THE LEATHERMAN STORY

TIM LEATHERMAN

The first workshop....Tim's garage!

There is an actual Leatherman. Tim Leatherman. And he's been the driving force behind Leatherman Tools for over 25 years.

A native Oregonian, Tim received his Bachelor of Science in Mechanical Engineering from Oregon State University in 1970.

After that, he held a variety of jobs, including positions as an English teacher and a helicopter mechanic. Time spent travelling abroad ultimately led to the Leatherman multi-purpose tool concept.....

In 1975, Tim Leatherman was travelling across Europe when his car broke down, repeatedly. Although a competent mechanic, Tim realised his trusty scout knife couldn't do the job. What he needed was something better, more versatile and completely reliable.

Tim returned to the United States to launch one of the most successful garage start ups - Leatherman Tool Group was founded.....today millions of do-it-yourselfers around the world reach for their trusty Leatherman whenever a project or problem arises.

LEATHERMAN 2010

Leatherman have more than 500 employees at the manufacturing plant and corporate headquarters in Portland, Oregon. This number continues to grow as they fill a variety of positions with motivated individuals who embody the Leatherman core values of quality, innovation, and integrity.

THEY HAVE A LEGACY FOR A REASON

There are Leatherman Multi-Tools designed for all your jobs, hobbies, adventures and even the occasional tooth extraction. Leatherman Multi-Tools have found their way onto job sites, battlefields and movie sets. Whether it's a current project or a future camping adventure you're thinking about, Leatherman Multi-Tools will make sure you're ready for whatever comes your way.

LEATHERMAN SPONSORSHIP

THE ATLANTIC ADVENTURER

Back in January 2010 we were proud to sponsor James Ketchel as he set off to row 3,000 miles across the Atlantic - alone and unaided.

With only the deep blue ocean for company, James crossed from La Gomera in the Canary Islands to Antigua in the Caribbean. Incredible as it might seem there has been more people sent into space and back than have across the Atlantic Ocean in a rowing boat.

James successfully reached the finish line on the 26th April 2010 at 1.30pm after being at sea for 110 days.

We are delighted to be supporting James again as he sets out to summit Everest in 2011.

"Even in the harshest of environments my Leatherman multi-tool was perfect. After 110 days at sea nearly all of my equipment was rusty and fit for the bin. The only thing that was still like new was my Leatherman. I will be making an attempt to climb Everest in 2011 and the one bit of personal equipment I know I will carry for sure will be my Leatherman. A big thank you to Leatherman and Whitby & Co for supporting me!"

The Big 5 Kayak Challenge

The Big 5 Kayak Challenge is about a small team taking on 5 distinct and unique expeditions, paddling some of the most challenging water on the planet.

1. Kayaking Round Malta
2. Canoeing the Yukon
3. John O'Groats to the Orkney Islands
4. Scotland to Ireland
5. London to Marrakesh, cycling and kayaking

At the end of October a small team of kayakers completed their epic journey from London to Marrakesh by kayak and cycle. The journey saw them start on the River Thames at Tower Bridge, cross the English Channel, the busiest shipping lane in the world, head through France including paddling some of the Bay of Biscay, cycle into Spain through the Western end of Pyrenees and kayak the Straits of Gibraltar and round part of Morocco's North African Coast, before the last stage cycling into Marrakesh. The London to Marrakesh leg was the final expedition of the Big 5 Kayak Challenge and the 10th expedition in total. The 10 expeditions have included some of the most challenging sea kayaking on the planet, wild camping in remote wilderness and lots adventures and amazing wildlife.

"The Big 5 Kayak Challenge Team are proud to be sponsored by Whitby & Co and genuinely find them a fantastic partner for our expeditions. In 2 years we have kayaked, canoed and cycled over 4,500 miles an have relied on their amazing range of world class products time and time again".

KEYCHAIN TOOLS

CUTE AND CLEVER ARE NOT MUTUALLY EXCLUSIVE
STYLE™

The Style keychain tool from Leatherman is no bigger than your house key and weighs even less. But don't be fooled by its size. This little survival tool has four great features for everyday situations and not-so-everyday emergencies. You want to carry less and the Style lets you do that without sacrificing versatility.

Tools:
420HC Knife
Scissors
Nail File
Flat/Phillips Screwdriver
Tweezers

Measurements:
2.34 in | 5.94 cm (closed)

POCKET SIZE TOOLS

FREESTYLE™

The first thing you'll notice with the Leatherman Freestyle is opening the outside-accessible blade is easy, just like a pocket knife. When you unfold it and use the pliers you'll understand that when something is engineered correctly, power isn't a matter of size, but a matter of years of design expertise. Freestyle is great as a stand-alone tool or a companion for those activity-specific tools that don't feature pliers or a knife.

Tools:
420HC Stainless Steel, Clip Point Combo Straight/Serrated Knife
Needlenose Pliers
Regular Pliers
Wire Cutters
Hard-wire Cutters

Measurements:
3.45 in | 8.76 cm (closed)
4.5 oz | 127.57 g
2.6 in | 6.60 cm (blade length)

25 Year Warranty

LT75

FREESTYLE™ CX

This little knife/tool hybrid is packing one heck of a material list. To start, the Leatherman Freestyle CX features DLC coating for scratch and corrosion resistance, making it great for those adventures that really put your gear to the test. Next the premium 154CM knife blade holds its edge three-times as long as traditional stainless steel. And finally with its powerful jaws, outside-accessible blade, and removable pocket clip, you can use it like a pocket knife, or a multi-tool. And while those last features aren't really 'materials,' we think you'll agree flexibility and adaptability are pretty much priceless any way you look at it.

Tools:
154CM Stainless Steel, Clip Point Knife
Needlenose Pliers
Regular Pliers
Wire Cutters
Hard-wire Cutters

Measurements:
3.45 in | 8.76 cm (closed)
4.5 oz | 127.57 g

MILITARY TOOLS

Leatherman Multi Tools have been carried and used by the armed forces of both the USA and the UK for many years. Wherever UK forces are deployed in the world, Leatherman Tools will be there. Leatherman's reputation for building great quality tools that can withstand a huge amount of punishment continues to win them respect, as does Leatherman's 'no quibble' 25 Year Warranty.

As well as producing 'militarised' versions of their standard tools by finishing them in a tactical matt black oxide finish, Leatherman have for the first time designed and manufactured a new tool specifically for the military. Called the MUT – Military Utility Tool, this is the demonstration of Leatherman's absolute commitment to provide service personnel with the best quality multi-tool in the world. The MUT was designed specifically for them by Leatherman in collaboration with some of the US Army's top military snipers.

MUT and it's stable-mate the MUT EOD meet the needs of the 21st Century combat soldier with features like 154 CM Grade Hardened Wire Cutters, Firearm Disassembly Punch, Carbon Scraper, Emergency Hammer, Multi Purpose Saw, a Cutting Hook, One Handed Quick Access Knives and Tools. These are the implements that service personnel need, whether on exercise, barrack duty or active deployment.

MILITARY TOOLS

MUT

The Leatherman MUT is the first multi-tool that functions as both a tactical and practical tool for military, law enforcement, or civilian shooters. The MUT features multiple areas on the tool, threaded for cleaning rods and brushes - and all the screwdriver bits are sized for standard military and civilian sighting adjustment work. Also built into the design of the tool is the flexibility to replace the most commonly used parts on the spot, using a simple Torx #8, keeping down-time to a minimum. With all this, a MOLLE sheath and scope adjustment wrench included, the Leatherman MUT may very well be the most efficient and useful piece in your kit.

MUT EOD

When you're under pressure, the last thing you need to be worried about is having the right tools on you at the right time. From cap crimpers, a beefy field blade, and fuse wire cutters, to a carbon scraper, bolt override tool and a replaceable C4 punch, the Leatherman MUT EOD has everything you need in an easy-access configuration for your specialised line of work. Accomplish your mission, maintain your field gear and lighten up your kit. All in a day's work.

MILITARY TOOLS

SUPER TOOL® 300 EOD

NEW

19 TOOLS

The Super Tool is often referred to as the original workhorse of the Leatherman family. With the new Super Tool 300 EOD we've got those same beefy features and added EOD-specific tools like military-performance-spec cap crimpers and fuse-wire cutters. Extra strong pliers with cleaning rod/brush attachments have replaceable wire cutters. Comfort-grip handles feature cutouts to make accessing tools with gloves on a cinch. An everyday carry tool, with some not-so-everyday features. The Super Tool 300 EOD is a great way to go easy on your load while beefing up your gear.

Tools:
Cleaning Rod/Brush Adapters
Can Opener
1/8" Screwdriver
7/32" Screwdriver

LED TORCHES

MONARCH® 200

The smallest Leatherman LED torch might very well have the biggest job: Getting you safely from the car to the house, office, or shop, when your hands are already full. For the Monarch 200 keychain torch, it's no problem. The Monarch 200 is what the pros call "a necessary" for your keychain survival kit.

Features
5 Lumens
1.5 hrs Battery Life
5mm LED
Machined Reflector
3 LR44 Batteries (Included)
Anodised Aluminum Body & Bezel
Tail Switch
White Light
One On/Off Brightness Setting
-32F/+140F Temperature Resistant
Water Resistant, Rated IPX4
Humidity Resistant
Corrosion Resistant
Shock Resistant
Removable Keychain Ring

LTM200/CP

Measurements:
Beam Diameter: .5m (spot) / 2.0m (corona) at 5 ft.
2.1 in | 5.3 cm
20 g | .71 oz.

5 Year Warranty

MONARCH® 300

One battery, 16 lumens, and super durable yet lightweight anodised-aluminium body. The Leatherman Monarch 300 LED torch is the perfect balance of design and function at a great price. Who says you need to skimp on quality? Leatherman certainly don't.

Features
16 Lumens
2 hrs Battery Life
0.5 W LED
Polycarbonate Lens
Circuitry Management for Regulated Light Output
Plated Reflector
AAA Battery (Included)
Anodised Aluminum Body & Bezel
One On/Off Brightness Setting
-32F/+140F Temperature Resistant
Water Resistant, Rated IPX4
Humidity Resistant
Corrosion Resistant
Shock Resistant
Tail Switch
White Light
Removable Keychain Ring
Removable Pocket Clip

LTM300/CP

Measurements:
Beam Diameter: .25m (spot) / 2.0m (corona) at 5 ft.
3.7 in | 9.4 cm
35 g | 1.23 oz.

5 Year Warranty

MONARCH® 400

The Monarch 400 LED torch is great for all those projects around the house or campsite when you need a simple-to-operate, very-bright torch. The Monarch 400 is a reliable, sturdy, lightweight LED light for all your DIY projects and outdoor adventures.

Features
45 Lumens
1 hr Battery Life
3W LED
Anodised Aluminum Body & Bezel
Polycarbonate Lens
Plated, Textured Reflector
Tail Switch
White Light
One On/Off Brightness Setting
AA Battery (Included)
-32F/+140F Temperature Resistant
Water Resistant, Rated IPX4
Humidity Resistant
Corrosion Resistant
Shock Resistant
Circuitry Management for Regulated Light Output
Hole for Lanyard Attachment

LTM400/CP

Measurements:
Beam Diameter: .5m (spot) / 2.0m (corona) at 5 ft.
4.1 in | 10.5 cm
63 g | 2.22 oz.

5 Year Warranty

MONARCH® 500

When you're on the job you need a torch that's tough and bright, but doesn't get in the way. The Leatherman Monarch 500 LED light is constructed of hard-anodised aluminium so it's as durable as stainless steel but only weights 3.5 ounces - fitting easily in a pocket or belt system. The 500 provides a powerful 100 lumens that run on two common-size batteries (AA) and the machined reflector produces a clean light pattern for reading detail without causing eye-fatigue.

Features
100 Lumens
1 hr Battery Life
3W LED
Anodised Aluminum Body & Bezel
Polycarbonate Lens
Plated, Textured Reflector
Tail Switch
White Light
One On/Off Brightness Setting
2 AA Batteries (Included)
-32F/+140F Temperature Resistant
Water Resistant, Rated IPX4
Humidity Resistant
Corrosion Resistant
Shock Resistant
Circuitry Management for Regulated Light Output
Hole for Lanyard Attachment

LTM500/CP

Measurements:
Beam Diameter: .5m (spot) / 2.0m (corona) at 5 ft.
6.1 in | 15.5 cm
100 g | 3.53 oz.

5 Year Warranty
