# GARDENA | Everything for the garden

## High Quality products for every area and for any season.

GARDENA has over 50 years of experience in the development and production of intelligent products and systems for garden care. Today, GARDENA is the leading brand for high-quality garden tools in Europe and is represented in over 80 countries all over the world.

Trust GARDENA and value the wide assortment of products.

There is the right product for every garden and task - in the traditional GARDENA way.

## Everything fits together perfectly

The system concept characterises GARDENA's products and is reflected in many product series. The introduction of the Original GARDENA System in 1968 was the milestone and the basis for further development of other system products.

## Quality...Engineered to last

GARDENA is known for high quality and reliability. Each phase of the development and production chain is subject to exactly defined inspection cycles and quality guidelines.

Duration, breakage, heat and cold tests are just a few of the durability inspections certain products must pass. That is why GARDENA can grant a warranty of up to 25 years for several products with good conscience.

## Technology / Innovation

GARDENA has made it a mission to develop and manufacture products that make gardening as easy as possible. That is why our products are continuously being improved. In doing this, GARDENA uses the latest technology that can make gardening easier.

## Comfort / Ergonomics

GARDENA develops and manufactures products that do more than fulfil their purpose.

Garden products should make work easier and not lie heavily or uncomfortably in the hand after just a few minutes. That is why GARDENA places great importance on the ergonomics of the products. Large handles, soft plastic components or simply adjustable functions are only a few examples of this.

# GARDENA | Innovation beyond expectation

## Perfect Connectivity

- Full range of connectors with improved grip
- Soft Components for better grip
- Improved collar Grip for finger tight connections
- Colour coded fittings for hose location

## Perfect Partners

- Super Grip Hose designed for perfect connectivity
- Three grades for Performance led hoses
- Combination of Gardena fitting & Power Grip hose for permanent connectivity

## NEW - Frost Proof Accessories

- Integral Expansion Membrane for all year round use
- Wipe clean heads.
- New ergonomic design for advanced handling
- Single handed use with new flow control

## Range of Hose end accessories

- All fitted with Soft Grip
- Distance lances made from non corrosive Aluminium
- Colour Coded end to match water stop
- Frost proof Expansion Membrane inside

# 100% Compatible

with all other brands of “click-fit” hose connectors

**GARDENA®**

# Original GARDENA System

For over 45 years, consumers have put their trust in the Original GARDENA System – and now, the original is even better

The new connectors for the Original GARDENA System excel through their high comfort of use and reliability as well as durability and highest product quality. And all system parts fit together perfectly – just like before.

Parts are easier to identify thanks to the new colour-coding system:

- Light-coloured hose lead – tap connection
- Dark-coloured hose end – dark water stop + output devices

	<p><b>Tap Lead</b></p> 	<p><b>Tap Connector</b></p> <p>For connecting to the tap.</p>	 <p>The non-slip outer contour guarantees a trouble-free and convenient assembly.</p>
	<p><b>Hose Lead</b></p> 	<p><b>Hose Connector</b></p> <p>For use on the hose lead.</p>	 <p>Simply pull apart to rapidly break the connection.</p>
	<p><b>Hose Connections</b></p> 	<p><b>Coupling</b></p> <p>For extending the hose. Also for transitions from 19-mm (3/4") to 13-mm (1/2") hoses.</p>	 <p>Grooved soft plastic grip for comfortable handling.</p>
	<p><b>Hose Repairer</b></p> 	<p><b>GARDENA Hose Repairer</b></p> <p>For rapid and reliable hose repairs without the need for tools.</p>	 <p>Specially formed, patent pending sleeve nut for high hose retention force.</p>
	<p><b>Hose End</b></p> 	<p><b>Water Stop</b></p> <p>For hose ends with integrated water stop function: Decoupled = automatic water stop. Coupled = water flows.</p>	 <p>Makes it easy to switch between output devices without having to go back to the tap.</p>

# GARDENA | Wall-Mounted Hose Boxes

## Wall-mounted Hose Box Roll-up

Automatic hose winding - no bending over, no winding, no dirty hands.

Models with powerful steel springs for secure and reliable roll-up.

Pull out hose to desired length - small tug on the hose & it is rolled up in an even and controlled way  
All models are equipped with 12.5mm top-quality hose.

### Flexible in use and easy transportation

The practical wall bracket makes it possible: the hose box can be swivelled at a 180° angle. In this way, the hose does not bend when watering and the box can be folded back to the wall after use. In winter, the box may simply be removed from the bracket and stored in a frost-proof place.

### Everything at hand

The hose is always at hand and at the same time, there are various watering accessories nearby. Because: nozzles, sprayers and wash brushes can be easily attached and stored on the wall bracket.

### 15m

For smaller gardens and patios

### 25m

For medium sized gardens

### 35m

For larger gardens

## GARDENA | Nozzles & Sprayers

### Comfortable adjustment of water flow

The patented one-hand operated water flow adjustment makes Gardena easy to use and can be quickly adjusted to suit any situation. This is available on a selection of Gardena Nozzles and Sprayers.

### Wipe Clean Shower Head

Soft plastic nozzles ensure an ease of cleaning, simply wipe your finger across the head.

### Innovative Internal Expansion Membrane

### Frost-proof nozzles

Our nozzles are all frost-proof due to their innovative internal rubber seals. These expand and contract to the water pressure inside and minimise the damage done to the plastic sections of the nozzles. This means if you do forget to bring your nozzles in from the frost, you have nothing to worry about.

### The right model for every application

This popular range matches the needs of the consumer is precisely suited to market demands. It commands high acceptance for the trade and consumers as it has well-made parts of high quality materials and is ergonomically and functionally designed.

## GARDENA Pump Sprayers - For small water quantities

Ideal for flowers in the home, on the patio or in the garden. All GARDENA Pump Sprayers rest optimally in hand and hold water quantities from 0.5 or 1 litre.

## GARDENA Pressure Sprayers - For larger water quantities

GARDENA Pressure Sprayers hold between 1.25 and 12 litres and are convenient for trees, shrubs, orchards or large flower beds. Thanks to the large opening, it is easy to fill the pressure sprayers.

## The complete range for automatic irrigation control

Diverse, flexible and user-friendly for more leisure time in the garden.

GARDENA Water Computer, depending on the model for various situations from one to six irrigation areas. Particularly user-friendly thanks to intuitive operation and LCD display\* of all programme data.

GARDENA Soil Moisture Sensor\* can be connected. Supports water-conserving garden irrigation.

### For beginners

Basic, simple and standard programming options. Clearly presented LCD display and easy to programme settings.

### FlexControl

Flexible programming of basic functions via rotary knob. LCD data display. Watering time adjustable from 1 min to 1h 59 min. Multiple watering frequency options for up to 3 times a day. Low battery indicator.

# GARDENA | Watering Controls

## For demanding

Variable programming options.  
Large, clearly presented LCD display.  
Alternatively available for one or two garden areas.

**MultiControl**

**MultiControl duo**

## Soil Moisture Sensor

A soil moisture sensor decides whether your Irrigation Control should activate sprinkling or whether watering is not required because the soil is moist enough or it has started raining. This is how modern technology helps to save water.

The sensor can be connected to all GARDENA Timers and Computers

## For Specialists

Highly individual programming options through 6 watering programmes.

On-screen instructions with selectable languages explain programming steps.

Automatic operation possible via Soil Moisture Sensor.

In combination with a Water Distributor Automatic, up to 6 garden areas can be automatically watered one after the other.

**MasterControl**

# GARDENA Micro-Drip-System

## Water-conserving garden irrigation

- For versatile use on the balcony, patio or in the vegetable and flower garden
- Innovative, intelligent system solutions enhance the ease of use
- Can be automatically controlled with GARDENA Water Computers

### Flower Pots

Precise watering of pot plants and planters troughs using drippers

- Regulate the amount of water
- No continued dripping after the tap is turned off
- Self-cleaning

### Planted Areas

Flexible spray nozzles enable plants to be watered to optimum effect where vegetation times are short for plants in flowerbeds and vegetable patches

- Self-cleaning dripper
- Special labyrinth technology prevents ingress of roots

### Rows of Plants

Root watering with pinpoint accuracy using irrigation lines

- Self-cleaning dripper
- Special labyrinth technology prevents ingress of roots

### Patented "Quick & Easy" Pipe Connection Technology

- Permanently sealed pipe connection
- Easy to loosen if required
- For faster system construction and conversion

**Automatic Water Distributor that is unique on the market!**

Automatic irrigation of up to 6 garden areas, one after the other, in combination with the GARDENA Water Computer master control.

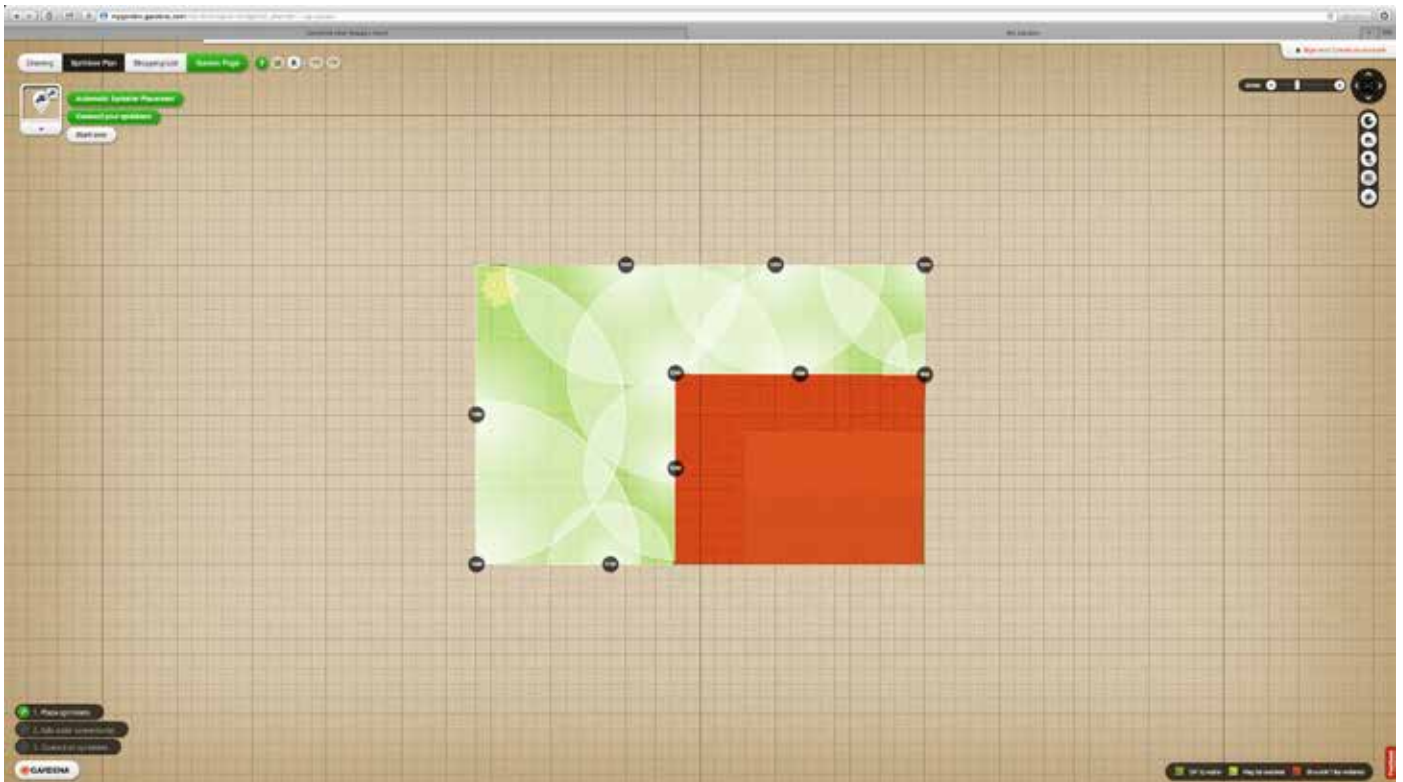

# GARDENA | Planning Guide

## A free and helpful online tool for both you and your customers to discover the best irrigation system to suit their needs.

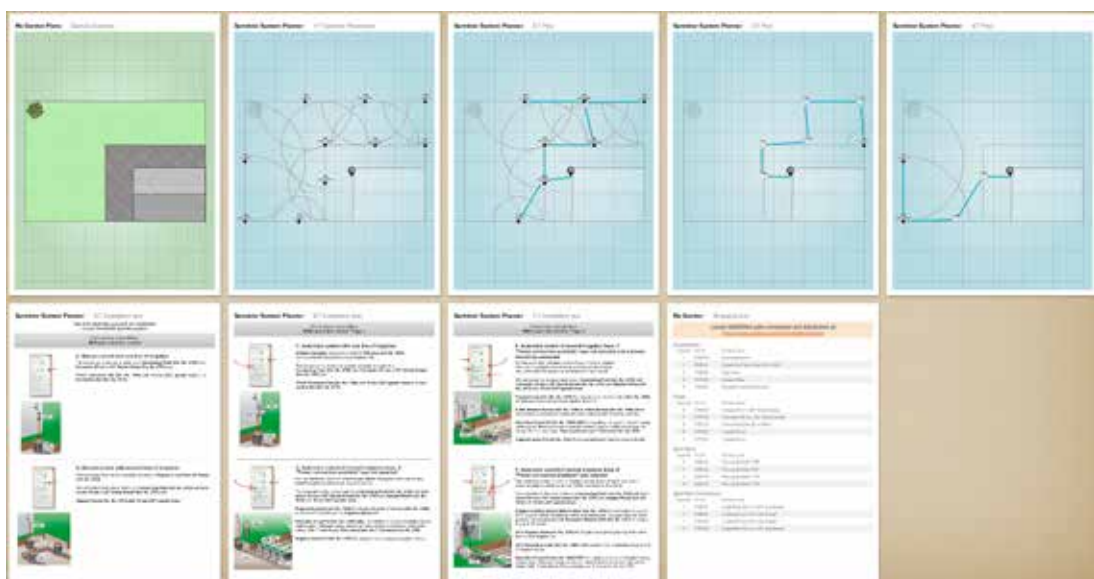

My Garden is an online tool that can be used by anyone to help plan their new irrigation system. You start by plotting out your garden space, adding features and plants to suit.

The next step is fitting out your garden with an irrigation system, here you can either use the automated plotting system for recommendations and make changes accordingly or plan it yourself, either way you have full control of what and where Gardena irrigation products go into your garden.

Once a plan is in place, My Garden produces a shopping list and a guide for installation for you to get the perfectly watered garden.

## Features

<http://mygarden.gardena.com/uk>

## GARDENA | Sprinkler System

### Convenient pop-up lawn irrigation

#### Watering can be so easy

Decide for yourself: do you want to water by hand or have an irrigation system do the work for you? A modern irrigation system from GARDENA looks after your plants, saves on water and gives you more time to relax in your garden.

#### The right amount at the right time. Giving you time to relax.

GARDENA offers the right irrigation system for every need: It ensures good, even sprinkling of your lawns, precisely waters your flowerbeds, hedges and pot plants on your balcony and patio and can do all this automatically when you require. Even when you are not at home. The result: lusciously green lawns and healthy, fast growing plants.

### GARDENA Pipeline

#### Water like electricity from the mains

You can now forget about carrying heavy watering cans full of water and pulling metres of garden hose around the garden: Pipes hidden beneath the soil carry water to every corner of your garden. Simply pump the water from the water connectors.

### GARDENA Sprinklersystem

#### Comfortable lawn sprinkling

Say goodbye to time spent installing, moving around and tidying up sprinklers: Pop-up Sprinklers installed below ground ensure the perfect lawn and disappear again back into the ground when their work is done.

## Pipe Line

# GARDENA Secateurs

The Right Tool for Every Task

**MADE IN GERMANY**

A clear range structure, well-thought-out ergonomics, compelling quality and product features have made the GARDENA range so successful.

### **Bypass**

The double-edged shears are ideally suitable for young, green plants, flowers and green wood.

### **Ratchet Secateurs SmartCut**

For branches with a diameter up to 22 mm, the ratchet function is enabled. In this way, you will have up to 150 % more cutting power than secateurs without ratchet function.

### **All-purpose scissors SchnippSchnapp**

The comfortable, easy to use all-purpose scissors for home and garden.

## GARDENA Secateurs of your choice for every need

### **Classic – for beginners**

Powerful, ergonomic and modern. Classic Secateurs with all the product features you expect in a good secateur.

### **Comfort – for demanding users**

Extra cutting performance, extra convenience. With outstanding ergonomics, handles with soft elements and an opening width adjustable to suit the user's hand.

### **Premium – for experts**

For gardeners who love sturdy cutting tools. Exceptionally robust, professional secateurs with aluminium handles.

### Precision-ground blades

For an easy and precise cut, gentle on plants

### 2 handle positions

For power cutting and quick snipping.

### Ergonomic handle

Comfort handle with soft components for more comfort and safe hold.

### Non-stick-coated blade

Effortless cleaning and corrosion-resistance.

# Hedge Clippers

Image	Product Code	Description	RRP Inc. VAT	Promotional SSP Inc. VAT	Box/Order Qty	EAN
	GA319-20	<b>Comfort Boxwood Clipper</b> In display unit Particularly suited for clipping hedges and shrubs. Very lightweight-615g. Optimum shock absorption due to Technogel gel pads in the handle grips. Precision ground non stick coated blades with integrated branch cutter.	£34.99	£24.99	16	4 078500 031905
	GA397-20	<b>Classic Hedge Clippers 510 FSC pure</b> Especially suitable for precise shaping due to sturdy straight ground blades and ergonomic wooden handles. Robust and durable. Integral branch cutter. Blade length 20cm.	£36.99	£25.99	4	4 078500 039703

### Classic

Trust the proven methods: traditional materials and solid workmanship.

### Comfort

Outstanding cutting results and ease of use. Integral Technogel® gel pads and two-component buffer for optimum shock absorption.

### Short blades and straight-ground blades

For the exact shaping of shrubs, e.g. boxwood.

### Long wave-ground blades or special tothing

Suitable for larger areas.

### Gear transmission

Simple and effort saving to cut through thick branches.

# GARDENA Pruning Loppers

Lightweight, for more cutting power

Innovative problem solutions and the most modern materials guarantee comfort and excellent cutting results.

### Comfort – for demanding users

Powerful, lightweight and modern. For all those who place value on powerful, clean cut and optimum ergonomics. High stability, low weight and superb ergonomics are provided by the dropshaped aluminium lever arms. Ergonomically-shaped handles with soft components and index finger.

### Classic – for beginners

Solid entry-level products for green wood or old dry branches. Sturdy, drop-shaped lever arms and ergonomically-shaped handles with additional soft components made of special plastic and index finger support involve safe and comfortable work.

### Ratchet Lopper SmartCut

Extremely powerful and easy-to-use. Through the innovative ratchet function, even thicker branches and hard wood can be effortlessly cut.

### Bypass

The double-edged shears are ideally suited for green wood.

# GARDENA | Axes

## GARDENA Universal Axes

These products have a wide, sharp blade with a relatively pointed cutting angle and are sharpened on both sides. For a clean cut in fresh and resinous wood (eg. Spruce and Pine) GARDENA Universal Axes are particularly suitable for felling small trees and for delimiting and splitting resinous wood.

### Hammer function

For an easy and effective use of splitting wood. The processed impact surface is gentle on wedges and splitting blocks. Suitable for all common wedge types such as wood, plastic and aluminium wedges (not for steel wedges)

### Application-adapted blades and axe head geometry.

The blades and head geometry of the GARDENA Axes and Hatchets are adapted to the application and work situation, and thus guarantee optimum working results.

### Impact protection

The riveted stainless steel shaft protection protects the handle even if a hit goes astray.

## Axes

**Can be hung on branches**  
Minimal power needed and comfortable pulling.

**D-Handle**  
Work effectively and comfortably with this adjustable D-handle.

**Block and tackle mechanism**  
Effortless pruning thanks to the 5-fold transmission and dual action lever mechanism.

**Adjusts to Your Needs**  
Easily adjust your pole length with the push-button mechanism.

**Safely Attach Tools**  
A large, non-detachable fastening screw with soft components enables tools to be connected securely.

**Oval-shaped handle**  
Oval-shaped handle provides increased stability and prevents inner tube from turning when performing adjustments.
