

## Sport and leisure water recreation 2011

# WE TAKE IT SERIOUSLY SO YOU CAN HAVE FUN

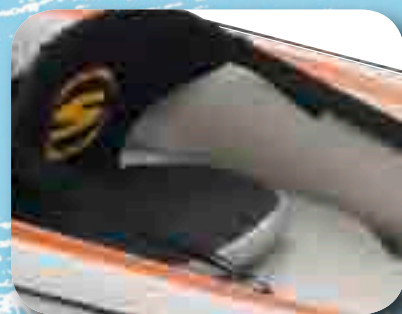

From our first international success with the inflatable bath tub, to the invention of the Tahiti kayak in the 1960s and the Hudson™ and Pacific™ kayaks of today, we've taken product development very seriously indeed.

## TESTED TO THE MAX

With innovation and originality, we constantly look for new ways to surprise and delight our customers.

But it's not just about the bright ideas. We're proud of our reputation for high quality, ensuring that the most stringent standards are met in our production processes, including thorough testing from start to finish. We care about safety and we inflate all boats and kayaks before delivery.

We only use top quality material, which is stored and handled carefully to maintain its properties, and then use specialist seam finishing to ensure optimum performance, safety and durability, allowing you to have maximum fun.

# WHY SEVYLOR?

At Sevylor we have a simple aim. To become the market leader in high-quality, portable, inflatable water sport and recreation products which encourage people to get out on the water and have fun.

Across our large and always evolving range of products, there are certain things that remain unchanged:

## RELIABILITY

We believe that we have a duty of care to not only produce fun, innovative products, but also products that consumers can trust to be safe and durable. We perform inflation and deflation test on all boats and kayaks before delivering products to our customers.

## COMFORT

We consider all aspects of customer usage and aim to make our products as comfortable as possible to use, with features such as adjustable seats and neoprene padding.

## DIVERSITY

We produce a wide range of products to appeal to as many consumer groups as possible, from children to sports enthusiasts.

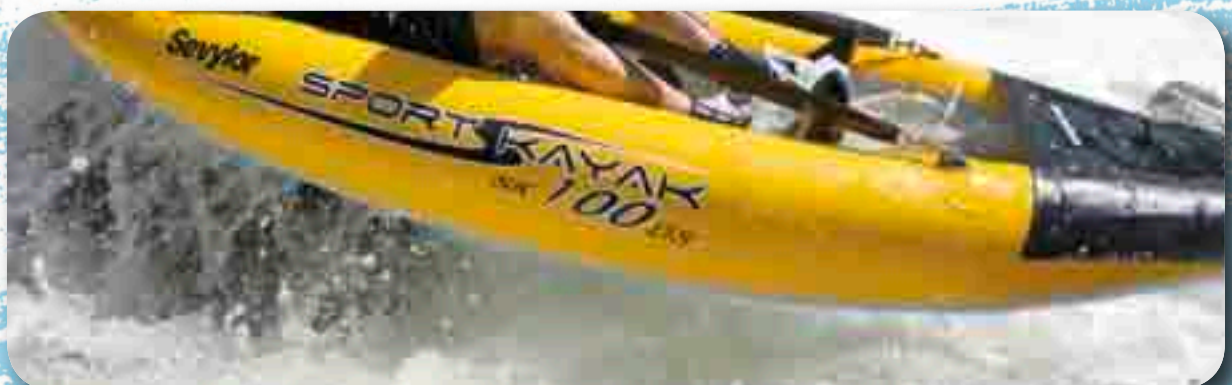

## EASE OF USE

All our products incorporate features that help our consumers to get maximum performance and enjoyment, as easily as possible. Product portability is our primary design focus, together with stability and manoeuvrability.

## USER FRIENDLINESS

We aim to make our products as easy as possible to understand, transport, use and store.

Sevylor products are durable, dependable and enjoyable - they encourage our customers to get out on the water and have fun, safely.

# PRODUCT EXCELLENCE

## PRODUCTION STANDARDS

We maintain control of the production process for our products from start to finish, so that we can make sure that rigorous quality standards are maintained throughout. We have strong partners in Asia, who conform to international standards, including ISO9001:2000 certification.

## TECHNOLOGY

Our Research & Development team constantly reviews and improves our manufacturing processes while also developing innovative new products. 60 years of experience in the field of inflatables, reinforced by the latest design technology, allows us to offer cutting edge products, meeting the highest levels of quality and customer satisfaction.

## MATERIALS

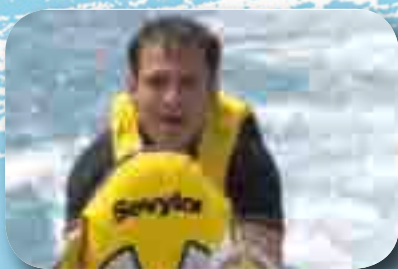

Use of top quality material and specialist seam finishing has enabled us to develop extremely robust specialist and general purpose inflatable items. Our PVC is selected from the best suppliers and has not been recycled. It is selected and defined according to the requirements of each product, then handled carefully

and stored in optimal conditions in order to preserve all its qualities. Our PVC is also environmentally friendly, conforming to the European Directive 2005/84/EC which prohibits the use of certain phthalates (chemical substances to soften the PVC) in certain products.

## INNOVATION

Sevylor has always aimed to not only meet the needs of our customers but also to anticipate them.

From our first international success in 1949 with the bath-tub 'Dou Dou', to the invention of the 'Tahiti' kayak in 1960 and the 'Hudson' and 'Colorado' kayaks of today, we have made innovation a constant within our company. We pride ourselves on our innovative internal culture and streamlined decision making. Our marketing department works very closely with our Research & Development team to make sure that we continue to surprise and delight our customers.

SEVYLOR® - TAKE THE FUN WITH YOU.

# INSPIRING PEOPLE TO GET OUT ON THE WATER

At Sevylor, we share a simple aim: to make high-quality, affordable, inflatable water sport and recreation products, all of which encourage people to get outside and have fun. Since our first international success in 1949, we're proud to have established a global reputation as a market leader with unique designs, original inventions and imagination at the forefront of what we do.

## LEADERS IN INNOVATION

Our PVC inflatables cover a broad spectrum of activities and include kayaks, boats, swimming pools, and more. Sixty years of experience, together with the latest design technology, allows us to offer cutting edge products that meet the highest levels of quality and deliver customer satisfaction.

Designed to be portable and practical, all our products have one thing in common: to inspire people to get outside and enjoy themselves.

Sevylor® ... we take fun seriously.

# KAYAKS

For those who want to feel the spray on their face as they cut through white water, or simply those who enjoy family fun paddling gently around a lake or sea shore, we'll have the perfect solution in our wide range of kayaks.

# HUDSON™

Reliable, roomy and comfortable, this stable kayak is perfect for a family day out, touring along sheltered coastline or on inland waters.

## HUDSON™ 204 704

The sporty Hudson™ kayak looks good and offers great performance. The adjustable and elevated seats have high backrests and bungee cords for practicality and fit, and allow the kayak to be used by one person or converted for use by up to two adults and one child. Stable and comfortable, the Hudson™ offers easy tracking, with directional strakes and removable fins to add to its manoeuvrability.

Boston valves for easy inflation/deflation

Comfortable and practical adjustable seats with high backrest

Bow and stern spray covers for water protection

Bungee cords for extra gear

Removable fin and welded directional strakes for extra manoeuvrability

Paddle holders

Neoprene paddling guards for comfort

Inflatable heavy PVC floor with a double I-beam for strength and rigidity

Also included: Bag + Mano

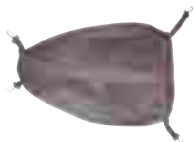

Supplied with a repair kit and owner's manual.

# RIO™ - COLORADO™

This kayak line combines the stability, manoeuvrability and sea-worthiness of a kayak with the comfort, looks and styling of the traditional North American canoe.

## RIO™ 204 705

The raised bow and stern of the Rio™ and Colorado™, coupled with a double I-beam floor construction make these kayaks rugged and rigid - ideally suited for river travelling, fishing and sea discovery outings. The stability of the wide shape, together with the open style makes this a great range for beginners, and directional strakes with removable fins ensure easy tracking and manoeuvrability.

Convenient mesh bag and drain plug

Also included: Bag + Mano

Supplied with a repair kit and owner's manual.

# CANYON™

A great value family canoe that is ultra-portable and easy to use.

## CANYON™

204 836

The two-seater Canyon™ has been designed for convenience and reliability, and is perfect for river travelling, camping trips or just family fun. It is sturdy and durable, yet stored in its carry bag it fits in the boot of the smallest car. Safety and comfort have also been considered, with a protective hull, neoprene padding guards and spray cover.

Bungee cords for securing cargo

**TAHITI™ PLUS**  
205 516

The Tahiti™ Plus is perfect for the family thanks to the increased length. An extra seat can be fitted to convert the kayak to a 2 + 1 person.

Sevytest™ allows you to quickly check the pressure of your Sevylor® product.

**BACKPACK SYSTEM**

After deflating the kayak roll it into the spray deck. It converts into a backpack so that it can easily be transported on the shoulders. No hassle of a tight fitting carry bag, just easy portability.

# RIVIERA™

A popular model renewed with the innovative Backpack system. Ideal for adventures and relaxing times on the water with friends and family.

RIVIERA™  
205 514

Its lightweight construction makes this kayak ideal for water adventures. It comes complete with aluminium paddles.

# PUDDLE JUMPERS AND PFDs

We offer a wide range of Personal Flotation Devices to meet the specific needs of our diverse consumers. From kids to paddlers, from waterskiers to fishermen we achieve safety by making devices that everyone wants to wear.

# PUDDLE JUMPERS

Puddle Jumpers make water a fun and safe place for kids. Safety by the water... now it's fun and easy

## PUDDLE JUMPERS

Puddle Jumper is a swimming aid that guarantees fun and safety in water for kids.

This design may be fun on the outside but underneath lies a solid construction and durable, resilient materials that stand up to the exertions of kids.

Ultra-comfortable fit with no-chaff, soft fabric cover allows for natural movement and greater freedom to swim and explore.

Quick and stress-free, strap kids in safely in seconds thanks to single adjustable buckle at the rear, no more struggling with an unhappy child at the water's edge.

- Super-stable: confidence booster for little swimmers!
- Fully adjustable tight fitting: peace of mind for parents
- Fits well: complete freedom of motion in water and on the beach
- Fun design: kids want to wear it!
- Buoyant swimming device EN1318-1
- Fits children between 14 and 23 kg

	Ref :			
<b>Puddle Jumpers</b> Blue	205655	14 to 23 kg	8	N/A
Green	205656	14 to 23 kg	8	N/A

Single, rear adjustable buckle

Modular shelf display box to take 8 Puddle Jumpers.  
Pile up the boxes to create a stand alone display.

# BUOYANCY AIDS

Vest buoyancy aid only suitable for competent swimmers.  
For use in sheltered waters where help is close at hand.  
This is not a lifejacket and is therefore not safe  
in the event of unconsciousness.

- ISO 12402-5 / EN 393 - 50 N
- Buoyancy aid for inland and sheltered water use. This jacket has limited safety in situations where the wearer is unconscious and wearing heavy clothing.
