Introduction

Recognizing the changing consumer needs, Dremel has recently introduced more products outside of its core segment, the multitools. This expansion led the Dremel brand from the makers of a Multitool System to the makers of Versatile Tool Systems™. These different systems create value and benefit to our consumers, as the innovative tools along with a wide range of available accessories and attachments will allow for many project applications, making them truly versatile.

These are the different Versatile Tool Systems™:

Multitool System

Compact Tool System

Benchtop Tool System

In this brochure the different Dremel systems will be explained, to guide you to the right tools, accessories & attachments for every project for a successful outcome.

There is truly no limit on the amount of projects you can do with the Dremel Versatile Tool Systems™.

Project catalogue

This section of the catalogue provides ideas on the inspiring projects you can do using Dremel's Versatile Tool Systems™. All projects that are shown have the following things in common: They are inspiring, fun to do and require an eye for detail. These are just examples; discover the endless possibilities when using your Dremel tool.

DREMEL® 3000

New

EZ TWIST™

Technical Specification

Weight	0,55 kg
No load speed	10.000 - 33.000 1/min
Voltage	230 V
Rated power input	130 W

The Dremel 3000 is the perfect all-round multitool with the new innovative EZ Twist Nose cap. With this new feature there is no need for a wrench to tighten and loosen the collet when changing accessories, the wrench mechanism is integrated in the nose cap of the tool. The tool offers the user a comfortable grip with its convenient lightweight housing. The Dremel 3000 is the ideal tool for users that like to carry out detailed tasks, such as cutting, sanding, engraving etc, whether occasionally or regularly. With the Dremel 3000, Dremel offers great quality at an affordable price.

Features and Benefits

- 1 Variable speed 10.000 – 33.000 RPM**
more comfortable and better control when handling.
- 2 Collet lock**
for assisting accessory changes.
- 3 Innovative EZ Twist Nose Cap**
no wrench required for changing accessories.
- 4 Integrated hang hook**
for hanging the tool on the Tool holder or near the project.
- 5 Replacable brushes.**
- 6 130W motor**
for optimal performance.
- 7 Soft grip**
for reduced vibration and a better handling.

DREMEL® 4000

Technical Specification

Weight	0,66 kg
No load speed	5.000 - 35.000 1/min
Voltage	230 V
Rated power input	175 W

The 4000 is the most powerful and precise multitool from Dremel. Thanks to its electronic feedback the tool always delivers maximum force when the job gets tougher. Together with the soft grip and precise speed setting you are in perfect control of every situation. The collet lock out function prevents you from accidentally blocking the output shaft of the tool. This tool is an absolute must for the most demanding craftsman. The Dremel 4000: maximum all-round performance.

Features and Benefits

- 1 High power 175W motor**
for high performance
- 2 Soft grip in all gripping areas**
for better handling
- 3 Full variable speed control (5.000-35.000 RPM)**
for maximum precision
- 4 Electronic feedback**
for enhanced torque and performance
- 5 Separate on/off switch with integrated collet lock out function**

DREMEL® 4000 (4000-1/45)

This Dremel kit is the premium offer in the range. The high performance 4000 multitool comes in a practical carrying case which contains the Flex Shaft attachment, the Line & Circle Cutter attachment and 65 original Dremel accessories including EZ SpeedClic starter set. Next to this the kit also includes 2 new attachments: the Detailer's Grip for optimal tool control and the Shaping Platform allowing you to sand or grind perfectly at 90° and 45°. With this supreme kit even the most demanding craftsman will be satisfied.

Multitool Accessories

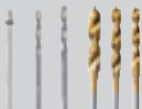

Dremel has created a range of multi tool accessories to suit all your needs, including the EZ SpeedClic system to change your accessories quick, easy and keyless. To help you select the right accessories, Dremel has created a colour coding system: every colour represents a category of applications. No matter which materials you want to work with, Dremel has a solution for you.

<p>DREMEL® EZ SpeedClic™</p>	<p>Dremel, the inventor of the Multitool, now brings you EZ SpeedClic - an innovation that makes changing cut-off wheels quick and easy. Through a patented mandrel and wheel design, Dremel has found a way that enables you to change your accessory in 3 simple steps - Pull, Click, Twist - without using any tools.</p> 
<p>Carving / Engraving / Routing</p>	<p>Dremel offers high quality carving, engraving and routing accessories for many different applications. Their sharpness and durability allow them to last a long time.</p> 
<p>Grinding / Sharpening</p>	<p>The accessories in this category can deburr, smooth, grind and clean a variety of materials in any kind of job.</p> 
<p>Cleaning / Polishing</p>	<p>Dremel cleaning and polishing accessories include brushes, felt accessories and rubber points to work on steel, aluminium, brass, silver, gold and plastics.</p> 
<p>Cutting</p>	<p>Dremel provides two types of cutting accessories for any cutting job; Cut-off wheels and cutting bits. Cut-off wheels cut metal, wood and plastic along their edge. Cutting bits are used with the Dremel cutting guide and cut in any direction.</p> 
<p>Sanding</p>	<p>Dremel sanding accessories include sanding drums, bands, discs, flapwheels and abrasive buffs to remove and smoothen material.</p> 

Multitool Accessories

SC476	5	38,0	3,2	2615S476JB	8710364042852

Cutting

3. DREMEL® EZ SpeedClic™: Wood Cutting Wheel

SC544

DREMEL EZ
SpeedClic

Cut faster through wood. With this ø 38 mm EZ SpeedClic wood cutting wheel 544 you can cut both hard and soft types of wood and also laminate. The carbide coating makes this wheel very durable. Quick, Easy, Keyless.

Model	Quantity	Working Ø mm	Shank Ø mm	Ordernumber	EAN
SC544	1	38,0	3,2	2615S544JB	8710364042876

4. DREMEL® EZ SpeedClic™: Diamond Cutting Wheel

SC545

DREMEL EZ
SpeedClic

A unique accessory designed for cutting hard materials. For example concrete, stone, porcelain, ceramic and hard epoxies. The diamond wheel produces a fine cut, is extremely durable, does not break and retains its shape. Quick, Easy, Keyless.

Model	Quantity	Working Ø mm	Shank Ø mm	Ordernumber	EAN
SC545	1	38,0	3,2	2615S545JB	8710364042883

Cutting

5. Cut-Off Wheels

409 420 426 540

For slicing and cutting in metal, wood and plastic. Cut-off wheels make it easy to cut or slot bolts, screws, sheet metal, thin wood and plastic. Fiberglass reinforced cut-off wheels (456, 426, 426B) are for tough applications. The cut-off wheel cuts only along its edge. Do not attempt to sand or cut curved holes. Use Dremel cut-off wheels with mandrel 402.

Compact Tool System

Next to the Multitool System, Dremel has developed other Versatile Tool Systems™ that help you see your project through to completion. The systems that can be found in this category either bridge the gap between the very detailed tasks and the traditional DIY jobs, or surround a certain type of project category, like engraving, gluing or soldering. These tools are typically more compact than traditional DIY tools and use their own unique accessories and attachments to ensure the best results.

DREMEL® DSM20

New

Technical Specification

Weight	1,70 kg
No load speed	17.000 1/min
Voltage	220 - 240 V
Rated power input	710 W

The Dremel DSM20 is the ultimate compact saw with an excellent line of sight. With its clear line of sight, powerful motor and use of abrasive wheels, this saw can easily perform precise straight, plunge and flush cuts in materials up to 20mm thick. The product comes with a wide variety of non-intimidating abrasive cutting wheels, which in combination with the dust extraction port allows for clean and accurate work in wood, metal, plastics, stoneware and tiles. This kit includes three attachments which help to enhance the cutting capabilities of the Dremel DSM20. Cutting parallel to the edge of the work is simple with the edge guide, while the 2x4 cutting guide can be used to quickly and accurately make cuts in 2x4 timber. Dremel DSM20 the ultimate cutting solution.

Features and Benefits

- 1 Excellent line of sight**
for accurate cutting.
- 2 Abrasive wheel technology**
for straight cuts, plunge cuts and flush cuts in wood, metal, tile, plastic and masonry.
- 3 Worm drive gearing**
for durability and power.
- 4 Powerful 710W motor**
for tough applications.
- 5 Adjustable depth guide**
for precision and control.
- 6 Dust extraction port**
for clean working environment.

DREMEL® TRIO™

Technical Specification

Weight	1,20 kg
No load speed	10.000 - 20.000 1/min
Voltage	230 - 240 V
Rated power input	200 W

The new Dremel TRIO is the ultimate tool for everyone involved in general hands-on projects in and around the house. The Dremel TRIO has a 3 in 1 Spiral System which enables you to cut, sand and rout with 1 and the same tool. This versatile, compact and lightweight tool is very powerful! The Dremel TRIO has superior ergonomics, a 2 position handle and variable speed which ensures the most optimal rate for working in different materials. With its 360° spiral cutting technology and plunge-cut ability, the tool makes quick and freehand cuts in wood, plastic, drywall, metal, and wall tile. Next to that there are also dedicated TRIO sanding and routing accessories and attachments, so this tool will complete your project from start to finish! Dremel Trio 3 in 1 Spiral System: Cut, Sand and Rout.

Features and Benefits

- 1 Cuts, Sands and Routs**
one tool, multiple applications.
- 2 Soft start**
smooth start without jerk effect.
- 3 Electronic feedback**
maintains speed under load for better finish of workpiece.
- 4 Adjustable RPM**
for precise working in different materials and applications.
- 5 Pivoting handle**
easier work orientation (horizontal & vertical).
- 6 Pistol grip**
comfortable handling.
- 7 Adjustable working depth**
for working in various material thickness.
- 8 Non marring foot**
won't scratch delicate surfaces.
- 9 Second Hand Grip zone**
for maximum control.
- 10 Vacuum Attachment**
for cleaner working environment.

DREMEL® Glue Gun 910

Technical Specification

Weight	0,24 kg
High temperature	165 °C
Voltage	100 - 240 V
Glue stick diameter	7 mm

The Dremel 910 is a high temperature (165 °C) glue gun with a drip-control precision tip. Because of its compact size and good ergonomics (T-handle, stable base, extendable stand) it is ideal for quick light DIY jobs around the house, such as gluing ceramics, wood, plastics, glass, etc.

Suitable for 7mm glue sticks.

Features and Benefits

- 1 Drip control**
to prevent dripping glue onto the project
- 2 High temperature setting (165 °C)**
for usage with high melt glue sticks
- 3 Precision tip**
for intricate gluing
- 4 Silicon nozzle sleeves**
to prevent from burning
- 5 Extendable plastic stand**
to easily position glue gun in a stable way
- 6 Heat-up time of 5mins**
for quick operation
- 7 Ergonomic T-handle**
a good tool balance makes operating the tool easy and comfortable
- 8 Easy to push trigger**
little force needed to press the trigger for constant flow of glue
- 9 Glue output +- 5g/min**
- 10 Suitable for 7 mm glue sticks**

DREMEL® Glue Gun 910 (910-3)

For this tool the following kit execution is available:

Contents

- Dremel Glue Gun 910
- 3x Dremel 7 mm Multipurpose High Temp Glue Sticks
- Inspiring welcome poster
- Instruction manual

DREMEL® Glue Gun 940

Technical Specification

Weight	0,30 kg
High temperature	195 °C
Voltage	100 - 240 V
Glue stick diameter	11 mm

The Dremel 940 is a high temperature (195 °C) glue gun with a drip-control exchangeable tip. With its removable cord the 940 can be used at any place without available power. Because of its good ergonomics (on/off switch, T-handle, stable base, extendable kickstand) and replaceable tip it is ideal for light DIY jobs around the house and outdoors, such as repairing furniture, gluing wood, ceramics, etc.

Suitable for 11/12mm glue sticks.

Features and Benefits

- 1 Heat-up time of 5 mins**
for quick operation
 - 2 Suitable for 11/12 mm glue sticks**
 - 3 Drip control**
to prevent dripping glue onto the project
 - 4 High temperature setting (195 °C)**
for usage with high melt glue sticks
 - 5 Silicon nozzle sleeves**
to prevent from burning
 - 6 Extendable plastic kickstand**
to easily position glue gun in a stable way by pressing a button
 - 7 Easy to push trigger handle**
little force needed to press the trigger for constant flow of glue
 - 8 Glue output 18 g/min**
for more demanding gluing jobs
 - 9 Ergonomic T-handle with softgrip**
for comfortable and easy operation
 - 10 Power indicator light**
shows if the tool is turned on
- On-Off switch**
to manually turn the tool on and off
 - Removable cord**
to enable limited operation without power

DREMEL® VersaTip™

The cordless 6 in one gas-torch. The perfect tool for soldering, melting, shrinking, pyrography, hot cutting & paint removing. The only soldering iron that combines a multitude of applications in one tool, thanks to its ability to use 6 interchangeable tips.

Examples of usage

- 1 Soldering**
For soldering electronic parts of your computer/ remote control model cars/planes etc.
- 2 Hot cutting**
Make a clean cut in wood
- 3 Woodburning**
Create beautiful decorations in wood
- 4 Melting**
In order to easily bend materials heat up your project with your Dremel VersaTip
- 5 Shrinking**
For effective shrinking of cables from your computer or anywhere else
- 6 Paint Removing**
Easily remove paints from small areas with precision

Features and Benefits

- 1 Powered by liquid butane gas**
use anytime anywhere
- 2 Versatile**
one tool for 6 different applications
- 3 Very short heat-up time and quick recharge**
always ready to use
- 4 Child safety lock mechanism**
children can't turn on the tool
- 5 Precise**
allows for detailed and intricate work
- 6 Durable quality**
long lifetime
- 7 Variable temperature setting**
select the right temperature for your project

New

Technical Specification

Weight	1,10 kg
No load speed	1.500 - 2.250 1/min
Voltage	220 - 240 V
Rated power input	70 W

The Dremel Moto-Saw is a compact and easy-to-use scroll saw for making detailed cuts in different materials. With its range of different saw blades, the Dremel Moto-Saw can handle many different materials easily. Thanks to its detachable fretsaw, it can be used not only stationary but in-hand anywhere. This userfriendly scroll saw is not only easy to store and set-up, but also easy to operate. The Dremel Moto-Saw is the most user-friendly scroll saw.

Features and Benefits

- 1 Easy to use**
quick accessory change combined with effortless set-up and storage due to its compact size.
- 2 Dual functioning**
stationary mode for precision work and handheld mode for larger work pieces.
- 3 Reduced vibration**
hold down foot.
- 4 Precise straight cuts**
guide rails and parallel guide to assist cutting up to 18 mm.
- 5 Match speed to project at hand**
Full variable speed control (1.500-2.250 RPM).

DREMEL® Moto-Saw (MS20-1/5)

DREMEL® Fortiflex™

Technical Specification

Weight	1,50 kg
No load speed	0 - 20.000 1/min
Voltage	230 V
Rated power input	300 W

The Dremel Fortiflex is a high quality precision tool, consisting of a powerful hanging motor (300W), a patented heavy duty flexible shaft, an exchangeable precision hand piece and a foot pedal for variable speed control (0-20.000rpm). This makes it the ideal tool for stationary projects, like woodworking, jewellery making, stone working, car restoration, or any project where a combination of power and precision is required. The Dremel Fortiflex: power meets precision.

Features and Benefits

- 1 High powered 300W motor** for optimal performance.
- 2 Variable speed 0-20.000 RPM** for better control.
- 3 High torque at lower speed ranges** for precision projects where high power is needed with lower RPM's.
- 4 Foot pedal** allows hands-free speed control.
- 5 Robust long life Flex Shaft, with patented system** to reduce rotation heat and increase its life time.
- 6 Exchangeable precision hand piece** through 'click' system.
- 7 Easy change of accessories** through drill-bit chuck.
- 8 Ultimate precision** through low collet run-out.
- 9 Variable shank diameter (0.3 4.0mm)**, suitable for all high quality Dremel accessories.

DREMEL® Fortiflex™ (9100-21)
