

NEW Paslode IM90i Fuel Injection System Nailer

The next generation in cordless nailing technology

The NEW Paslode IM90i is the first cordless nailer powered by an intelligent electronic fuel injection system offering unrivalled cold weather performance. Having been tested to work in temperatures as low as -15°C the IM90i delivers consistent nailing time after time.

Product Advantages

- Temperature performance - intelligent fuel injection system delivers unrivalled cold weather performance with a working threshold of -15°C to +49°C
- More power - new improved nailing system produces 105 joules of power, providing users with the ability to drive 90mm Ring Shank Nails
- RounDrive® Nails - a unique off-centre design and are the only full-head 34° nails available in paper strip collation
- Removable magazine - makes light work of clearing jams and debris from the tool
- Long magazine - saves time and effort during high volume nailing by using the double length magazine accessory, with 2 strip capacity
- Fuel cell loading - the patented locking system means the fuel cell self-locates into the lock position, making loading a simple operation
- On / Off battery - new easy click on / off settings enables the tool to be left in safe mode, without needing to remove the battery
- Depth Adjuster - the tool-free depth adjuster with it's unique locking system means consistent nail embedment every time
- Indicator lights - LED lights indicate; battery charge - green for positive charge, red for low charge; tool cleaning - flashes orange after 30,000 shots to indicate it is time to clean the tool
- Soft grip handle - Rubber grip increases comfort over long working periods by improving tool handling

Kit Contains

Paslode IM90i Nailer, high impact lightweight carry case, 2 x batteries, battery charger, intensive cleaning solution, Paslode lubricating oil, safety glasses to EN166:F, allen key, instruction manual and tool schematics & part list
