

HOZELOCK

Gardening for life

HOZELOCK

Gardening for life

With over half a century of horticultural expertise, at Hozelock we understand the rewards of gardening, and we want to help gardeners get the most from their gardens. We combine a knowledge and passion for gardening with a pride in craftsmanship to develop solutions to help your customers gardens flourish and come to life.

Investing in growth:

We are investing in the future by implementing a number of key initiatives designed to deliver market growth :

Driving Market Growth – Consumer Communications

Hozelock products are crafted by gardeners for gardeners. Using high impact & targeted marketing communications we will increase awareness of the Hozelock brand, and create a greater emotional bond between our products and our consumers, as well as communicating the features and benefits to drive sales in-store.

Driving Market Growth - Communicating at the Point of Purchase

It's key to re-inforce advertising messages at the point of purchase to allow our customers to feel for themselves the benefits of our products. We've invested in display units featuring video screens and demo units to drive sales of our flagship products, such as Auto Reel & Aquapod.

Driving Market Growth – Improving Manufacturing Flexibility

We've invested £1m into new moulding equipment at our modern flexible UK factory to create additional capacity for our hose system range . We have also made significant investment into enhancing our hose production to reduce our lead times, and the quality of the hose presentation in store.

2012 New Products:

New UK made Hose Cart Range:

Our research and development program has delivered a new range of large traditional plastic and metal hose carts, we developed these products with gardeners, they asked us to make the cart more stable so it would be less likely to fall over, and to reduce the force required to wind in up to 90m of heavy, water filled hose pipe. The result is a new range with best in class stability , that features the lowest force to rewind the hose. Developed by gardeners for gardeners.

New UK made Pressure Sprayer Range:

A Hozelock pressure sprayer is a trusted piece of gardening equipment for many gardeners, and 2012 sees a transformation in the Hozelock sprayer range. Developed and designed with the gardener in mind the new range incorporates a myriad of practical, easy to use features that are inspired by our 'Gardening for Life' philosophy.

New Aquatic Range

Hozelock Cyprio is committed to offering a full range of quality aquatic products and 2012 sees a number of new product introductions, including a new range of air pumps and pond nets.

We have also expanded our Vorton range. The new Vorton UVC pond filters offer the optimum UVC power for the recommended pond size.

Contents:

- 4 New Products
- 6 Hose Storage Systems
- 11 Hose
- 19 Garden Pumps
- 19 Water Saving Products
- 20 Fittings
- 24 Hose End
- 26 Sprinklers
- 28 Brushes
- 29 Automatic Watering
- 34 Sprayers
- 40 Pressure Washers
- 43 Aquatics

● new products

New Large Carts

Consumers throughout the world choose Hozelock hose and hose storage solutions. We are the only European manufacturer of hose and hose systems. Our range is unparalleled in finding and meeting consumer needs.

2012 see's the launch of an entirely new range of large format hose carts. The new range meets and exceeds the needs of consumers with large gardens. Consumers who want the easiest and simplest solution to moving and using hoses up to 90m in length.

The range has been developed by gardeners for gardeners, and we have crafted the products to meet their very demanding brief.

Tough and Durable : Made from the highest quality plastics, and plated steel – the new range will handle the challenges of a big hard working garden time after time. The range comes with a two year warranty, and like all Hozelock products, a full range of spares is available to extend the life way beyond this.

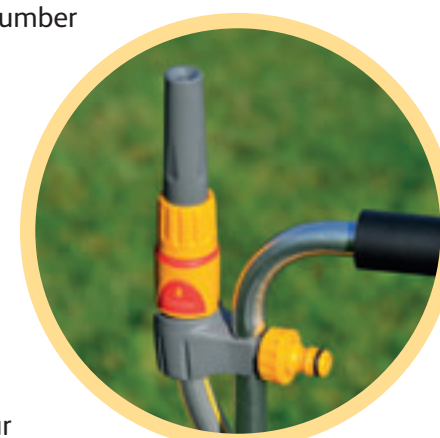

Easy to Use : Available assembled and ready to use, these new large carts are packed with delighters. Consumers will love them from the moment they start to use them.

Easy to Move : 90m of hose full of water can weigh up to 30 kg. But our consumers found that the extra long towing handle, oversized wheels and steel axle, made moving heavy loads a breeze.

Stable : Carts falling over during unwinding is the number one frustration for our gardeners, we've developed the range to have a wider stance, and combined it with a lower centre of gravity to make the new carts more stable in use than many of our competitors.

Easy to rewind : Hauling in 90m of pressurised hose needs a lot of effort. So our gardeners appreciated the mechanical advantage we gave them from the high capacity drum and long rewind handle combination.

In short every detail has been considered to make these simply the best hose carts available.

Sprayers

2012 sees a transformation in Hozelock pressure sprayers. We have re-designed the entire range to offer the consumer a range of high performance pressure sprayers.

Split into Standard, Plus and Pro ranges, all 5-10L sprayers incorporate our new last drop technology, which means that once pressurised the entire bottle can be emptied without the user having to stop to re-pressurise it; saving time and effort.

Standard Range:

The standard range provides an easy to use, accurate & cost effective solution to applying water, insecticides, pesticides, fungicides & water-soluble fertilizers around the garden. The pump has been developed to make pressurisation even easier and the wide filling aperture enables all the components to be placed inside the bottle.

Plus Range:

Offering on-board storage of the hose and accessories the Plus range incorporates a number of practical features. It comes complete with a dosing cap and unique to Hozelock a 'last use' indicator so users don't have to worry about the last solution used. The Plus range incorporates wide foot grips at the base to aid pressurisation.

Pro Range:

The best in class – the Pro range incorporates all the features of the Plus range but includes a heavy-duty metal pump shaft and Viton seals for added durability. The long-reach telescopic lance increases the area that

can be sprayed and prevents bending, while the 3-in-1 strap enhances user flexibility. Pro products also come complete with a weedkiller cone.

Accessories and Spares – The range is supported by a comprehensive range of spares and accessories including weedkiller cone, annual service kits and lances.

hose storage

2360 - 30m Hose Hanger

- Wall mounted hanger and storage unit for 30m of 12.5mm hose

hose - specific range

Spiral hose

6800 - 15m spiral hose starter set (9mm dia)

- Self recoiling hose starter set (1 x 9mm 2166, 1 x 9mm 2185, 1 x 2673 spraygun, 1 x 2184)

5 010646 052689 >

5 010646 038126

Sprinkler hose

6755 - 7,5 m - Area covered 50m

- Max Coverage 50m²

- Perforated flat hose, produces fine spray or reverse for soak.
- Using the fitting supplied, two can be joined together.

5 010646 006880

6756 - 15m - Area covered : 100 m

- Max Coverage 100m²

5 010646 009454

Porous hose

- Ideal for watering borders, vegetables and greenhouses without waste
- Porous hose which seeps water along the full length.
- 2 years guarantee

6760 - 7.5m Porous Soaker hose (12.5mm dia)

5 010646 010306

6762 - 15m Porous Soaker hose (12.5mm dia)

5 010646 010313

6764 - 25m Porous Soaker hose (12.5mm dia)

5 010646 012973

garden pumps

2826 Water Butt Pump

- Submersible 300w high pressure pump (1.1 bar max pressure, 2200 lph max flow)
- Suitable for use with spray guns, sprinkler, micro irrigation and hoses up to 50m in length.
- Supplied with 2175 tap connector , attaches to 3/4" BSP (G3/4) outlet

5 010646 046572

7819 - Ultra Metal Garden Pump Kit

- Non submersible, self priming very high pressure pump (3.5 bar max pressure, 3,000 lph max flow) with suction hose, inlet filter, and all fittings
- Suitable for use with spray guns, sprinkler, micro irrigation and hoses up to 50m in length
- Supplied with 2158 tap connector , attaches to 1" BSP (G1) outlet

5 010646 048903

7825 - Flood Pump

- Submersible 400w high flow drainage pump (5m max lift, 8000 lph max flow)
- Automatic float switch turns pump on automatically when area is flooded.
- Supplied with hosedail 32 -->25mm , attaches to 1 1/4" BSP (G1.25) outlet

5 010646 048941

2026 - Water Butt Treatment

- A safe non-toxic treatment for stored water
- Treats 6400 litres of water

5 010646 046633

water saving treatments

2016 - 250ml Water Storing Gel

- Mix gel with compost to store water , and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week

5 010646 047401

2021 - 250ml Water Storing Gel and Feed

- Mix gel with compost to store water , and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week
- Includes a slow release plant food

5 010646 047371

2022 - Water Storing Gel Mat x 4

- Biodegradable mat impregnated with water storing gel, place in compost to store water, and reduce water requirement by 90%
- Single treatment lasts an entire season, and reduces watering frequency to once per week

Ø 13mm

2764 - 25m of 13mm Supply Hose

- Highly flexible, UV stable, central supply tube

2765 - Flow Control Valve - 13mm

- In-line 13mm valve shuts off or adjusts the flow in the 13mm supply tube

2766 - 90° Elbow Connector - 13mm

- For making 90° turns in the 13mm supply tube

2767 - T piece - 13mm

- For branching the 13mm supply tube

2768 - Straight Connector - 13mm

- For extending the 13mm supply tube

2769 - End Plug - 13mm

- For closing off the 13mm supply tube

2779 - Blanking Plug - 13mm

- Seals holes in the 13mm supply tube

2770 - Stake - 13mm

- Holds the supply tube in position

2771 - Wall Clip - 13mm

- Secures supply tube to walls or fences

2799 - Hole Punch

- Punches holes in supply tube and dismantles micro jets

2772 - 10m 4mm Hose

- Small bore tubing used to supply individual plants
- Highly flexible and UV stable

2776 - Flow Control Valve - 4mm

- In-line 4mm valve shuts off or adjusts the flow in the 4mm supply tube

2777 - T piece - 4mm

- For branching the 4mm supply tube

2778 - Straight Connector - 4mm

- For joining micro tube to supply tube, or two lengths of micro hose / micro soaker hose

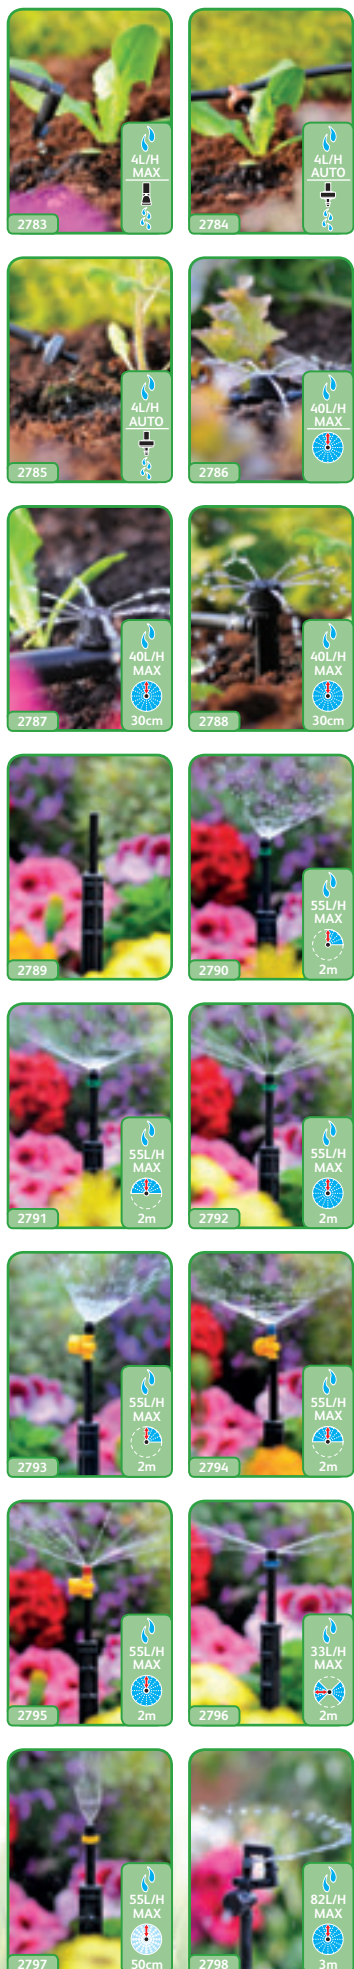

2781 - Stake - 4mm

- Holds the micro tube in position

2782 - Wall Clip - 4mm

- Secures micro tube to walls or fences

B - pipeline

**2783 - 4 LPH End of line Dripper**

- Simple dripper that provides fixed 4l ph at 1.5bar

2784 - 4 LPH In-Line Pressure Compensating Dripper

- Self regulating dripper giving a constant 4l ph regardless of water pressure
- For in-line use

2785 - 4 LPH End of Line Pressure Compensating Dripper

- Self regulating dripper giving a constant 4l ph regardless of water pressure
- For end of line use

2786 - In-line Adjustable Mini Sprinkler (0-40LPH)

- Mini sprinkler with adjustable flow for in-line use

2787 - End of line Adjustable Mini Sprinkler (0-40LPH)

- Mini sprinkler with adjustable flow for end of line use

2788 - End of line Adjustable Mini Sprinkler on Stake (0-40LPH)

- Adjustable sprinkler mounted on a 12cm stake complete with 4mm tube adaptor

2789 - High Spike

- Combines with any of the micro jet sprinklers to raise the spray pattern up to 35cm

2790 - 90° Micro Jet

- Produces ¼ circle spray pattern

2791 - 180° Micro Jet

- Produces semi circle spray pattern

2792 360° Micro Jet

- Produces full circle spray pattern

2793 - 90° Adjustable Micro Jet

- Adjustable flow ¼ circle micro jet

2794 - 180° Adjustable Micro Jet

- Adjustable flow ½ circle micro jet

2795 - 360° Adjustable Micro Jet

- Adjustable flow full circle micro jet

2796 - Strip Micro Jet

- Produces narrow elongated spray pattern

2797 - Mister Micro Jet

- Produces a fine concentrated mist

2798 - 360° Mini Sprinkler

- Adjustable flow, rotating, full circle sprinkler
