Milwaukee Warranty

Every Milwaukee tool is tested according to a huge certified programme before leaving the factory and is warranted to be Nothing-But-Heavy-Duty qualified. At Milwaukee we take great pride in the products and services we offer to our professional customers. With this in mind we are pleased to offer an additional protection by extending our warranty conditions to **3 years***.

This service is available to you at no cost if you register your new Milwaukee power tool within 30 days of the purchase date. Rechargeable battery packs**, battery chargers and any accessories supplied are not included in the extension of the warranty. Statutory rights are not affected.

The extended warranty is only available for power tools with a purchase date which is not before 1.1.2008.

All you need to do in order to receive this Milwaukee service: [register your tool online!](#)

* This does not affect your statutory rights. Normal warranty terms and conditions apply.

**For a limited period of time between July 1st 2011 and December 31st 2012 the before mentioned exclusion of batteries does not apply to RED LITHIUM-ION marked rechargeable batteries.
