FISKARS

FISKARS QUALITY SINCE 1649

Pick up a Fiskars product and sense its ergonomic design and innovative functionality. Quality dictates everything Fiskars does, a standard enshrined in the company's core values since its inception in 1649.

In that year, Peter Thorwöste was granted permission to manufacture cast iron and forged products in a small Finnish village called Fiskars. Today as one of the Western world's oldest companies, Fiskars has grown into a multinational corporation, present in more than 40 countries on four continents and is the number one in hand operated garden tools in North America, Australia and much of Europe.

It's true that the company has come a long way but Fiskars' roots and soul continue onwards in Fiskars

village, where, some 10 kilometers away many of our garden tools are still manufactured to this day, continuing the same stringent quality standards.

Fiskars ergonomic, lightweight, yet powerful garden tools are designed to reduce strain and fatigue, and to ensure gardening is a pleasure, which is what gardening should be about. We're confident that our customers recognize this and continue to support our aspirations for enduring quality.

Our Quality Pledge

When properly used and maintained, Fiskars garden tools shall remain free of defects in material and workmanship. Any exception to the rule will simply be repaired, replaced or substituted by a product of equal value. Replacement tools or spare parts are offered when returning the tool to the retailer, or contacting the local customer service department.

NEW PRODUCTS

NEW INNOVATIONS

NEW

FISKARS SINGLESTEP™

The new additions to the SingleStep™ range of cutting tools offers a great selection for anybody starting out in the garden.

SingleStep™ Lopper Bypass Hook head (S) L28 112160 p. 40

SingleStep™ Lopper Bypass Hook Head (L) L38 112460 p. 41

SingleStep™ Lopper Anvil Hook Head (L) L39 112450 p. 41

SingleStep™ Hedge Shear Wavy Blade HS22 114730 p. 45

FISKARS SMARTFIT™

This new SmartFit™ pruner is a neat fit in the hand and can be used for varied cutting tasks.

SmartFit™ Pruner Bypass P68 111610 p. 32
This multi-purpose pruner with adjustable cutting aperture is the perfect pruner for convenient and ergonomic cutting.

FISKARS QUIKFIT™

Excellent extensions to the versatile QuikFit™ range of interchangeable heads and shafts. Enables gardeners to swiftly change between activities in the garden and yard.

QuikFit™ Flower Rake 135552 p. 63
A neat and handy addition to the QuikFit range for detail work in garden beds.

QuikFit™ Gutter Cleaner 135542 p. 64
Introducing a great handy device for all blocked and dirty gutters

QuikFit™ Yard Broom 135532 p. 64
An excellent all round broom head for the yard or garden.

QuikFit™ Patio Broom 135533 p. 65
A purpose-made broom head for a clean sweep on all patios and smooth surfaces in the garden.

QuikFit™ Sweeping Broom 135534 p. 65
A modern revision of the traditional sweeping broom.

QuikFit™ Tree Cutter 136525 p. 65
The new QuikFit tree cutter can be used in combination with any QuikFit telescopic shaft for a new dimension in tree pruning.

FISKARS QUANTUM™

Introducing an innovative premium quality range of cutting tools for demanding gardeners.

Quantum™ Pruner Bypass P100 111970 p. 30

Quantum™ Lopper Bypass Scissor Head (S) L102 112240 p. 38

Quantum™ Lopper Bypass (M) L104 112330 p. 38
Quantum™ Lopper Bypass (L) L108 112630 p. 38

Quantum™ Lopper Anvil (L) L109 112610 p. 38

Quantum™ Hedge Shear HS102 114820 p. 45

MY FIRST FISKARS

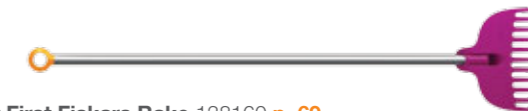

Introducing a solid selection of newly revised working tools for small hands and big minds.

My First Fiskars Shovel 138180 p. 69

My First Fiskars Spade 138170 p. 69

My First Fiskars Rake 138160 p. 69

My First Fiskars Broom 138150 p. 69

My First Fiskars Box Set 138200 p. 69
The new box set offers an innovative selection of tools for young children to get out and explore their world.

PICTOGRAMS

Level of enhancement | Fiskars USPs

2x EaseCut™ Indicates by how many times the cutting power is multiplied.	FiberComp™ Strong, durable and lightweight properties.	SoftGrip™ Comfortable anti-shock handle.	PowerClean™ Combination of soft and hard bristles.
12x EaseCut™	TruEdge™ Mechanically strong, sharp, corrosion-resistant an non-stick blade coating.	TruGrip™ Comfortable organic handle.	
Cutting capacity Shows the maximum cutting diameter.	Micro tip Thin and sharp blades for precision cutting.	Safety Loop helps to shield fingers when cutting.	Female For female use.
Power tip Cutting power is distributed evenly.	Shock-proofed Improves comfort by absorbing vibrations.	Fingerloop handle Prevents slipping and protects fingers.	Male For male use.
Telescopic The length of the product can be adjusted.	Push and pull blade For faster, more efficient cutting.	Pull blade Optimised for pruning green wood.	Hand size Suitable for small hands.
Strength Withstands hard wear and loads.	Tightly sealed Shaft and blade are fused together for a tight seal.	Weather proof Withstands all types of weather.	Ambidextrous For both right-handed and left-handed use.
Pocket-sized Fits easily into a pocket.	Belt holder Optimised feature for convenient portability.	Center of gravity Perfectly balanced.	Right-handed product For right-handed use.

Product Materials

Aluminium Lightweight, strong properties.	CrMov Highly durable material which holds an edge.	PBT Lightweight, flexible and durable.	Boron steel Sharp and durable.
Stainless steel Mechanically strong and corrosion-resistant.	PTFE coating Corrosion-resistant, non-stick blade coating.	Steel gear mechanism Strong and effective steel mechanism.	Genuine leather Made of tough, genuine leather.

Usage

For fresh wood Bypass cutting action.	For dry wood Anvil cutting action.	For universal cutting For cutting thin steel plates, plastic, tube, rope, etc.	Hook head For heavy cutting of green wood.
Scissor head For precision cutting of green wood.	Fine toothing For efficient sawing of planks and boards.	Efficient toothing For sawing green wood.	Splitting axe For easier, faster splitting of wood.
Chopping axe For easy cutting through fresh wood.	Brush hook For trimming undergrowth and even clearing small trees.	Snow tool For clearing snow in small or large areas.	Fruit picking For harvesting fruit trees.
Yard cleaning For clearing debris from yard areas.	Patio cleaning Optimised for clearing finer-particle debris.	Gutter cleaning For easy reach and clearing of gutter debris.	Flower stems For cutting flower stems.
Hedges and bushes For cutting hedges and bushes.	Grass For cutting grass.	Potted plants For cutting potted plants.	Bonsai plants For cutting bonsai plants.
Herbs For cutting of delicate herbs.	Sharpening wooden canes	Carving For stripping bark.	Pruning/Grafting For cutting of small side shoots, laterals and pruning of weak growth.
Grafting For various grafting tasks.	Whittling For whittling wood.	Cotton & string For cutting cotton and string.	Building site For cutting rockwool and fiberboard.
Vegetables For cutting and processing vegetables and mushrooms.	Fish For preparing fish.	Soil care For all soil-related tasks.	Lawn care
Paving	Leaf collecting	Digging Preparing planting holes and removing sod or soil.	Garden digging Slicing and cutting grass tufts and moving and mixing soil.
Construction digging Heavy-duty digging.	Sandmoving	Composting	Haying

Usage and maintenance

Spare parts Spare parts are available.	Plus parts Can be complemented with additional parts.

FORESTRY TOOLS

Fiskars forestry tools offer a specialized package for heavy wood craft including a sledge hammer, log splitter, a selection of wedges, a brush hook for trimming and thinning as well as levers and tongs for moving logs. These durable tools are the perfect fit for effective operations and ease of use in the forest.

Forestry Tools

Brush Hook X3

Article No 126003

Product benefits

- < For trimming trees and thinning out thicker branches.
- < Ultra light and durable FiberComp™ handle minimises fatigue and makes the tool virtually unbreakable
- < Optimal anti shock surface structure ensures a comfortable, firm grip
- < Hooked end of the handle prevents slipping
- < With plastic sheath for easy carrying and storage
- < Retail box: 4
- < Length: 505mm
- < Weight: 450

SPADES

Fiskars wanted to take the hard work out of digging so we've designed a range of ergonomic spades with features such as angled heads and telescopic handles that make lighter work of moving earth. Durable hardened boron steel blades are folded at the top to create a stepping surface for additional leverage. Good design, great materials and ergonomic grip make spade work a breeze.

Telescopic

Telescopic Garden Spade Rounded	Article No 131310	Product benefits
		<ul style="list-style-type: none"> < Straight, sharpened cutting edge to aerate, stir and turn soil and cut through roots < Large D-shaped handle fits all hand sizes, with or without gloves < Adjustable shaft length from 1050mm to 1250mm means the spade can be comfortably used at range of heights < The welded connection between the blade and the shaft ensures rigid durability and longevity < Boron steel construction adds extra strength and makes penetration into the soil easier < Lifting angle of 13° < Retail box: 4 < Length: 1050 - 1250mm < Weight: 1950g

PRUNERS

Fiskars pruners are ergonomically designed for comfort and ease of use and are recognised as best in category by many gardeners and industry experts for value and performance. Their ergonomic handles are made of extra durable synthetic materials and the stainless steel blades are secured by an easily accessible locking mechanism when the pruner is not in use.

SCISSORS

Fiskars orange handled scissors are design classics that have been popular for more than four decades. Our selection of garden scissors are excellent for precise cutting and trimming tasks. The carbon steel blades easily cut through materials from fine wire to flower stems.

Universal and Floral Scissors

Universal Garden Scissors 18cm S92

Article No 111030

Product benefits

- < For cutting flowers and plants
- < Ergonomic handles are designed based on the natural hand movement
- < Handles made from impact-resistant PBT
- < Extra hard stainless steel blades
- < Serrated blades for better control
- < Retail box: 5
- < Length: 185mm
- < Weight: 73 g

LOPPERS

Fiskars loppers are suitable for all kinds of garden cutting tasks with a capacity of up to Ø 55 mm. The range includes different models for different users, unique materials and patented mechanisms. Fiskars loppers are designed to be lightweight, efficient and comfortable to use.

UNIVERSAL CUTTERS

Fiskars Universal Garden Cutters are multi-use tools that allow accessibility to tree crowns and dense bushes, enabling the gardener to trim overhead without needing a ladder or at ground level without bending or kneeling. Activate the great cutting power with a slide of the orange handle, or when used at maximum height, with a pull of the orange end knob. The adjustable head and the lightweight cutting mechanism helps to ensure fast, easy and safe pruning.

REEL MOWER

The Fiskars Staysharp Max reel mower promote greener, healthier lawns by cutting each blade of grass cleanly with a scissor like action. This minimises moisture loss and exposure to disease. The Reel Mower lets you cut grass without noise, uncomfortable vibrations and the hazards associated with power driven rotary blades. It is also the most environmentally friendly way to cut your lawn.

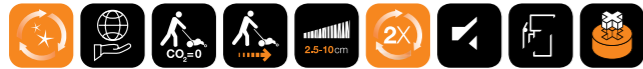

StaySharp™

StaySharp™ Max Reel Mower

Article No 113880

Product benefits

- < Best in class cutting performance for a superior mowing experience
- < StaySharp™ cutting system cuts the grass without the blades touching so the mower is easier to push
- < Hardened steel blades with precision grounded edges
- < Ergonomic, height-adjustable handle with padded grip
- < VersaCut™ cutting capacity settings from 2.5cm to 10cm
- < Enables the closest side edging of any reel mower
- < Retail box: 1

WEED PULLERS

The Fiskars Weed Puller is a great invention for removing weeds such as dandelions. Its simple design removes the need for digging, bending or the use of chemicals. Its deep reaching claws grab the root from all directions and remove the weed cleanly, removing only a small amount of soil.

Weed Puller

Weed Puller Telescopic W82	Article No 139920	Product benefits
 		<ul style="list-style-type: none"> < Four deep-reaching stainless steel claws grab the root efficiently < Ejection system helps to release weed after pulling < Eco-friendly weeding without the use of chemicals < Allows the gardener to work in an upright position to prevent muscle strain and backache < Telescopic handle can be adjusted up to 1190 mm < Retail box: 4 < Length: 1000mm < Weight: 1700g

RAKES

Fiskars produce a wide range of rakes for different purposes. Raking, levelling soil and preparing beds for sowing requires the right tool to give new plants the right start in the growing season. Fiskars exchangeable rake system is easy to transport and store and the durable plastic heads are rust free and easy to clean.

Garden Light

Garden Light Leaf Rake L

Article No 135570

Product benefits

- < Lightweight large lawn rake for clearing and collecting leaves and debris quickly in larger areas
- < Plastic coated shaft of hardened aluminium
- < Drop shaped soft grip handle for optimal grip
- < Hanging loop for easy storage
- < Retail box: 5
- < Length: 1815mm
- < Weight: 850g

reddot design award winner 2010

Fiskars QuikFit™ Locking system - winner of the Red Dot Award: Product Design 2010. The QuikFit™ mechanism ensures effortless change of heads for rakes, cultivators, hoes, weeders, saws etc. The heads attach to the shaft and the device is immediately ready for your use.

CHILDREN'S TOOLS

Being together with your children in the garden, whether for play or working together to raise plants, rake leaves or to make a clean sweep is a simple pleasure that benefits the whole family. At Fiskars we have developed tools that offer both avenues for exploration, whether a box set of unique tools for the youngest to participate, all the way through to fully functioning stick tools for older children keen to help out with real garden work.

EDUCATION

CHOPPING VS. SPLITTING

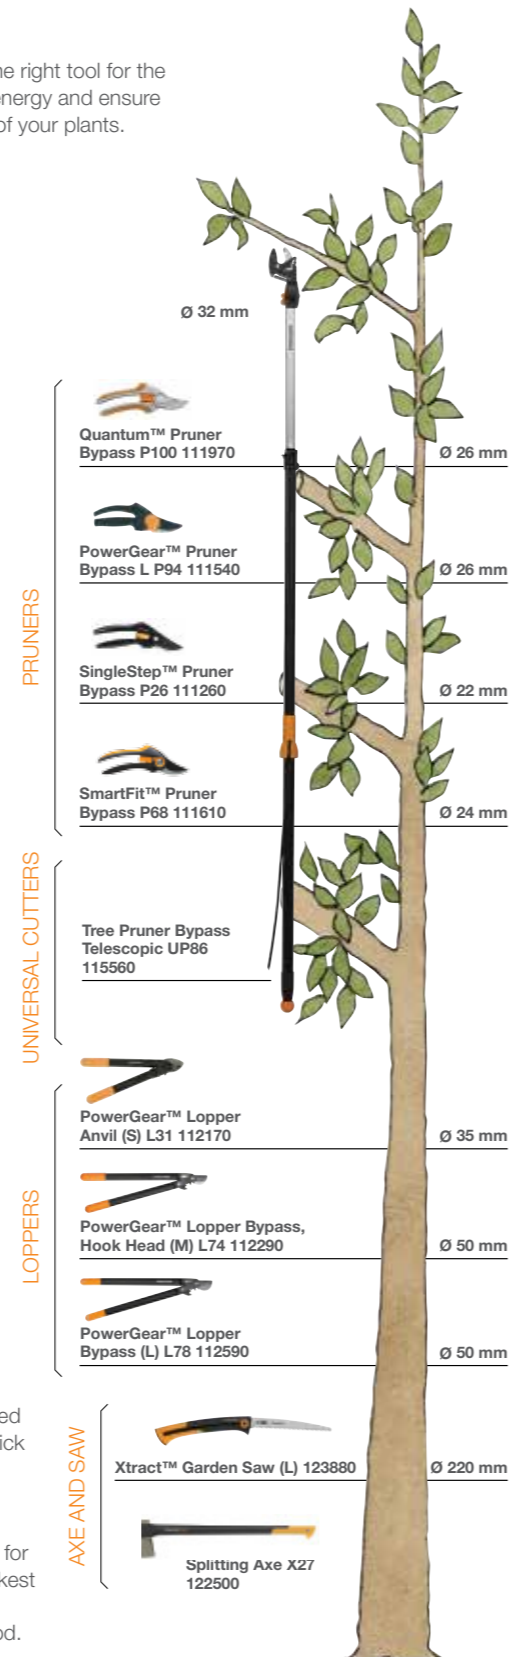

Chopping axe – The Universal Chopping Axe’s thin, wide edge ensures a clean, easy cut in fresh, resinous wood, like spruce or pine.

Splitting axe – The Splitting Axe features a unique cutting edge that easily slices into the wood, which the thick axe blade then pushes apart.

WHICH TOOL FOR WHICH TASK

By selecting the right tool for the job you save energy and ensure the wellbeing of your plants.

Universal cutters help you reach difficult spots.

Loppers are particularly suited for cutting thicker branches.

The saw is particularly suited for removing thick (over Ø 5 cm) branches.

An axe is good for cutting the thickest branches and splitting firewood.

ANVIL VS. BYPASS

Bypass: Both blade and counter blade press into the wood to make a clean cut with less compression damage (cutting blade bypasses counter blade in a scissors-like action). Possible to cut close to the stem. Best suitable for fresh wood.

Anvil: Upper blade is forced through the wood with greater pressure as the anvil blade supports the branch and spreads the pressure until the cut is complete. Best suitable for dry or dead wood.

PACKAGING

Product Names

Fiskars products are named using letters and numbers. The letter refers to the product and the number represents which of our Supreme, Dynamic and Essential range it belongs to.

Letter

P – Pruner
L – Lopper
W – Weeder
S – Scissors

Number

Essential: 01 - 39
Dynamic: 40 - 99
Supreme: 100+

P26

Supreme Dynamic Essential

All Fiskars products are ranked as either Supreme, Dynamic or Essential. This is represented on our packaging numerically and through colour coding in the top right hand corner.

Supreme

Dynamic

Essential

Relevant Package Images

The package visual illustrates the context of the product's usage to help you select your new tool.

Product Technology

This is where we list our award winning technology. Fiskars garden tools have long been recognised for their superior quality, design and innovation.

PowerGear™

PowerStep™
