics like environmentally friendly packaging, waste separation and recycling.

A complete overview of Bosch's commitment to the environment can be obtained on the Internet at **www.bosch-environment.com**.

Recycling service: You too can get involved in environmental protection. Old Bosch garden tools, cordless tools and battery packs can be returned to dealers, from where they are passed on for recycling. In this way, much more than 90% of a power tool is reused.

Bosch Garden Tools.

100% Quality, 100% Service.

Tested and guaranteed

Extensive, continuous endurance-testing and production line sampling ensure that only the best quality products leave the Bosch factory. Our comprehensive 2 year guarantees on all Bosch products are proof of our confidence in our quality control procedures. More detailed information can be found in the warranty declaration at www.bosch-garden.com
