

Our little explorers don't worry about dirt.

BIO-
logically* clean
with steam!

*Free from chemical residue.

The SC 1020 steam cleaner does.

More thorough, cleaner, better for the environment: Parents tend to be particularly worried about biological cleanliness. Because the playgrounds of their little explorers are not always up to hygiene standards. Just as well that the new SC 1000 family now offers biological cleanliness at an affordable price. Discover the power and cleaning potential of pure water steam. From floor to fittings: The SC 1000 family is ready for it all – and using it is child's play. This is good news not only for parents but for everyone else who appreciates biological cleanliness at a low price.
