

**LED LENSER®**  **P2**  
 Tom Thumb with classic focusing

LED	High End LED
Length	96 mm
Weight	38 g
Luminous flux	14 lm*
Battery	1 x AAA 1,5 V
Energy tank	1,8 Wh
Burning life	6,5 h**
Beam distance	23 m*

Technical Data

With a mere 38 g, this lamp weighs less than the end cap of big flashlights. Our Tom Thumb has an astounding luminosity and is equipped with the Blue Moon Focus System. The blue circle surrounding the pure white light cone is simply fascinating. For the LED LENSER P2 as for all of our flashlights we have spared neither trouble nor expense. The only thing we saved on is weight.

Included in delivery: battery, supporting loop, Pouch, Clip

**Item No. 8402**  
**Blister No. 8602**

\* Luminous flux (lumens) resp. max. beam distance (meters) in the brightest function when switching on with one fresh alkaline battery. Average values that may vary  $\pm 15\%$  depending on type of chip and battery.  
 \*\* Average hours of burning life as measured until residual luminous flux amounts to 1 lumen.
