Introduction

Dremel is the inventor of the famous high speed rotary tool system, which you can use for a great number of projects where precision is required, both indoor and out.

DIY-projects: like fixing a hinge of a door or sanding parts of a wooden swing.

Hobby projects: like making model planes, or fixing parts of your classic car.

Creative projects: like engraving glass, wood or other materials.

The possibilities with the Dremel system are almost infinite. With your Dremel you become the expert in handling projects with great detail and in hard to reach places. Whether you are an experienced craftsman working with great care on details of a car or model plane, or a beginner, taking on hobby projects, the Dremel system is perfect for anyone looking for precision and a wide variety of possibilities. Dremel is innovative. The Dremel System has developed into a great range of tools and over 150 accessories and attachments.

The Dremel system consists of three components:

A. Tools

B. Accessories

C. Attachments

In this brochure the Dremel system will be explained, helping you find the right tools, attachments and accessories for every project.

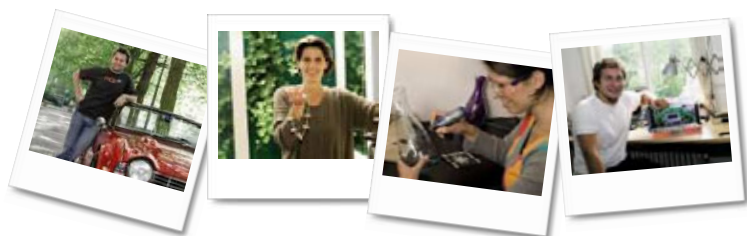

Project catalogue

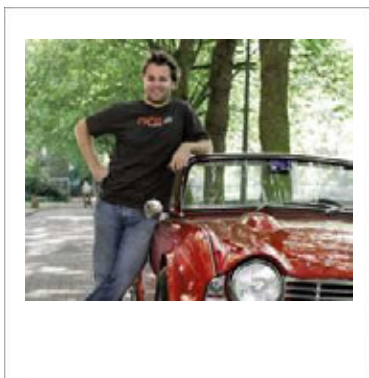

This section of the catalogue provides ideas and hints on the inspiring projects you can do with your Dremel. All projects that are shown have the following things in common: They are inspiring, fun to do and require an eye for detail. To make it easier for you we will show you which accessory you can use for certain applications, but these are just examples. There is much more you can do with Dremel.

1. Car restoring
2. Model building
3. Jewellery making
4. DIY Indoor / Outdoor
5. Engraving ceramics / glass / nameplates
6. Making ceramic pots and mirrors
7. Case modding
8. Making your own wooden toys

1. Car restoring

With Dremel you can either renovate your classic car back to its original state or repair and modify some detailed aspects of your car.

Classic car renovations

Polish chrome parts of your car with the polishing wheels 414.

Remove rust from the carrosserie roughly with a carbon steel brush 428.

Grind sharp edges of rust from the exhaust pipe with the grinding stone 952.

Cut-off parts of the exhaust pipe with the reinforced Cut-off wheels 456.

Car adjustment

For attaching a hands free mobile kit you can drill holes with the drill bits 628.

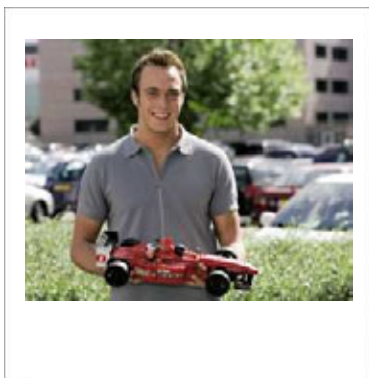

Clean parts of your engine with the carbon steel brushes 442.

2. Model building

Like to work on the details of your modelbuilding projects? Dremel can help you become an expert in performing these very detailed projects.

Model boat

Drill holes in the wooden frame of your model boat with the wooden drill bits 636.

Create a smooth surface with the sanding bands 407.

Model car

Adjust the size and shape of metal pieces with the cut off wheels 456.

Drill holes with the drill bits 628.

Sand uneven surfaces with sanding bands 431.

Model plane

Use the Dremel Scrollstation to saw out parts of the plane.

Smooth and polish that wooden surface with the sanding bands 407.

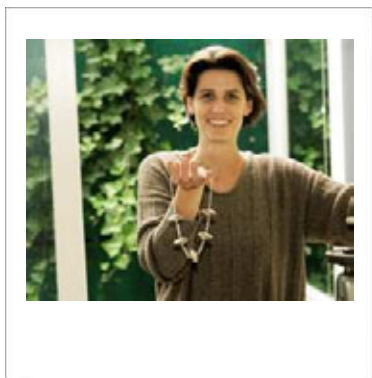

Adjust the size of metal pieces with the cut off wheels 456.

3. Jewellery making

Always love to see beautiful handmade jewellery. With Dremel you can create your own exclusive jewellery.

Drill precise holes with the drill bits 628.

Decorate in detail with the engraving cutter 7103.

Clean your jewellery before polishing it with the bristle brushes 403.

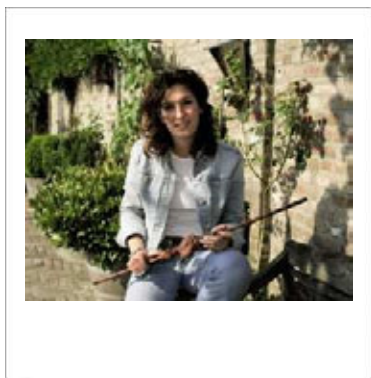

For a beautiful finish use the the polishing wheels 414.

4. DIY Indoor / Outdoor

Use Dremel to tackle a wide variety of DIY jobs in and around the house.

Indoor

Polish chrome accessories with the polishing wheels 422.

Remove old grout in between tiles with the grout removal attachments 658.

Trim laminate floor with the cut off wheels 456.

Prepare banisters and spindles for repainting with the sanding bands 407.

Outdoor

Sharpen your garden tools with the lawn mower sharpening attachment 675.

Remove rotten wood from your door with the sanding bands 438 and the structured tooth tungsten carbide cutter 9936.

Remove dirt from garden ornaments with the polishing wheels 428.

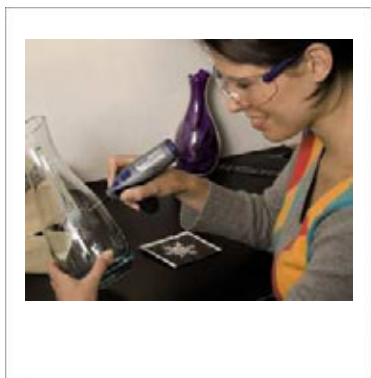

Polish chrome and brass doorknobs with the polishing wheel 422.

5. Engraving ceramics / glass / nameplates

Give an extra touch to your personal belongings by engraving detailed decorations on glass, metal, ceramics or other materials.

Create beautiful decorations on your ceramic pots or plates with the diamond wheel points 7103.

Engrave name plates on metal or wood using the engrave diamond wheel points 7105.

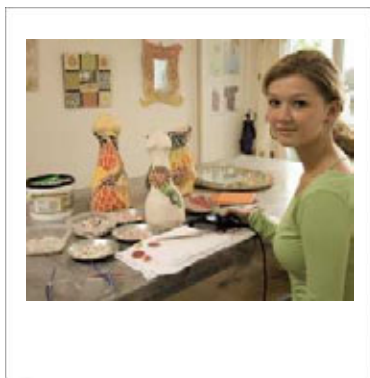

Engrave glass with the diamond wheel points 7144.

6. Making ceramic pots and mirrors

Create beautiful ceramic designs on your vase, mirror or ornaments.

Engrave detailed decorations with the diamond wheel points 7105.

Cut-off straight pieces of ceramics with the diamond wheel 545.

Use the grinding stones 84922 for shaping ceramics pieces.

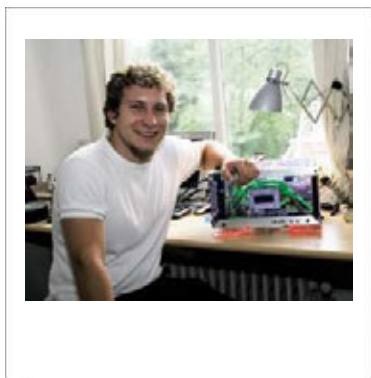

Use the Dremel GlueGun to glue ceramic parts onto your project.

7. Case modding

Engrave decorations on glass, add neon-lights, insert blue-lighted vents and much more: With Dremel you can now personalise your computer.

Cut-off pieces of metal with the cut off wheels 426.

Polish chrome parts of the computer with the polishing wheels 414.

Engrave decorative figures into the mirror-glass with the diamond wheel point 7105.

Drill holes with the drill bits 628 in order to insert a vent.

8. Making your own wooden toys

Remember those wooden toys from the old days? With Dremel you can create those wooden creatures for your children.

Cut out the right shape with the Dremel Scrollstation.

Shape the piece of wood with the high speed cutters 144.

Sand the wooden edges of the toys with the sanding bands 407.

Drill holes with the drill bits 628.

Tools

Dremel has created a number of high speed rotary tools, corded as well as cordless. Every tool has specific features that makes it unique in its class. Dremel has developed each tool to meet the highest quality standards and optimise your enjoyment and comfort while working.

Technical specifications

Rated power input	125 W
Voltage	230 V
Weight	0,55 kg
No load speed	10.000 - 33.000 1/min

The Dremel 300 series is the new Dremel multitool, which is unique for its ergonomic design and offers the user a comfortable grip with a convenient lightweight housing. The Dremel 300 Series is the ideal tool for users that like to perform detailed tasks, whether it's occasionally or regularly. Use the high quality Dremel accessories and attachments, to discover numerous possibilities: detailed sanding, precise routing, polishing for a great finish or even cutting through all kinds of materials, the only limit is your imagination. With the Dremel 300 Series, Dremel offers great quality at a very affordable price.

Features and Benefits

- 1 New and unique design**
improved ergonomics and increased comfort
- 2 Comfort switches**
to match the speed to the project at hand
- 3 Variable speed - 10.000 – 33.000 RPM**
more comfortable when handling and better control
- 4 Attachment interfaces**
to attach DREMELite and other (future) attachments
- 5 On-board wrench storage**
to have the wrench always at hand and nicely stored
- 6 Integrated hang hook**
for hanging the tool on the WorkStation or near the project
- 7 Soft grip**
for reduced vibration and a better grip
- 8 125W motor**
for optimal performance

DREMEL® 300 Series (300-25)

This kit includes the Dremel 300 series multitool in a convenient case for storage of accessories and attachments. The case features a unique system for attaching Mini Accessory Cases (cases not included in this kit) to expand storage possibility. This execution is the entry level kit, offering the Dremel 300 Series with a selected amount of accessories.

DREMEL® 400 Series DIGITAL

Technical specifications

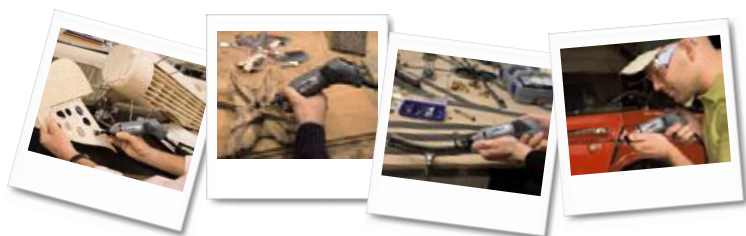

Rated power input	140 W
Voltage	230 V
Weight	0,59 kg
No load speed	5.000 - 33.000 1/min

The Dremel 400 Series Digital is the perfect multitool for projects that require the utmost precision. Thanks to the unique digital display, you can work more precise on several materials that require different speed settings, either low or high. Combined with the convenient tool design, this multitool is the perfect partner for every job demanding precision and control. Restoring delicate parts in antique furniture, on detailed woodworking, polishing chrome on low speed, or drilling miniature holes in several materials; this tool is an absolute must for the most demanding craftsman.

The Dremel 400 Series Digital: maximum precision and control.

Features and Benefits

- 1 Slim housing design**
allows maximum control and excellent grip
- 2 Variable speed control 5.000 - 33.000 RPM**
for exact speed adjustment in 1.000 RPM increments
- 3 LCD display**
shows exact speed settings
- 4 Separate on/off switch**
provides increased control and keeps speed setting after tool is switched off
- 5 140W motor**
for maximum performance
- 6 Electronic feedback control**
enhances the torque and performance at low and mid range speeds
- 7 Soft start function**
improves the lifetime of the motor
- 8 Hang hook**
for hanging the tool on the WorkStation or near the project

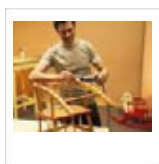

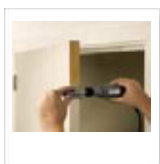

DREMEL® 400 Series DIGITAL (400-1/55)

This kit includes the top-of-the-range Digital Multitool from Dremel, with innovative features such as digital speed control, LCD display, electronic feedback circuitry and soft start. Additionally, the kit packs the unique Planer Attachment, which allows for very precise material removal on a variety of home craft and home maintenance projects. Next to the Planer Attachment, the kit includes 55 original Dremel accessories and a sturdy carrying case.

Contents

- Dremel 400 Series Digital
- 55 high quality Dremel accessories
- Planer attachment
- Planer bit
- Sturdy and spacious storage case

DREMEL® 10.8 V Lithium-Ion

Technical specifications

Battery voltage	10,8 V
Charging time	3 h
Weight	0,424 kg
No load speed	5.000 - 35.000 1/min
Battery technology	Lithium-Ion

The Dremel 10.8 V Lithium-Ion is the fastest (5.000-35.000 RPM) and most powerful cordless rotary tool available. Thanks to its lithium-ion technology: The tool is lightweight and easy to handle. The battery retains its power even if you have not used it for a long period of time. The tool can be charged at any time without damaging the battery capacity. The Dremel 10.8V Lithium-Ion: ready when you are, wherever you are!

Features and Benefits

- 1 Lightweight design**
which makes the tool easy to handle
- 2 Soft grip**
for reduced vibration and a better grip
- 3 Battery fuel gauge**
which indicates the current battery capacity
- 4 Lithium-Ion battery**
no memory effect and no self discharge
- 5 Ergonomic housing**
increases comfort when working the tool
- 6 Attachment interfaces**
to attach DREMELite and other (future) attachments

DREMEL® 10.8V Lithium-Ion (8000-60)

The Dremel 10.8V Li-ion Cordless tool is the first power tool in the world to feature Li-ion battery technology. Li-ion batteries can be charged at any time, have no self-discharge and weigh up to 30% less than conventional NiCd cells.

Most importantly, Li-ion technology allows this cordless tool to perform like a corded tool. In addition to the tool, the kit features a three hour charger, a soft bag and 60 original Dremel accessories.

DREMEL® Glue Gun

The Dremel Glue Gun is the most richly featured glue gun in the market. Its innovative design and numerous features make it very user friendly and easy to use. The features are specially designed for making the job of glueing easier. The glue is the ideal tool for a wide variety of projects: model building, woodworking, scrapbooking or casemodding.

Features and Benefits

- 1 Dual temp**
for working on a wide range of materials
- 2 Anti drip tip**
prevents hot glue from dripping onto your workpiece
- 3 LED light**
lights the area you're working on
- 4 Kick-stand**
one hand operated kick-stand provides stable placement on the work surface
- 5 Large 3 finger trigger**
allows precise applying of glue
- 6 Big foot**
Offers stability when placed on the work surface
- 7 Soft grip**
for comfortable hold
- 8 Standard glue stick size**
to make it compatible with wide array of glues
- 9 Indicator lights**
tell you when the gun is ready to operate
- 10 3-way switch**
select the right temp setting for the project at hand

DREMEL® Glue Gun (1200-3/6)

Contents

DREMEL® Scroll Station™

The Dremel ScrollStation is the most richly featured, most user-friendly and easy to control scroll saw in the market. Its size and sturdiness, up front mounted controls, integrated disc sander and power take-off port allow you to work effortlessly and with high precision on a variety of detailed woodworking or other projects.

Features and Benefits

1 470 mm throat depth

Cuts larger work pieces than most other scrollsaws in the market.

2 Tool-less blade holder with quick tension adjustment

no tools needed for fast and easy saw blade change and adjustment of saw blade tension.

3 InfiniteCut™ Blade holder

the blade can be rotated 90 degrees for infinite cutting length.

4 Disc Sander

the included 12cm disc sander allows users to sand, shape, smooth and finish projects.

5 Smooth cast-iron table

the extra-large (520 mm x 385 mm) table, the extra-smooth finish and the sturdy support offer effortless work piece manipulation.

6 45-degree tilt left / 5-degree tilt right

indents lock into every 15 degree up to 45 degree to the left and at 5 degree to the right with a positive stop at 0 degree to quickly and easily square the table.

7 Power take-off port

allows usage of the Dremel FlexShaft 225 (not included) by using the power supply of the sanding disc.

8 Flexible dust blower

adjustable, multidirectional blower keeps cutting line clear for greater visibility.

9 Integrated Top handle

to move the tool easily.

10 Accepts pin-end and plain-end saw blades

the blade-holder accepts all standard 127 mm scrollsaw blades, pin-end as well as plain-end blades without additional adapters.

11 Blade storage

convenient blade storage drawer keeps blades at your fingertips.

12 Top-mounted controls

up-front control panel for easy access to on-off switch and variable speed adjustment (500-1500 SPM).

13 Hold down foot

metal guide to reduce work piece vibration and to improve working results.

14 Vacuum cleaner interface

keep working surface and tool clean and free of wood chips.

15 Adjustable disc sander table and angle guide

table adjustable from 0 to 45 degrees. Removable angle guide adjustable 0±45 degrees.

16 Dovetail interface

allows click-on of the DREMELite attachment DL4 (available separately).

Accessories

To optimise your project result, you need the right accessories with a high quality standard. Dremel has created a range of accessories to suit all your needs. To help you select the right accessories, Dremel has created a colour coding system: every colour represents a category of applications. This will help you to select the right accessories for your jobs. No matter with which materials you want to work, Dremel has a solution for you.

Carving / Engraving / Routing

Dremel offers high quality carving, engraving and routing accessories for many different applications. Their sharpness and durability allow them to last a long time.

Grinding / Sharpening

The accessories in this category can deburr, smooth, grind and clean a variety of materials in any kind of job.

Cleaning / Polishing

Dremel cleaning and polishing accessories include brushes, felt accessories and rubber points to work on steel, aluminium, brass, silver, gold and plastics.

Cutting

Dremel provides two types of cutting accessories for any cutting job; Cut-off wheels and cutting bits. Cut-off wheels cut metal, wood and plastic along their edge. Cutting bits are used with the Dremel cutting guide and cut in any direction.

Sanding

Dremel sanding accessories include sanding drums, bands, discs, flapwheels and abrasive buffs to remove and smoothen material.

Collets / Mandrels / Miscellaneous

This category features the miscellaneous extras, like drill bits, collets, mandrels and a multi-chuck.

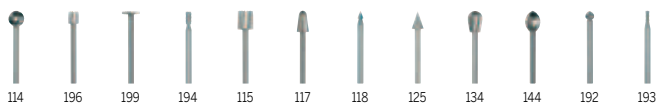

Accessory Kits

100-pcs Accessory Set (701)
110-pcs Accessory Set (697)
140-pcs Accessory Set (700)
175-pcs Accessory Set (698)
Cleaning / Polishing Set (684)
Multipurpose Set (687)

457	2	4,5	3,2	2615045732	8710364021697

Deburr sharp edges from the exhaust pipe of your car with the aluminum oxide grinding stone 952

Cleaning / Polishing

1. Rubber Polishing Points

Blue points for finishing and polishing all ferrous metals. Removes small burrs and scratch marks left by grinding and sanding, and cleans and defines grooves. Also effective on many stones and ceramics.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
461	1	6,4	2,4	2615046132	8710364008339
462	1	6,4	2,4	2615046232	8710364008346
463	1	6,4	2,4	2615046332	8710364008353

2. Impregnated Polishing Wheel

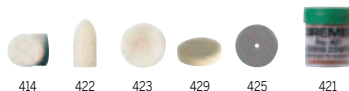

Impregnated polishing wheel for light stock removal and high luster polishing. Works on various surfaces like steel, aluminium, brass, silver, gold, hard plastic etc. The polishing wheel is impregnated with a silicon carbide abrasive and cooling lubricant, so polishing compound is not needed.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
520	1	13,2	3,2	2615052065	8710364023035

Cleaning / Polishing

3. Polishing Wheels

Ideal for polishing metals and plastics. Using polishing compound no. 421 with wheels produces a high luster. Use 414, 422 and 429 with mandrel 401. Use 423 and 425 with mandrel 402.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
414	6	13,0	3,2	2615041432	8710364007141

405	1	3,2	3,2	2615040532	8710364008230

Cleaning / Polishing

5. Carbon Steel Brushes

Versatile brush for removing rust and corrosion, polish metal surfaces, deburr and blend surface junctures or clean electrical components.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
428	1	19,0	3,2	2615042832	8710364007196
442	1	13,0	3,2	2615044232	8710364007202
443	1	3,2	3,2	2615044332	8710364007219

6. High-Performance Abrasive Brush

538

High performance for deburring, cleaning, rust and corrosion removal. Can be used at higher speed than other brushes (max. 20.000 rpm)

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
538	1	26,0	3,2	26150538JA	8710364023066

Cleaning / Polishing

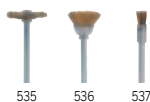

7. Stainless Steel Brushes

Stainless steel brushes do not cause "after rust" when used on corrosive-resistant materials like pewter, aluminum and stainless steel.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
530	1	19,0	3,2	2615053032	8710364010561
531	1	13,0	3,2	2615053132	8710364010578
532	1	3,2	3,2	2615053232	8710364010585

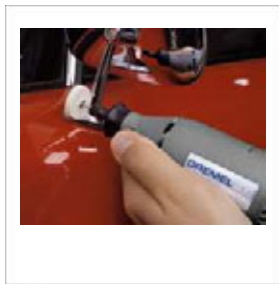

8. Brass Brushes

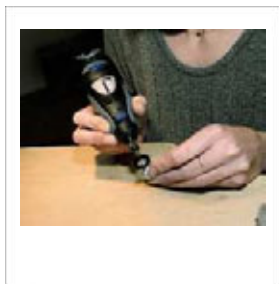

Brass brushes are non-sparking and softer than steel. They will not scratch soft metals like gold, copper, brass.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
535	1	19,0	3,2	2615053532	8710364010530
536	1	13,0	3,2	2615053632	8710364010547
537	1	3,2	3,2	2615053732	8710364010554

Cleaning / Polishing

Polish chrome parts of your car with the polishing wheel 423 and 421 and make them shiny again

With the bristle brush 403 you can remove dust and dirt from precious parts off metal

Cutting

1. DREMEL® SpeedClic®

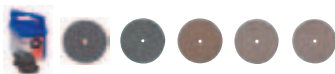

SC406 SC426

Dremel, the inventor of the Multitool, now brings you SpeedClic - an innovation that makes changing cut-off wheels quick and easy. Through a patented mandrel and wheel design, Dremel has found a way that enables you to change your accessory in 3 simple steps - Pull, Click, Twist - without using tools. The Starter Set SC406 includes the new SpeedClic mandrel and two SpeedClic cut-off wheels. The fiberglass reinforced cut-off wheels SC426 are replacement cut-off wheels specifically for the SpeedClic system.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
SC406	1+2	32,0	3,2	2615S406JA	8710364033461
SC426	5	32,0	3,2	2615S426JA	8710364033478

2. Cut-Off Wheels

426B 456 426 540 420 409

For slicing and cutting in metal, wood and plastic. Cut-off wheels make it easy to cut or slot bolts, screws, sheet metal, thin wood and plastic. Fiberglass reinforced cut-off wheels (456, 426, 426B) are for tough applications. The cut-off wheel cuts only along its edge. Do not attempt to sand or cut curved holes with them. Use Dremel cut-off wheels with mandrel 402.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN

409	36	24,0	3,2	2615040932	8710364007424

Cutting

3. Diamond Wheel

545

A unique accessory especially suited to cutting, grinding and filing materials that are harder than metal. For example concrete, marble, stone, porcelain, ceramic and hard epoxide. The diamond wheel produces a fine cut, is very durable, does not break and retains its shape.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
545	1	22,2	3,2	2615054565	8710364017010

4. Cutting/Shaping Wheel

542

The ultimate solution for wood. The special design of the cutting/shaping wheel 542 ensures that you can cut both hard and soft types of wood, cut grooves and shape wood. The carbide coating makes the wheel especially durable.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
542	1	25,4	3,2	2615054265	8710364017119

Cutting

5. Rip/Cross-Cut Blade

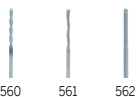

546

Precision saw blade for fine, clean and straight cuts in all sorts of wood. Perfect for laminate and wood flooring or thin wood plates. Use only with Dremel Mini Saw attachment 670. Made of carbon steel, 48 offset teeth guarantee precise, fast cuts up to 6.35 mm.

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
546	1	31,8	3,2	26150546JA	8710364023073

6. Spiral Cutting Bits

The drywall cutting bit 560 gives you fast clean cuts in drywall. The multipurpose cutting bit 561 cuts wood, plastic, fiberglass, drywall, laminate & vinyl siding. The tile cutting bit 562 cuts ceramic wall tile, cement board and plaster. (Not for use on floor tile)

Model	Quantity	Working ø mm	Shank ø mm	Order- number	EAN
560	1	3,2	3,2	2615056032	8710364010592
