

AEROBED PRODUCT RANGE 2012

Don't just bed down...

...AeroBed down.

Bag to bed in
under 60 seconds

If you want 5-star comfort when you're camping under the stars, then AeroBed® Active is for you. It takes up no space, has a powerful pump that can be recharged at home or run from a vehicle, inflates in under 60 seconds and is one of the comfiest beds you'll ever sleep on. Don't believe us? It was rated 10 out of 10 by independent judges in 4x4 magazine.

So if you're going camping, make sure AeroBed® Active is the first thing you pack.

WHAT IS AEROBED?

AeroBeds® are extremely fast, self-inflating luxury airbeds that use the latest comfort enhancing technology to guarantee a great night's sleep. In fact, many of our customers find our mattresses more comfortable than their own bed.

Where space is an issue, AeroBed shows you care about the quality of your guests' comfort and solves the problem of having no guest room. Even if you have a spare room, an AeroBed means you can use it as an office, study or playroom until your guests arrive. So you don't have to compromise your lifestyle.

WHY AEROBED?

CONVENIENCE

The beauty of the AeroBed® is convenience. In today's world we are always short of time and space. AeroBed means you can be the perfect host without disrupting your lifestyle.

COMFORT

We have spent years perfecting airbed technology to bring you mattresses that are incredibly comfortable.

QUALITY

AeroBed® is committed to quality and testing, putting all mattresses through a rigorous quality control procedure. We want you to enjoy your AeroBed® for many years to come so we use heavy duty PVC and test every mattress before it leaves our factory.

A mattress-height, outdoor bed that features a unique and powerful twist-on pump for easy inflation, patented Whoosh™ valve for fast deflation and comfort control option. A built in pillow and flocked mattress ensure comfort. The coil technology promises a stable even sleeping surface for the best night's sleep.

AeroPump

Powerful, rechargeable pump that will inflate your AeroBed and other inflatables effortlessly in seconds. One full charge will inflate up to 10 single AeroBeds. Charge the pump at home or run it directly from your vehicle. The universal nozzle adaptor means your AeroPump can inflate all inflatable products on the market.

1. Pump

Powerful, rechargeable, detachable pump for cordless inflation. Charge pump at home or plug into your car lighter on holiday. Effortlessly inflates mattress beds in under 60 seconds.

2. Chargers & Adaptors

The AeroPump comes with a UK charger, EU charger, car charger and a set of universal nozzle adaptors.

AeroPump - 65010EC

The **NEW** PakMat is an innovative, eco-friendly airmat & hand held pump from AeroBed which combines portability and performance for an exceptional night's sleep anywhere. The PakMat is 100% PVC free, made of environmentally friendly durable TPU which can be used in extreme weather conditions.

1. Store or Transport

Mattress stores compactly and easily inside its own pump.

2. Pump

Compact and durable cylinder.

3. Construction

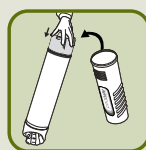

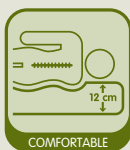

Internal construction maintains equal air distribution throughout the bed providing a stable sleeping surface.

4. Deflation

Manual deflation by opening the valve and rolling the bed. Deflates in under 60 seconds.

5. Material

100% PVC free, the bed is made from TPU with ultra-durable, anti-tear materials.
