

# LED LENSER® M7

Superior light output thanks to intelligent control

*Advanced Focus System*

LED	High End Power LED
Length	137 mm
Weight	193 g
Luminous flux	220 lm*
Batteries	4 x AAA
Energy tank	7,2 Wh
Burning life	11 h**
Beam distance	255 m*

Technical Data

reddot design award  
winner 2010

- 2 Energy modes**
  - Energy Saving
  - Constant Current
- 3 Light programs**
  - Tactical Defence
  - Professional
  - Easy
- 8 Light functions**

The LED LENSER M7 is equipped with light intelligence managed by programmable microcontrollers. These microcontrollers are the M in the name of the lamp, and they are the core piece of Smart Light Technology (SLT). The selection of functions is intuitive and carried out by using only one push-button.

Included in delivery: batteries, supporting loop, Intelligent Clip, Smart Card

**Item No. 8307**

\* Luminous flux (lumens) resp. max. beam distance (meters) in the brightest function when switching on with new set of fresh alkaline batteries. Average values, may vary ± 15% depending on type of chip and batteries.  
 \*\* Average hours of burning life as measured in the least energy-consuming mode and until residual luminous flux amounts to 1 lumen.
