

HOZELOCK

Gardening for life

HOZELOCK

Gardening for life

With over half a century of horticultural expertise, at Hozelock we understand the rewards of gardening, and we want to help gardeners get the most from their gardens. We combine a knowledge and passion for gardening with a pride in craftsmanship to develop solutions to help your customers gardens flourish and come to life.

New for 2011 :

The roll-out of our new brand positioning - Gardening for life, and the launch of five exciting new products and ranges for Hozelock.

New AutoReel range:

An intensive 5 year development program enables us to bring the benefit of Automatic Rewind to gardeners who need a hose up to 40m long (see page 4).

New Pressure Washer range :

Through our watering and aquatic ranges, water and power are synonymous with Hozelock. The new Hozelock range features reliable powerful motors for

effective cleaning, with all tools and hose stored on board, and easy movement thanks to the built in towing handles. Our launch in the UK in 2010 has been highly successful, and Hozelock is #2 in the market and a strong challenger to the leading brand.

New Hose range :

Hozelock is the European consumer brand for our hose range. This completely new range uses innovations developed by our technical hose brand Tricoflex. The new range has been developed to appeal to consumers in all markets, and features two genuine innovations : Soft & Flex™ , and Easy Roll™ technology (see page 6).

Hozelock Cyprio

New Aquaforce range :

Following three years of development and testing, Hozelock launched in 2010 a new range of seven solid handling filter and waterfall pumps with flows up to 15,000 lph. They combine unrivalled reliability, ease of use and deliver power savings of up to 70%. For 2011 we have invested in additional manufacturing capacity to ensure 100% availability (see page 44 - Aquatics).

Hozelock Cyprio : Centres of Excellence :

Launched in the UK in 2010, the Hozelock Cyprio Centre of Excellence concept is a total category package for qualifying retailers. Giving them access to a cutting edge retail support package : modular display racking, in fixture product demo's, and our award winning video merchandisers. This concept has been proved to increase like for like sales by up to 46% (see page 42 - Aquatics).

Contents:

- 4 New Products
- 7 Hose Storage Systems
- 11 Hose
- 19 Garden Pumps
- 19 Water Saving Products
- 20 Fittings
- 22 Hose End
- 24 Sprinklers
- 26 Brushes
- 27 Automatic Watering
- 32 Sprayers
- 38 Pressure Washers
- 41 Aquatics

New AutoReel range

In 1998 Hozelock launched the original AutoReel. A 20m automatic rewind, self-layering hose reel that created a new watering category - Premium Hose Systems. Since launch the AutoReel has received numerous awards, and was named a Millennium Product by the UK government.

We have striven since 1998 to bring AutoReel benefits to a wider audience; FastReel and FastCart have easy rewind and the 10m AutoReel brought Auto Rewind to smaller gardens; but consumers have repeatedly asked us to bring the Auto Rewind benefit to larger gardens. After 5 years of development, 2011 sees the launch of the innovative, exceptional, 30 and 40m AutoReels.

40m AutoReel

The new AutoReels are simplicity in itself to use. When you're ready, the hose smoothly and easily unwinds, then, with a simple tug it slowly and reliably rewinds, whilst the layering mechanism accurately layers the hose back onto the drum.

The new Auto Rewind mechanism is the secret that makes the 40m length possible. It enables the full force of the powerful spring to rewind the hose regardless of water pressure, operating temperature or ground covering, but at the same time it stops the rewind from getting uncomfortably fast. The new AutoReels are covered by European and Worldwide patents, and we always guard our intellectual property vigorously.

Made in the UK, the new Hozelock AutoReels are beautifully crafted.

From the high quality mouldings to the braided anti-kink hose, every detail has been considered to make the new Hozelock AutoReels simply the best hose reels available.

Pressure Washers

Through our watering and aquatic ranges, water and power are synonymous with the Hozelock brand. Developing a range of pressure washers was a logical extension for our brand.

Launched in the UK in 2010, the Hozelock pressure washer range features three models: Compact, High Pressure and Heavy Duty.

The launch has been highly successful, and Hozelock is now the Number 2 brand in the UK market by value.

All the models in the range share the same consumer benefits:

Reliable, powerful motors and pumps – All the pressure washers in the Hozelock range use hard wearing cast aluminum pump chambers combined with ceramic pistons to ensure a long working life. The motors are air cooled, and prior to final assembly all the motors and pumps are tested for output and longevity.

Effective Cleaning – All the models are supplied with a jet turbo lance for shifting stubborn spot grime, and a variable jet that can be adjusted to a fan for sweeping dirt or soap from a surface. Additionally all the models have a detergent dispenser either built in or attachable to the end of the lance.

Easy to Move – The entire range is easy to move thanks to soft wheels, and a full height, towing handle. On the Compact range the pressure lance clicks onto the washer body to create the towing handle.

Easy to Store – The pressure lance, accessories, and hose store all are stored on board. The Heavy-duty models have a built in high-pressure hose reel.

Accessories and Spares – The range is supported by a comprehensive range of spares and accessories, including patio cleaners, brushes, extension lances, and replacement hoses and triggers

Hose range

Hozelock is the European consumer brand for our market leading hose pipe range. 2011 sees the launch of a brand new range, supported by new packaging and category leading point of sale material.

The new range features innovations developed by our technical hose team – Tricoflex, based at our dedicated hose factory in Vitry, France.

Soft & Flex Technology™ – Tricoflex developed and launched in 2003 a hose with a foamed layer of PVC to provide

enhanced flexibility, and a unique soft and comfortable touch. In 2007 this was further refined and Soft & Flex Technology™ for the garden was born. Soft & Flex Technology™ turns the hose into one long shock absorber – millions of tiny, perfectly uniform bubbles absorb the strains and twists that cause a hose to kink. Soft & Flex Technology™ makes a hose lightweight, kink free, and a joy to handle.

Fast Roll Technology™ – The latest innovation from Tricoflex is designed to transform the ease of winding and unwinding the hose on a reel or cart:

1. Super smooth cover reduce the force required to reel the hose in.
2. Anti-slip raised stripes glide the hose onto the reel and stop the hose from slipping and tangling.

The new range has been designed to be simple to understand, and shop . Its divided into two clear sub-categories:

Braided – Maxi Range

Braided hose is for gardeners looking for strength and durability above everything. It's the Maxi hose range. The range is available in a range of diameters (from 12.5mm to 25mm), lengths, and at three different quality levels.

Maxi Plus hose is used on all our standard and Plus hose systems. Maxi Pro is used on all our Premium Hose Systems, like AutoReel.

Knitted – Flexi Range

Knitted hose is for gardeners who prefer flexibility and comfort in use, and are looking for hoses with Anti Kink properties. It's the Flexi hose range. The range is available in a range of diameters (from 12.5mm to 25mm), lengths, and at three different quality levels.

Within each of these categories, the range is broken down into three quality levels: Standard, Plus and Pro.

2360 - 30m Hose Hanger

- Wall mounted hanger and storage unit for 30m of 12.5mm hose

2410 - 30m Hose Reel (not shown)

- Freestanding hose reel
- Supplied with 1 x hose end connectors

2420 - 30m Hose Reel (not shown)

- Wall mounted hose reel
- Supplied with 1 x hose end connectors
- With wall fixings

2422 - 30m Hose Reel with 15m hose

- Wall mounted hose reel
- Includes 15m of 12.5mm Maxi Plus hose
- Includes 1 x nozzle, 2 x hose connectors, 1 x waterstop, 1 x 3/4" / 1/2" tap connector
- With wall fixings, and hose guide

2475 - 60m Hose Reel (not shown)

- Freestanding or wall mounted hose reel
- Supplied with 2 x hose end connectors
- With wall fixings

2471 - 60m Hose Reel with 25m hose

- Freestanding or wall mounted hose reel
- Includes 25m of 12.5mm Maxi Plus hose
- Includes 1 x nozzle, 2 x hose connectors, 1 x waterstop, 1 x 3/4" / 1/2" tap connector
- With wall fixings

2477 - 60m Hose Reel with 50m hose (not shown)

- Freestanding or wall mounted hose reel
- Includes 50m of 12.5mm Maxi Plus hose
- Includes 1 x nozzle, 1 x hose connectors, 1 x waterstop, 1 x 3/4" / 1/2" tap connector
- With wall fixings

hose - specific range

Spiral hose

- Self recoiling hose starter set (1 x 9mm 2166, 1 x 9mm 2185, 1 x 2673 spraygun, 1 x 2184)

15m spiral hose starter set (9mm dia)

Sprinkler hose

- Perforated flat hose, produces fine spray or reverse for soak.
- Using the fitting supplied, two can be joined together.

068764 - 7,5 m - Area covered 50m

- Max Coverage 50m²

068777 - 15m - Area covered : 100 m

- Max Coverage 100m²

Porous hose

- Ideal for watering borders, vegetables and greenhouses without waste
- Porous hose which seeps water along the full length.
- 2 years guarantee

152000 - 20m Porous Soaker hose (12.5mm dia)

152026 - 30m Porous Soaker hose (12.5mm dia)

152012 - 150m Porous Soaker hose (12.5mm dia) on a reel

Dripper hose

- Dripper hose with 13mm drippers every 30cm
- Combine with micro irrigation fittings to efficiently water flowerbeds
- 2 years guarantee

2774 - 25m dripper hose (13mm)

2775 - 50m dripper hose (13mm)

garden pumps

2826 Water Butt Pump

- Submersible 300w high pressure pump (1.1 bar max pressure, 2200 lph max flow)
- Suitable for use with spray guns, sprinkler, micro irrigation and hosepipes up to 50m in length.
- Supplied with 2175 tap connector, attaches to 3/4" BSP (G3/4) outlet

7819 - Ultra Metal Garden Pump Kit

- Non submersible, self priming very high pressure pump (3.5 bar max pressure, 3,500 lph max flow) with suction hose, inlet filter, and all fittings
- Suitable for use with spray guns, sprinkler, micro irrigation and hosepipes up to 50m in length
- Supplied with 2158 tap connector, attaches to 1" BSP (G1) outlet

7825 - Flood Pump

- Submersible 300w high flow drainage pump (6m max lift, 6000 lph max flow)
- Automatic float switch turns pump on automatically when area is flooded.
- Supplied with hoesail 32 -->25mm , attaches to 1 1/4" BSP (G1.25) outlet

water saving treatments

2016 - 250ml Water Storing Gel

- Mix gel with compost to store water , and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week

2017 - 500ml Water Storing Gel

- Mix gel with compost to store water , and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week

2021 - 250ml Water Storing Gel and Feed

- Mix gel with compost to store water , and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week
- Includes a slow release plant food

2022 - Water Storing Gel Mat x 4

- Biodegradable mat impregnated with water storing gel, place in compost to store water, and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week
