## HARD WORKING HARD WEARING SINCE 1922

Dickies are the largest privately owned workwear company in the world. Since starting out in 1922 we have become a global brand through our dedication to innovation and customer service. The garments we manufacture today stand for the quality, toughness, and pride of the American worker offering protection and style far into the future.

Ninety years of integrity and excellence have made us the trusted global leader in full-service workwear solutions. And our extensive product lines are now available in over 100 countries worldwide.

Leading with Dickies 22 our stylish range of workwear has been developed to cater for regional variations in terms of climate and style. Durability, functionality and competitive pricing come as standard and we also provide Personal Protective Equipment including flame retardant garments, Hi-Vis clothing, safety footwear and accessories.

Please our new website [www.dickieseurope.com](http://www.dickieseurope.com) to view our latest products and news. We look forward to hearing from you and to continue providing you with the best workwear available in the world.

# DICKIES EMBROIDERY

Dickies embroidery and printing service can add logos or specified text to the vast majority of our product range. All you need to do is to contact us with your details and allow us to do the rest.

#### We will require;

- Your company name and/or account number and contact details.
- The logo details with preferably a jpg or bmp image file if possible.
- Any specific pantone shades that you wish us to adhere to.
- The product and colours that you are thinking of embellishing.
- The position of the logo(s) e.g. Left breast area, back etc
- An indication of the quantity you are thinking of ordering.

We will normally be able to respond back to you with a price and lead-time within three working days. Once you have confirmed approval, we can then arrange for the garments to be embellished.

# Footwear

# FOOTWEAR

## Footwear Safety Classifications

Safety footwear standard EN345 is being superseded by EN ISO 20345. Any footwear that has been tested to EN345 can continue to be sold, however any new designs will have to be tested to the new standard.

Which standard your footwear is tested to is identified on the product information label, this is found within the boot or shoe.

Highest protection, toe-caps are tested to 200 Joules. Classification S.

- SB** Safety basic 200 Joule protection.
- S1** 200 Joule toe-cap protection. Closed seat region (fully enclosed heel). Antistatic properties. Energy absorption of seat region.
- S2** 200 Joule toe-cap protection. Closed seat region (fully enclosed heel). Antistatic properties. Energy absorption of seat region. Water penetration and water absorption resistance.
- S3** 200 Joule toe-cap protection. Closed seat region (fully enclosed heel). Antistatic properties. Energy absorption of seat region. Water penetration and water absorption resistance. Plus penetration resistance. Cleated outsole.
- S4** 200 Joule toe-cap protection. All rubber or all polymeric footwear with antistatic properties. Energy absorption of seat region.
- S5** 200 Joule toe-cap protection. All rubber or all polymeric footwear with antistatic properties. Energy absorption of seat region. Plus penetration resistance. Cleated outsole.

## Additional Safety Features

Should these products offer some extra protective features then the appropriate symbol will be added.

i.e. A product that provides 200 Joule impact protection, is antistatic and has a heat resistant outsole will be marked SB A HRO.

- P** Penetration resistance offered by a midsole.
- C** Conductive footwear.
- A** Antistatic footwear.
- HI** Insulation against heat.
- CI** Insulation against cold.
- E** Energy absorption of seat region.
- WRU** Water penetration and water absorption resistance.
- HRO** Resistance to hot contact up to 300°C.
- SRA** Footwear is resistant to slippage on a ceramic tiled floor with sodium Laurel sulphate lubricant.
- SRB** Footwear is resistant to slippage on steel with Glycerol lubricant.
- SRC** Footwear is resistant to slippage on steel with Glycerol lubricant and ceramic tiled floor with sodium Laurel sulphate lubricant.

## SYMBOL GUIDE

### Safety Footwear

A range of footwear with toe-cap protection only. All toe-caps are tested to 200 Joules impact and 15KN compression.

### Safety Footwear with Midsole

A range of footwear with toe-cap protection and the additional feature of a protective midsole to safeguard the wearer against hazards underfoot. All Super Safety Footwear conforms to the current regulations governing this range of essential products.

### Anti-static Footwear

Eliminates or reduces static charges by dissipating charge into the floor.

### Thinsulate Lining

A lightweight thermal insulation used for footwear.

### Goodyear Welted

A traditional and extremely robust method of manufacture. The sewn welt secures the upper to the inner sole, the outer sole is then attached to the welt.

### Water Resistant

Water penetration and water absorption resistance.

### Cambrelle® Lining

Breathable lining designed to keep the foot warmer in winter and cooler in summer.
