

LED LENSER®  P3
 Unobtrusive companion with a bright mind

LED	High End LED
Length	94,5 mm
Weight	42 g
Luminous flux	16 lm*
Battery	1 x AAA 1,5 V
Energy tank	1,8 Wh
Burning life	6,5 h**
Beam distance	31 m*
Technical Data	

LED LENSER P3 is the twin brother of LED LENSER P2, but due to its bigger lamp head, it has an increased beam distance. Speed Focus allows for quick transition from circular low beam to focused long-distance light. The ergonomically perfect clip is as convincing as the lamp's battery concept: One inexpensive alkaline battery (AAA micro cell) supplies power for many hours of light.

Included in delivery: battery, supporting loop, Pouch, Clip

Item No. 8403
Blister No. 8603

* Luminous flux (lumens) resp. max. beam distance (meters) in the brightest function when switching on with one fresh alkaline battery. Average values that may vary $\pm 15\%$ depending on type of chip and battery.
 ** Average hours of burning life as measured until residual luminous flux amounts to 1 lumen.
