

HOZELOCK

Hozelock

Leader in Innovation and Manufacturing Excellence

Hozelock is a market leading company specialising in the development, manufacture and marketing of garden watering, spraying and aquatic products, all over the world. With over 50 years of experience making high quality, innovative products, Hozelock is one of the most trusted and well-known names in the gardening industry.

Innovation

Innovation is the cornerstone of the Hozelock business philosophy. We continually invest in designing and developing new products which offer exceptional quality and practical benefits to the consumer. We are driven by

our desire to make gardening simpler and more enjoyable.

Manufacturing Excellence

Hozelock are committed to manufacturing excellence, all products are manufactured to exacting ISO 9000-2000 standards. The company has recently invested in new equipment to increase production capacity and service levels.

Commitment to Customer Service

In 2008 we won the Institute of Mechanical Engineers: Manufacturing Excellence (MX) award for Customer Focus, a reflection of our commitment to customer service. With one site for design, manufacturing, distribution and commercial functions, our aim is to build on our already high customer

service levels and delivery response times.

NEW PRODUCTS

NEW ULTRA METAL RANGE ADDITIONS

Hozelock are extending their Ultra Metal range with new hose connectors, fittings and 60m cart. Hozelock understand the consumer need for a premium metal range and have been developing this range for the past 2 years. Based on current connectors and fittings this new range is set for success.

Hose connectors

The Hose End and AquaStop connectors build on the design of the soft touch fittings launched last year, adding a touch, durable and stylish zinc die cast metal sleeve. The acetyl connector internals are kept the same, known to be the best available, while the new metal sleeve gives extra protection from damage.

The new fittings; Tap Connectors, Double Male and

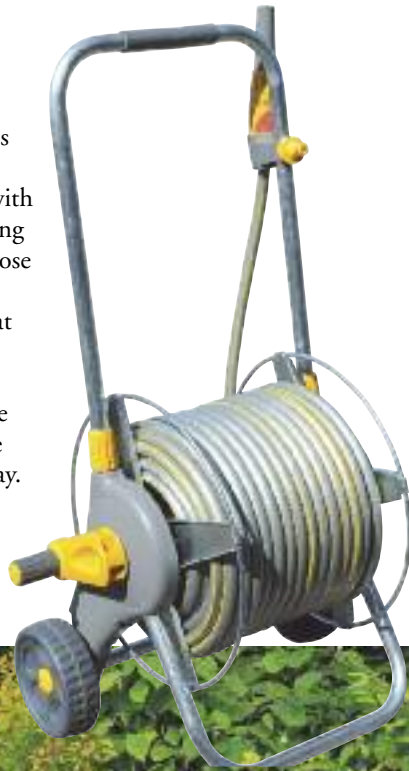

Hose Repair, are made from nickel plated brass making them tough, durable, stylish and resilient frost damage.

As with all Hozelock products the new Ultra Metal range has been subjected to stringent testing and user trials to ensure consumer expectations are exceeded. All the new products will have an extended 3 year guarantee.

60m Ultra Metal Cart

The new 60m cart combines the durability and manoeuvrability of plastic with the toughness of steel to bring the consumer a best value hose storage solution. The steel drum is plated to ensure that the cart stays rust free. The product will include all necessary fittings and will be fully assembled allowing the customer to use straight away.

The range

The new range consists of 9 new Ultra Metal products; 1/2" & 3/4" Hose Connector, 1/2" & 3/4" AquaStop, 3/4" Tap Connector and 1/2" adapter, 1" Tap Connector, 1/2" Hose Repair, Double Male Connector and a fully assembled 60m metal hose cart.

All products will be available in March 2010.

Mini AutoReel™

2485

Mini Auto Reel™
(EU pat. app. no. 99304819.8)

The re-wind mechanism, combined with an internal spring, means that the hose is re-wound onto the drum with the minimum of effort. The user only has to walk the hose back to the reel.

A ratchet mechanism means that the hose only re-winds when you want it to, and a safety lock affords additional protection against accidental re-wind. The reel is wall-mounted and swivels through 180°, to allow the hose to be pulled out in any direction from the wall. The reel comes fully assembled with all fittings and accessories.

2485 Mini Auto Reel™

Ready assembled wall mounted reel with 10m hose, fittings and accessories

2 50 10646 03668 9

AutoReel™

2490

Auto Reel™
(EU pat. app. no. 0968952.)

The ultimate in hose management, this wall mounted reel combines the self-layering mechanism with automatic hose re-wind.

An internal spring system does the work, allowing the user to walk the hose effortlessly back to the reel, while the self-layering mechanism feeds it neatly back onto the drum.

A simple ratchet ensures that the hose only re-winds when you want it to. The wall bracket and pivot tube allow the reel to swivel through 180°, to supply the hose at any angle from the wall.

The reel comes fully assembled with 20m top quality hose inside, and all connectors and fittings. Hose replacement kits and spares are available.

2490 Auto Reel™

Ready assembled wall mounted reel with 20m hose, fittings and accessories

Fast Reel™

2494

2496

Fast Reel™

(EU pat. app. no. 01305297.2)

Fast Reel technology is available on a range of three reels and carts.

All versions are supplied with:

- Either 40m of 12.5mm hose or 30m of 15mm hose, together with a leader hose and all fittings. Each Reel and Cart is partially assembled and designed for medium to large gardens
- Self-layering technology, for quick, clean and efficient hose rewind
- Enclosed structure ensuring added hose protection
- Anti overrun device to guarantee that the hose will not tangle

2494 0000 Fast Reel™ Free Standing

Easy rewind hose system with 40m of 12.5mm hose.

2494 1240 Fast Reel™ Free Standing

Easy rewind hose system with 30m of 15mm hose.

2496 0000 Fast Reel™ Wall Mounted

Easy rewind hose system with 40m of 12.5mm hose & wall guide.

Compact Reel™

2414

2n1

2415

2415

Compact Reel

(pat. app. no. 0500591.3)

- The Compact Reel is enclosed to protect against wear and tear.
- An easy re-wind action coupled with a viewing window also allows the user full control when manually re-winding and layering the hose.
- A folding carry handle ensures the Reels are fully portable and the design means they are easy for the consumer to assemble and use.

2414 Compact Reel

Free standing reel with 25m of 11.5mm hose, connectors and nozzle

2 50 10646 04254 3

2415 2'n1 Compact Reel

Free standing reel or wall mounted reel with wall brackets, manual layering system with integral hose guide and 25m of 11.5mm hose, connectors and nozzle

2 50 10646 04263 5

Compact Cart™

2416

2416

Compact Cart

(pat. app. no. 0500591.3)

The Compact Cart combines the benefits of the Compact Enclosed Reel with 30m of hose, whilst offering exceptional mobility and superb ease of use.

- The Compact Cart has a tough outer case to protect the hose and provide a neat and tidy storage. The nozzle, watering and feeder hoses can be stored securely on the drip free accessory rack.
- An easy re-wind action, coupled with a viewing window and remote manual layering allows the hose to be re-wound and layered whilst avoiding dirty hands.
- The tall 900mm soft-grip towing handle can be raised or lowered for easy storage. Wide wheels ensure stability and easy movement around the garden. An integral carry handle makes for easy lifting up and down steps.

WATER SAVING PRODUCTS

Hozelock's award winning range of Waterwise products has been designed to help gardeners eliminate waste and make better use of water all around the garden.

Hozelock Water Retaining Gel is the fastest acting water retaining gel available. Absorbs moisture within the compost to create miniature reservoirs of water around the roots of the plants that is released slowly as and when the plants need it.

Reducing the amount of required water by up to 90%, a single application of the gel lasts an entire season and reduces the watering frequency to just once per week.

2026 Water Butt Treatment - 500ml

8 50 10646 04663 3

A safe, non-toxic treatment for stored water. Prevents unpleasant odours and unsightly scum whilst helping to keep the water free from slime and algae. Treats 6400 litres of water.

2826 3'n 1 Water Butt Pump

2 50 10646 04657 2

Simply connect a hosepipe to the integral connector and drop into a water butt. For use with any Hozelock spray gun or drip irrigation system. Self-priming. 300 watt. 1.1 bar max pressure

2817 Water Butt Border Kit

3 50 10646 04655 8

A complete gravity fed kit for watering flower borders and vegetable patches. Contains 15m of supply hose, 15m of porous hose and fittings to connect directly to most water butts.

2816 Water Butt Container Kit

5 50 10646 04652 7

A complete gravity fed kit for watering up to 15 plants in pots and containers. Supplied with 10m of supply tube, 10m of micro tube, 15 adjustable drippers and fittings to connect directly to most water butts.

7819 8000 Ultra Metal Garden Pump Kit

1 50 10646 04890 3

Kit includes; High-pressure stainless steel pump, suction hose and filter. Generates sufficient pressure to operate any kind of irrigation system and is compatible with all Hozelock watering products. Self-priming. Heavy-duty 3.5 bar.

7825 8000 2in1 Flood Pump

2 50 10646 04894 1

Quickly disperses standing water. Capable of moving up to 6,000 litres of water per hour. In areas prone to repeated flooding, the Flood Pump can be left permanently in place. Self-priming. High flow pump.

Starter Sets

All Hozelock hoses are available as Starter Sets. Supplied with the high quality hose is 1x 2175 threaded outdoor tap connector, 1x 2185 Waterstop connector with auto water shut off, 1x 2166 hose end connector and an 1x 2292 adjustable spray nozzle.

Spiral Hose Set

Flexible and lightweight coiled hose that extends to from 1m to 15m in length and recoils for neat and tidy storage.

Supplied as a complete watering set, which includes a quality multi spray gun, Waterstop connector with auto water shut off, hose end connector and threaded outdoor tap connector.

- 6 50 10646 03811 9

Speciality Hoses

6225 Maxiflow Hose 25m

Maxiflow provides higher flow than standard 1/2" hose

- 3 50 10646 04891 0

6215 Tricoflat Hose 15m

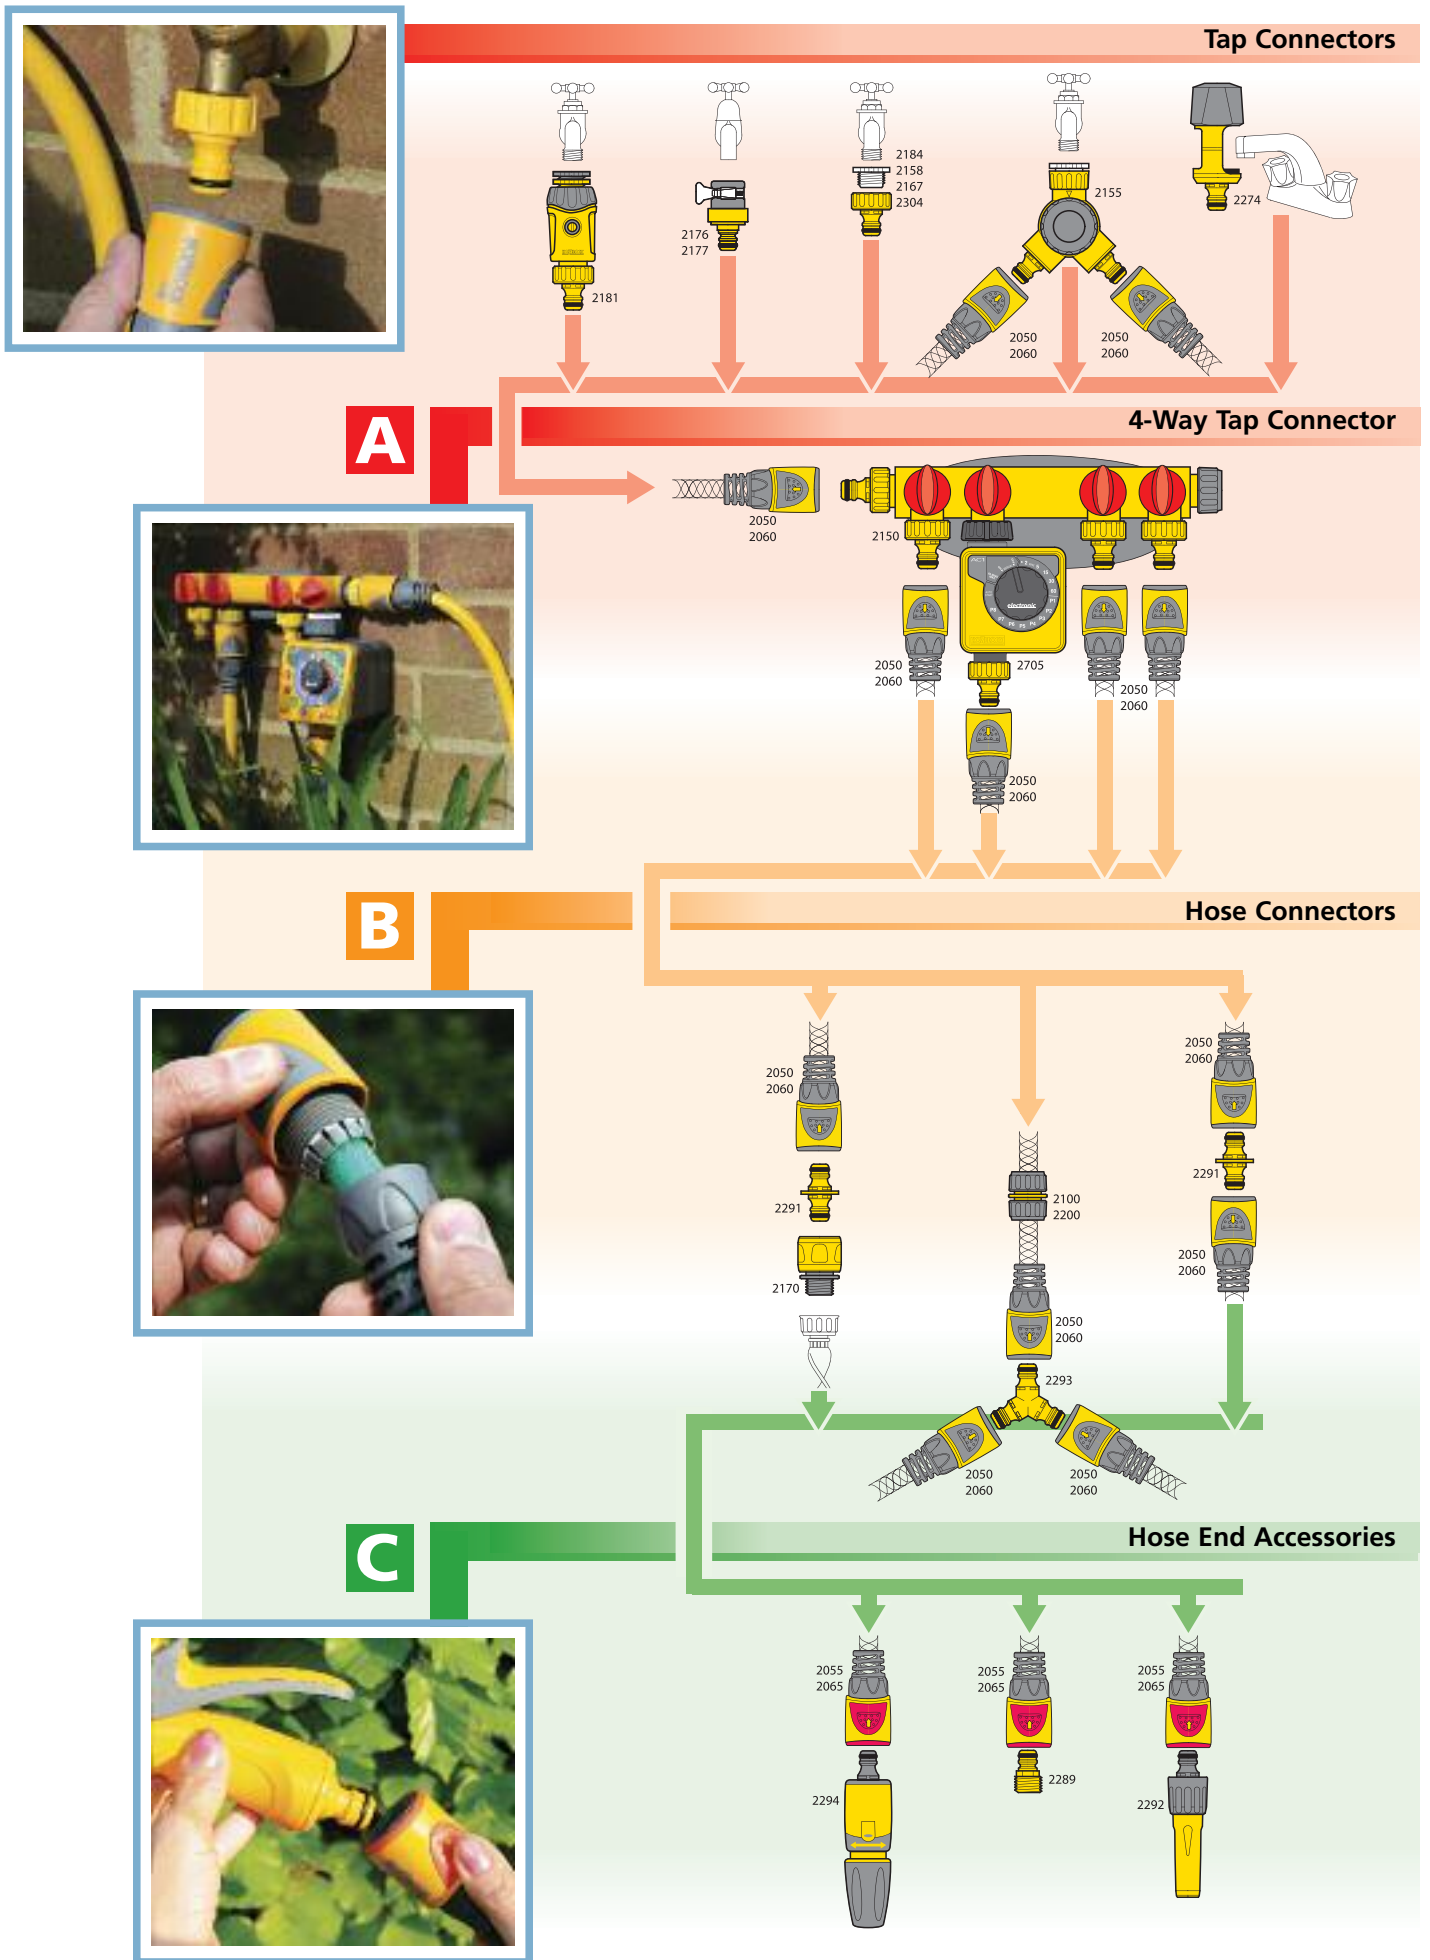

Layflat hose for use with the Hozelock flood pump

- 3 50 10646 04892 7

6235 Spirabel Hose 3.5m

Suction hose, suitable for a range of garden pumps

- 3 50 10646 04893 4

2159 Indoor Tap Connector

3/4in BSP for modern kitchen taps. This tap connector provides a secure method of temporarily attaching a Hozelock connector to a kitchen tap.

10 50 10646 05194 1

2176 Round Tap Connector

For standard round or oval spout taps, maximum diameter 18mm. The fitting is sealed to the tap by tightening the clip.

10 50 10646 00506 7

2177 Round Mixer Tap Connector

Similar in design to 2176, but designed to suit the normally larger spout of a mixing tap (maximum diameter 24mm).

10 50 10646 00507 4

Threaded Tap Connectors

For garden and garage taps with a male threaded outlet; the fitting screws to the tap, alone or with an adaptor, to provide a quick coupling. Replaceable internal washers.

2184 3/4 in BSP female thread

with adaptor for 1/2 in BSP thread.

MULTI SPRAY JET SPRAY

Hozelock's two entry point spray guns combine excellent performance, ergonomics and aesthetics with the latest advances in design and manufacturing technology to provide class-leading products that offer exceptional value for money.

Packed with features including a soft to touch rear trigger for comfortable operation, which can be locked in position for extra comfort during prolonged use, and an easy to use flow adjuster that gives the user complete control over the water spray.

The Jet Gun, with its choice of three spray patterns - powerful jet for garden cleaning, wide cone for general garden watering and a high-flow fast fill function, will be the first choice of people seeking an inexpensive gun for cleaning or basic watering duties.

The Multi-Spray Gun is a gardener's tool and provides five useful spray patterns - a powerful jet for garden cleaning, a wide cone for general garden watering, a flat spray for washing and light cleaning, a high-flow fast fill function, and metal rose for gentle, rain like watering.

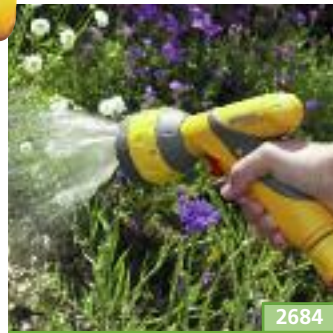

2674 Jet Spray Gun

Featuring three basic spray patterns - powerful jet, wide cone and fast-fill.

2676 Multi-Spray Gun

Featuring five useful spray patterns - powerful jet, wide cone, fast-fill, flat spray and a metal rose.

Stylish metal bodied gun with a choice of jet or cone spray patterns.

6 50 10646 03780 8

2691 Metal Rose Head Gun

Stylish metal bodied gun spray gun featuring eight varied spray patterns.

6 50 10646 03781 5

Ultra Range

The Hozelock Ultra range combines fantastic looks, comfortable soft-touch materials and excellent ergonomics with a range of genuinely useful, class leading spray patterns. A variable trigger flow control with a two stage locking mechanism makes the guns perfect for all garden tasks.

2682 Hozelock Ultra™ 6

Features jet, cone and fast-fill spray options make the Ultra 6 particularly good for cleaning tasks.

5 50 10646 03759 4

2684 Hozelock Ultra™ 9

Multi-purpose hose gun with a choice of jet, cone, fast-fill, fan, mist and metal rose spray patterns.

5 50 10646 03760 0

2686 Hozelock Ultra™ 12

Brilliant all round performing spray gun with a choice of jet, cone, fast-fill, fan, mist and brass rose spray patterns, plus a gentle aerator spray ideal for watering pots and containers. The additional rear flow control makes the gun very easy to use.

5 50 10646 03762 4

Ultra Metal Range

Combines the leading spray performance of the Ultra gun range with metal construction. The die-cast metal body provides exceptional strength and a soft elastomer coating makes the guns extremely durable and comfortable to hold. All guns feature a tough plated metal male end, trigger lock and a rear flow control.

2687 Ultra Metal 10

Ultra tough spray gun featuring jet, cone and fast-fill spray options making it ideal for all cleaning tasks.

5 50 10646 04524 7

2688 Ultra Metal 14

Ultra tough construction and class leading spray performance make this gun the choice of gardening experts. Features a jet, cone, fast-fill, fan, mist and a plated brass rose spray pattern, plus a gentle aerator spray ideal for watering pots and containers.

5 50 10646 04522 3

2652 Dual Lance Spray

Long reach lance with gentle rose head spray. Incorporates On/off lockable trigger and flow control, plus an aerated flow to avoid splash back

5 50 10646 01239 3

2644 Metal Telescopic Lance

Metal Telescopic Lance with angled head and choice of 8 spray patterns. Extends by an additional 45 cms

5 50 10646 04128 7

2652

2644

Rotating Car Brushes

Two rotating car brushes with a water powered turbine that rotates the bristles for a superior cleaning action. Both brushes feature head angle adjustment, on/off flow control and work with liquid car shampoo.

Performance depends on water pressure – min 2 bar.

2605 Short Rotating Car Brush

For family size cars and motor bikes

3 50 10646 03585 9

2607 Long Rotating Car Brush

For 4x4, estate cars, MPV and caravans

3 50 10646 03588 0

2601 Car Wheel Brush

Lightweight, easy-to-use brush with on/off flow control. Complete with shampoo sticks.

3 50 10646 03674 0

2603 Car Care Brush

Lightweight, easy-to-use brush with on/off flow control. Complete with shampoo sticks.

3 50 10646 03273 5

2602 Jet Brush

Operation allows choice of clear or soapy water. Uses liquid shampoos.

3 50 10646 00820 4

2604 Professional Car Brush

Easi-reach car brush with lockable swivel head and on/off flow control. Uses liquid shampoos.

3 50 10646 00821 1

2621 Shampoo Sticks

10 50 10646 00572 2

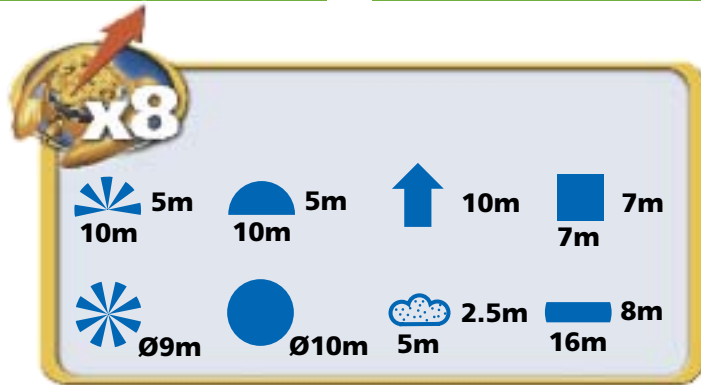

vortex™

2515

2515

All Hozelock sprinklers are suitable for use with water pressures from 1 bar to 10 bar. Area coverage is quoted at 4 bar.

2515 Vortex 8 Sprinkler

Class-leading dial sprinkler with a choice of 8-spray patterns to suit all watering shapes and types - small semi circle, large semi circle, mist, strip, large circle, small circle, square and remote jet. Complete with soft-touch easy-grip adjuster ring for changing spray patterns even with wet hands. Max area coverage 79m² (Max diameter 10m). Mounted on sled base to suit all surfaces

5 50 10646 04553 7

2510

2510

2510 Vortex Spike Sprinkler

High performance, twin arm spike sprinkler. Uses 8 jets to efficiently water turf and established plants. Max area coverage 177m² (Max diameter 15m). Mounted on tough spike for use in lawns and borders.

5 50 10646 04552 0

2520

2520

2'n1

2520 Vortex 2'n1 Sprinkler

Four arm rotating sprinkler, which operates either as a jet spray for watering turf and established plants, or a mist spray for watering delicate plants or seedlings. Turning the easy-grip knob changes the spray mode. Max area coverage 254m² (Max diameter 18m). Mounted on sled base to suit all surfaces

Aquastorm Sprinklers

The Aquastorm range is available as Geardrive sprinklers with a circular spray pattern, or oscillator sprinklers with a rectangular spray pattern. The innovative gearbox with built-in clutch mechanism guarantees category leading performance and reliability, whilst at the same time preventing operator misuse.

All models offer a full range of spray adjustment.

2972 AquaStorm™ 15

Lawn Sprinkler with 15 hole aluminium spraybar. Max area coverage up to 180m²

2974 AquaStorm™ 17

Lawn Sprinkler with 17 hole aluminium spraybar. Max area coverage up to 200m²

2975 AquaStorm™ 20

20 hole Lawn Sprinkler, brass nozzles give improved spray definition, for larger coverage. Max area coverage up to 260m²

AquaStorm™ 2'n1

Premium Oscillating Sprinkler offering a choice of 2 spray patterns: jet and mist.

2976 AquaStorm™ 2'n1

Sprinkler has 16 jets for watering lawns and 5 misting jets for watering seedlings. Max area coverage approx 230m²

2977 AquaStorm™ 2'n1 XL

Sprinkler has 20 jets for watering lawns, 5 misting jets for watering seedlings and width of spray control. Max area coverage approx 320m²

The Aquastorm™ 360°

The Aquastorm™ 360° range features 5 jet spray nozzles for watering lawns. Max area coverage approx 314m² or 20m diameter.

2332 AquaStorm™ 360° Spike

Adjustable circular sprinkler with metal base spike.

2333 AquaStorm™ 360° Sled

Adjustable circular sprinkler with sled base.

2335 AquaStorm™ 360° 2'n1 Spike

As the standard product plus a mist spray for watering grass seeds and seedlings. Adjustable circular sprinkler with metal base spike.

2336 AquaStorm™ 360° 2'n1 Sled

As the standard product plus a mist spray for watering grass seeds and seedlings. Adjustable circular sprinkler with sled base.

AQUAPOD™

THE AUTOMATIC HOLIDAY WATERING KIT

Aquapod - Effortless Watering System

(EU pat. app. no. 0513850.8)

Offering effortless watering, the Aquapod automatically waters plants and containers and has been specially designed for 'holiday watering' and busy gardeners alike.

Installation is quick and easy and takes less than five minutes. There are only four components, and each Aquapod blends harmoniously into the patio.

The whole system uses 90% less water than normal hand held watering devices.

Each Aquapod is equipped with five hoses at the end of each one is a self-cleaning pressure regulating dripper. Each hose can be pulled out and rewound independently to suit the layout of the patio giving maximum flexibility. Should the layout of the patio be changed it only takes two minutes to adjust the Aquapod.

Also suitable for larger patios, extra Aquapods can be added in just 2 minutes with up to nine Aquapods operating from one tap.

2822 Greenhouse Watering Kit

Waters 10 container plants

This kit is perfect for watering plants in your greenhouse. Two Aquapod (inc. 10 x drippers), plus pressure regulator with two outlets, 20 metres of 4mm tubing, 10 stakes.

2823 Automatic Holiday Watering Kit

Autowaters 10 container plants

For fully automated watering, this set includes an AC Plus water computer, two Aquapods (inc. 10 x drippers), pressure regulator with two outlets, 20 metres of 4mm tubing, 10 stakes.

2824 Plus Aquapod

One Aquapod (inc. 5 x drippers), 5 stakes, adaptors to convert a 1 or 2 outlet pressure regulator to 2 or 3 outlets.

2825 Plus Hanging Basket & Hedge Kit

For extending the system to water up to 5 hanging baskets or 2.5 metres of hedge.

Comprises – five 4 litre per hour pressure compensating drippers, one 10m of 4mm tubing, 5 stakes and one 'T' piece connector & adaptors to convert a 1 or 2 outlet pressure regulator to 2 or 3 outlets.

2772 10m of 4mm hose

Allows extra Aquapods to be added – comprising one 10m length of 4mm tubing.

6762

6755

2705

2700

2701

2705 Aqua Control 1

Electronic water timer with dial programming, offering a variety of watering durations from once per week up to four times per day. Five once-a-day options of variable durations are supplemented by 8 pre-set programs offering a range of watering schedules. Comes with aide-memoire sticker. Inlet size (1/2", 3/4", 1")

2700 Aqua Control Plus

Electronic timer with dial and button programming, allowing the user to select the current time, watering start time, watering frequency and watering duration. Program acceptance is confirmed by an audible 'beep'. Any element of the program can be re-set without the need to totally re-program the timer. Inlet size (1/2", 3/4", 1")

2701 Aqua Control Pro & Rain Sensor

The most versatile and easy-to-operate electronic water timer with large interactive LCD screen using the same familiar menu configuration found on most mobile telephones. Conserves water by linking directly to a remote Rain Sensor, which immediately cancels any watering setting once rain is detected. Connects directly to the Aqua Control Pro using the 10m cable supplied and when rain is detected automatically overrides the watering program. There is a choice range of 4 programming methods:-

- 'One-Touch' for immediate watering
- A choice of 13 pre-set programs
- 'Watering Wizard' – just follow the interactive program
- 'Watering Manager' – with up to 4 different programs per day

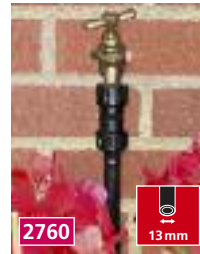

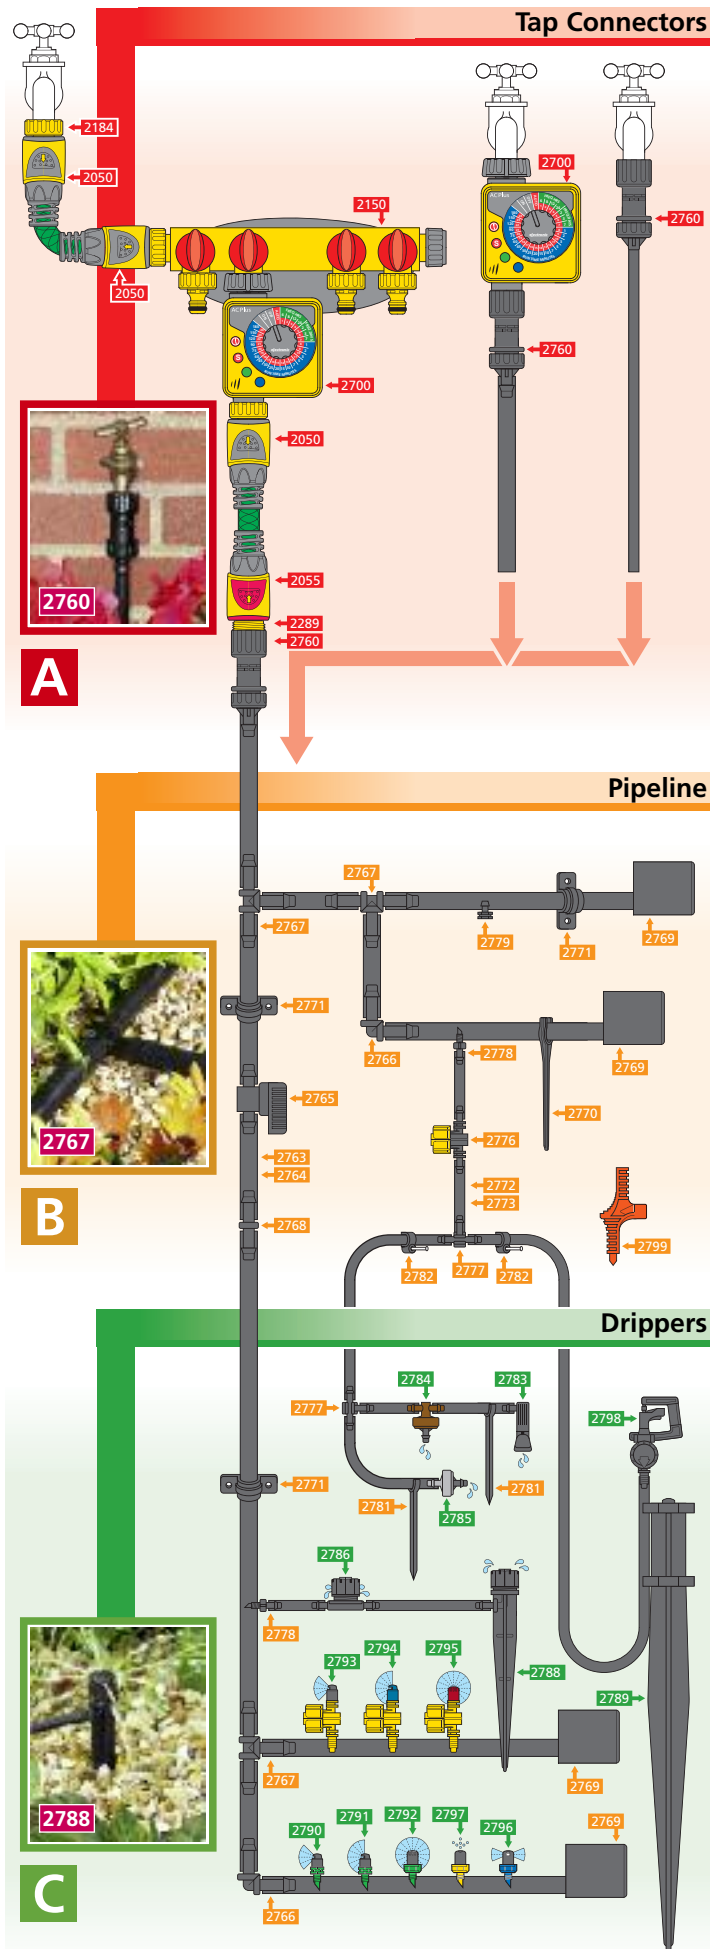

Large tactile buttons allow any program to be quickly and easily changed

Inlet size (1/2", 3/4", 1")
