 **GARDENA®**

GARDENA – EVERYTHING FOR THE GARDEN

High-quality products. Beautiful gardens.

GARDENA – the full-range supplier
GARDENA offers everything you need for optimal garden care. Whether products for lawn-, tree- and shrub care, tools for soil cultivation, irrigation solutions or pumps – GARDENA's assortment has it all. For a perfect garden.

GARDENA – with system
The system concept characterises GARDENA's products and is reflected in many product series. You can rely on our systems. Once GARDENA – always GARDENA.

GARDENA – in any season
With GARDENA products, you care for your lawn all year round and keep it in excellent shape – regardless of the season.

GARDENA – your advantages

1. Quality
GARDENA products are known for their extremely high quality and reliability. The entire production chain is subject to the strictest inspection cycles and quality guidelines.

2. Innovation/Technology
GARDENA develops products that render garden work as easy and efficient as possible. That's why the product portfolio is continuously further developed and optimised – with the latest technology.

3. Ergonomics/Comfort
GARDENA places high value on the ergonomics of their products. They should lie comfortably in the hand and make garden work easier.

4. Service
Should your product require repair or maintenance, the GARDENA Service experts are there for you.

Contents

GARDENA offers the right products for each garden area.

Lawn

A beautiful lawn is the centrepiece of the garden. Care is required to keep the lawn healthy, radiant and dense. GARDENA has the right products – for small to large lawn areas.

More on page 4

Trees, hedges, shrubs and flowers

Trees, hedges, shrubs and flowers stay healthy through the right care measures, such as regular pruning, tending and fertilising.

More on page 8

Beds and soil

The basic requirement for healthy plant growth is healthy and nutrient-rich soil. With GARDENA products, you can cultivate soil easily and effectively.

More on page 11

Irrigation

To ensure that all plants and lawn areas stay green and healthy even during longer dry periods or high temperatures, the right irrigation is vital. Here, GARDENA offers a wide product range for every application.

More on page 14

GARDENA LAWN CARE

So that your lawn will be even more beautiful.

All products and more info at:
www.gardena.com

Our long-year experience and expertise in gardens and lawns will help your lawn thrive and grow healthily. For each task there is the right tool and each product helps to shape and care for your lawn according to your wishes. Whether for a small area or the care of larger grounds – GARDENA always has the right product for you.

Mow the lawn

The first step and most important task for a beautiful lawn is a regular cut. Simply select the right GARDENA model for your demands.

GARDENA Robotic Lawnmower

Never mow the lawn yourself again

- Mows the lawn on its own and independently recharges at the charging station
- Daily mowing and mulching ensures a perfectly cared-for lawn and saves the removal of grass cuttings
- The boundary wire defines the lawn area to be mowed
- Easy installation and initial operation
- Low-noise, emission-free and energy-saving
- Theft-protected through PIN code and alarm function

For small, simple lawn shapes
R40Li for up to 400 m²

For large, complex lawn shapes
R70Li for up to 700 m²

Irrigate with system

GARDENA Sprinklersystem

With the GARDENA Sprinklersystem, which is permanently installed underground, you irrigate your lawn conveniently using the pop-up function. Depending on the lawn shape, there are various pop-up sprinklers that distribute the water where it is needed. Once their work is finished, they disappear back into the ground. The result is a lushly green, healthy lawn.

GARDENA Connection technologies

Thanks to the "Quick & Easy" connection technology and the variety of installation elements, laying GARDENA irrigation systems is easy and flexibly possible for many demands and garden sizes.

GARDENA Patented Quick & Easy connection technology for the sprinkler system

Help with planning, installation and initial operation of the GARDENA Micro-Drip-System:
 • www.gardena.com
 • Brochure "Watering Systems"

GARDENA Micro-Drip-System

With the Micro-Drip-System, all plants – aside from the lawn – are irrigated in a targeted and water-saving way. Flowers or vegetables, field cultivations, greenhouse shoots or balcony- or patio plants are supplied with water through drops or a gentle spray mist. The soil is kept evenly moist without water evaporating, seeping or flowing away.
