

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

### norman says

The "free air delivered" by each compressor is the amount of air available to drive tools running off the compressor.

ABOUT CONNECTIONS... We have, for your convenience, put together connection kits .(These will link most smaller compressors in the Draper range (or other manufacturer's ranges) to many air tools. The kits have  $\frac{1}{4}$ " BSP connections. If you wish, however, we provide most components to assemble to your own requirements.
