MAKTRAK™ Rolling Tool Chest

DESIGN

Dual hinged removable lid for easy access

VERSATILITY

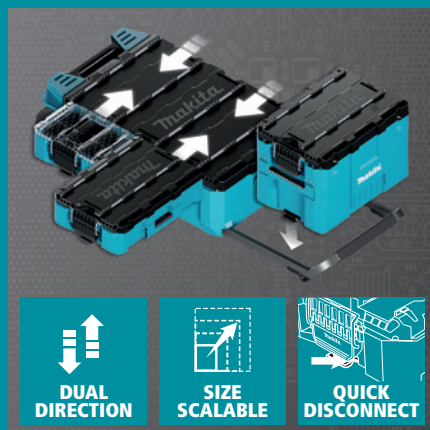

Horizontal design for maximum accessibility

CAPACITY

113.4kg Max weight

INNOVATION

Gecko Grip™ rubberised handle for easy loading & unloading

The MAKTRAK™ Rolling Tool Chest is a modular storage solution to transport, access, store and organise job site equipment, with a horizontal design for maximum accessibility. It has a holding capacity of 81 litres and up to 113kg. The Rolling Tool Chest features a premium handle with Gecko Grips™ for easy truck/van loading and unloading, and 9" All-Terrain wheels for jobsite use. The horizontal design fits under a truck bed cover for ease of transport. It's equipped with large glove-friendly latches for easy access, and the dual hinged removable lid allows access from both sides. This toolbox is ideal for storing and transporting those larger tools such as reciprocating saws, large angle grinders or demolition and rotary hammers that you could not fit in other boxes.

The T-90009 is constructed of impact-resistant copolymer to withstand the toughest jobsite conditions. The included storage tray is designed to be a cordless charging solution, with dedicated space for a charger and batteries (charger and batteries sold separately).

Mount on T-90021 front

MAKTRAK™ Large Tool Box

T-90015

DESIGN

Dual hinged removable lid for easy access

INNOVATION

Open storage unit without handle interference

CAPACITY

45.4kg Max weight

CONVENIENCE

Stack & Lock-In to other MakTrak™ from either side with the One-Touch latch release

The MAKTRAK™ Large Toolbox is a modular storage solution to transport, access, store and organise job site equipment, with a horizontal design for maximum accessibility and to fit long tools. It has a holding capacity of 63 litres and up to 45kg. It's equipped with large glove-friendly latches for easy access, and the dual hinged removable lid allows access from both sides. This toolbox is ideal for storing and transporting those larger tools such as reciprocating saws, large angle grinders or demolition and rotary hammers that you could not fit in other boxes. You could even stack 2 of these tool boxes on top of the Rolling Tool Chest to provide additional storage.

The T-90015 is constructed of impact-resistant copolymer to withstand the toughest jobsite conditions. The included storage tray is designed to be a cordless charging solution, with dedicated space for a charger and batteries (charger and batteries sold separately).

MAKTRAK™ Extra Large Extension Tool Box

DESIGN

Dual hinged removable lid allows access from both sides

INNOVATION

Cleat mount on either side of the extension box, allows easy mounting to the front of the Rolling Tool Chest for transportation

VERSATILITY

Fits oversized tools & accessories

CAPACITY

45.4kg Max weight

DEEP BOX DESIGN

Fits oversized tools and accessories

The MAKTRAK™ Extra Large Extension Toolbox is a modular storage solution to transport, access, store and organise job site equipment and tools and is ideal for stacking on the Rolling Tool Chest. The Extra-Large Extension Toolbox is engineered for transporting equipment and larger tools to and from the job site. It has a holding capacity of 58.5 litres and up to 45kg. It's equipped with large glove-friendly latches for easy access, and the dual hinged removable lid allows access from both sides. This toolbox is ideal for storing and transporting tools such as large circular saws, large routers, belts sanders as well as multiple smaller power tools. The toolbox can be mounted on the front cleat of the rolling tool box or alternately you could mount 2 of these boxes on to the top of the Rolling Tool Chest.

The T-90021 is constructed of impact-resistant copolymer to withstand the toughest jobsite conditions. The included storage tray is designed to be a cordless charging solution, with dedicated space for a charger and batteries (charger and batteries sold separately).

T-90037

APPLICATIONS

Ideal for smaller tool storage combined with accessories to suit

CONVENIENCE

Shallow trays with multiple dividers for small parts & deep trays hold a variety of accessories or hand tools

CAPACITY

34kg Max weight

VERSATILE STORAGE

Fits tools, accessories, batteries, chargers and small parts

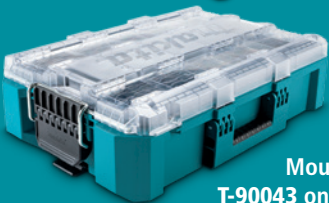

The MAKTRAK™ Medium Toolbox is a modular storage solution to transport, access, store and organise job site equipment and tools. It has a holding capacity of 18 litres and up to 34kg. It's equipped with large glove-friendly latches for easy access to tools, accessories, batteries, chargers, and small parts. This toolbox is ideal for the storage and organisation of power tools, hand tools as well as components required to be easily accessed to complete tasks in site. Provided with 2 deep storage trays as well as 2 shallow storage trays helping to keeping what is stored inside, in its place for easy access. The lid has 1 positive locking latch and 1 hinge as well as dual metal reinforced padlock eyelets for security.

The lid also has multiple mounting points for additional storage.

The T-90037 is constructed of impact-resistant copolymer to withstand the toughest jobsite conditions.
