Product Catalogue | 2005-2006

Contico Europe Ltd have been manufacturing in Cornwall since 1993. Initially drawing on the parents who started manufacturing in 1964, we have been developing our own designs and innovative products.

The Contico product range contains a wide range of the highest quality storage products for home, office, workshop and garden. These range from simple stacking boxes to Drawer Systems that are smart and functional. All are manufactured from a range of plastics that are strong, safe, clean, but foremost great looking and great value.

Our products are developed and styled after extensive research, and are designed using the latest CAD techniques. We utilise colours to enhance the products, giving visual appeal and widening their application.

We aim to develop new products to match the demands of our customers, and have invested substantially over recent years in new designs and technology. This will keep our products innovative and competitive. We are totally committed to being the foremost low cost manufacturer of injection moulded storage products. This means keeping at the forefront of injection moulding technology, we have invested heavily in new machines, robots and tooling.

Contico are approved to the internationally recognised quality standard of ISO 9002 and quality is high on our list of goals. Providing value for money is top. We are always seeking improvements to increase the value and useability of the products we produce. We have adopted environmental policies in all parts of our business, reducing waste, and making sure that our products are recyclable. Our packaging is deliberately minimalist in order to avoid waste.

CONTENTS

household storage products
resources of our US based
are now totally self sufficient,
products.

This brochure is a summary of the current range of products available from us. This range is continually expanding with new appealing colours and variations of models. We hope that there is enough here to interest you, and look forward to working with you in the near future.

Contico have always produced a modern range of products in stylish colours. The products have found uses in many environments, none more important from an ergonomic and style perspective than the office. The office range is produced in a range of colours to complement most rooms, and includes products that will add style and function to the workplace. The range includes drawer units for storing consumables and equipment, through shelving to waste baskets.

2500 DRAWER TOWERS

The new range of 'Self Assembly' Drawer Towers have been designed with a smoother more modern look. They are simple to assemble without tools, and are sturdy and stylish in use.

The range includes models with deep and shallow drawers, and also versions with 'organiser tops' for keeping small consumables such as pens and staples etc.

STRUCTURAL FOAM TOOL STORAGE / WORKSHOP

8000 SERIES - PROFESSIONAL RANGE, STRUCTURAL FOAM TOOLBOXES

The 'Structural Foam' range of toolboxes are designed for the Tradesman or serious DIY enthusiast.

They are moulded from 'Structolene' a co-polymer resin that is impervious to most chemicals, petrol and oil etc. Structolene has a very high stiffness to weight ratio making it stronger, weight for weight, than steel.

The tool boxes have metal hinges and latches, and tough soft grip handles. A padlock hasp is provided to increase security.

The range consists of :

8170 - 17inch (43cm) toolbox

8200 - 20inch (51cm) toolbox

8260 - 26inch (66cm) toolbox

9350 - 35inch (87cm) tool chest
