

# SEA TO SUMMIT DIRECTORY

## **Sea to Summit: An Australian company est. 1990** ***There's history behind the name...***

In 1984 a small group of climbers from the world's flattest continent pulled off an audacious ascent of Mount Everest - they put a new route up the north face in lightweight style with no oxygen or sherpa support. Six years later, one of the summiteers, Tim Macartney-Snape decided to return to Everest in an attempt to climb the mountain from sea level. The first ascent of Everest from sea to summit. Needing some custom made bags for this lightweight adventure, Tim turned to climbing friend and sewing enthusiast Roland Tyson, who was able to help. Tim's solo ascent of Mt. Everest was named the "Sea to Summit" expedition. Back in Australia, Tim joined forces with Roland to build a business that could make use of their outdoor knowledge and those of like-minded enthusiasts like Matt and PJ to create truly ingenious, well-made but affordable outdoor equipment. They named their company Sea to Summit after Tim's expedition and the business prospered providing innovative gear to a growing band of outdoor enthusiasts all over the world.

**Leave No Trace** Sea to Summit is a proud founding sponsor of the **Leave No Trace (Australia) initiative**. The appeal of the LNT approach lies in this formation of partnerships with land custodians including councils, indigenous land managers and pastoralists as well as National Parks services. This includes many wild areas of Australia that are heavily used but poorly protected. All outdoor users including walkers, 4WD tourists and fishing enthusiasts are targeted. Research is also fundamental to the program. Information is made available in the forms of leaflets, signage and educational programs, both to the public and land managers, and is environment specific. A major aspect of the program is partnership with businesses in the outdoor industry.

**Sea To Summit actively design and manufacture product that incorporate and promote LNT principles. [Int.org.au](http://Int.org.au)**

**National Packaging Covenant Smarter Packaging, Less Waste, Cleaner Environment.** Sea to Summit is proud to be a signatory of the National Packaging Covenant, a unique initiative between government, industry and community groups, set up to divert packaging waste from landfill.

By signing and supporting the Covenant we have committed to finding improved environmental outcomes for packaging.

**carbonconscious**

**Carbon Conscious** As an investment in our future Sea To Summit offsets the air travel for all of our business trips undertaken throughout the year. Through Carbon Conscious Ltd, an Australian company producing carbon credits through 'carbon farming', we contribute to the planting of Mallee Eucalypt trees, a species perfectly adapted to the growing conditions of the Australian wheatbelt and planted on marginal or less productive farm land. <http://www.carbonconscious.com.au>

In further efforts to reduce our carbon footprint we have invested heavily in technology to put us in virtual contact with our office in China to reduce the necessity for air travel.

# TravellingLight™

## Sea to Summit Introduces TravellingLight™

The Sea to Summit TravellingLight™ range is a lightweight and stylish solution to luggage organisation. This comprehensive line up of travel accessories provides a convenient way to separately pack clothes, shoes, toiletries, documents and other travel essentials without taking up precious space or tipping the scales towards a hefty airline excess luggage fee.

### Start with Less

Whether motivated by the convenience of carry-on, the desire to avoid baggage fees or lost luggage, or simply wanting bags to be easier to manage upon arrival at the destination, travellers today want less weight and less bulk. This doesn't mean bringing less with you, it means using travel gear that weighs less and takes up less space. The new Sea to Summit TravellingLight™ range of travel products does just that.

### Go Modular

The innovation of the TravellingLight™ line is not just the use of technical ultra-light materials, but the shapes and designs that fit the contours of modern soft-sided luggage whether its a carry-on, a rolling duffel or even a backpack. Packing becomes easier, going through security goes faster and everything is easy to find once you've reached your destination.

### Eighty percent of the products in the line weigh less than 85 grams!

Using premium Ultra-Sil™ ripstop fabric, the range weighs significantly less than any other similar competing products, without compromising strength or durability.

Weight Comparisons

\*Weights do not include packed contents.

**TRAVELLING LIGHT PACKING CELL**

Code	Description	Weight

APTR	S - 40 x 80 cm	Cobalt Blue	42 g
APTL	L - 60 x 120 cm	Jade	110 g

UPDATED

The name says it all! Our most compact towel for lightweight travellers, cycle commuters or anywhere that space is at a premium and dryness appreciated. Sucks up moisture like a prawn cracker on your tongue.

- » Ultrafine woven microfibre
- » Absorbs 3 times its weight in water
- » Nifty storage pouch
- » Comes with counter display box

# Outdoor Hygiene Essentials

UPDATED

## POCKET SHOWER

Code	Volume	Weight
APSHOWER	10 L	120 g

When a cold beer is just an unattainable dream at least you can douse your desire by having a shower! The Pocket Shower uses the same heat resistant waterproof fabric as our standard Dry Bags and the same roll top closure. At the base there is a compact and free-flowing rose that smoothly and gradually adjusts from off to full flow with a simple twist. Fill with water, roll it closed, suspend it from the two tough Delrin™ D rings using the 6 metres of cord provided.

- » Contoured shower head with graduated apertures provides equal spray dispersion
- » Simple and effective twist mechanism for on/off flow adjustment
- » Bar tack attached Delrin™ D rings
- » 6 metre cord included

## OUTHOUSE TOILET ROLL HOLDER

Code	Weight
AOH	70 g

Appreciated by happy campers the world over. With an internal toilet roll holder the Outhouse dispenses dry bottom tickets on demand, and can be hung from a nearby tree or even around the neck for bathroom convenience. Perfect for group use, the Outhouse can be kept centrally for both easy access and as a 'vacant / occupied' sign.

- » Fully waterproof seam sealed roll top top bag
- » Ideal for group use
- » Neck cord attached
- » Internal dispenser allows upside down use
- » Accommodates full size toilet roll
- » Toilet roll not included
- » Assorted colours

## CLOTHESLINE

Code	Length	Packed Size	Weight
ACLOTH	3.5 metres	50 x 70 x 20 mm	22 g

Australians have long been innovators in the field of clothes drying. Sea To Summit is proud to continue this tradition with this no stretch, no peg, adjustable, tiny and lightweight portable clothesline.

- » No pegs required
- » Tiny storage pouch
- » Unique beaded, twin cord design secures items even in wind

## IPOOD!™

Code	Weight
AIPOOD	75 g

Introducing iPod! The strongest, lightweight, compact camp trowel in the world. Poo with pride!

- » Strong ultralight 6066- T6 aluminium alloy
- » Hard anodized blade to Rockwell C 70
- » Ingenious collapsible, carry anywhere design
- » Stores gas lighter/toilet tissues in handle
- » Lightweight, compact and easy to carry
- » Comes complete with own stuff sack
- » A range of cool colours
- » Supported by "Leave No Trace - Outdoor Ethics"

## WILDERNESS WASH

Code	Style
AWW	100ml Concentrate - pack of 12

Use sparingly! Wilderness Wash goes a long, long way and is gentle on fabrics but effective on stains. Although Wilderness Wash is rated biodegradable, 'Leave no Trace'\* recommends washing dishes at least 100 m from waterways so that surface tension is maintained (that way beneficial bugs can skate around and eat mosquito larvae).

\*Leave No Trace Australia

- » Super thick concentrated formula
- » Biodegradable (please wash well away from waterways)
- » Safe for personal use, pots, pans, clothes or any outdoor gear
- » Two sizes: 40 and 100 ml

# Outdoor Hygiene Essentials

## TREK AND TRAVEL POCKET SOAPS

Code	Style	QTY

- » Concentrated formula
- » 89 ml / 3 fl oz

# Travel Liners

## Featuring Thermolite Technology

Sea To Summit travel liners are designed to work with you rather than against. Made from a stretchy knit fabric they move freely. The Sea To Summit Liner series covers all types of consumer needs: Ideal for the adventurer through to the budget-conscious backpacker. There are six-specifically designed liners available, specific technological advances in each. The Thermolite reactor liner offers supreme warmth whilst the Coolmax Adaptor liner is adaptable for varying temperatures and levels of humidity. The silk liner series features antimicrobial technology to keep you fresh and the cotton offers natural comfort at a good price-point. Whether you're planning a camping trip or worldwide travel, Sea To Summit offers something for everyone!

### THERMOLITE® REACTOR EXTREME

Code	Style	Colour	Weight
AREACTOREXT	Extreme	Red	399 g

Increases sleeping bag performance by up to 14°C (25°F) with super-insulating 110g/m<sup>2</sup> Thermolite® fabric. Spacious design allows for a comfortable night's sleep, even when the mercury plummets. Thermolite® is a hollow core fibre that provides extraordinary warmth for its weight and remains extremely breathable. Adds warmth to a sleeping bag or, used alone, is the ideal warm weather bag. With the stretchy knit fabric that moves with you and a drawcord hood, the Thermolite® Reactor Extreme liner is perfect for wrigglers and rollers or anyone who needs some extra warmth.

- » Packs into its own Ultra-Sil™ Cordura® Stuff sack
- » 110g/m<sup>2</sup> Thermolite® construction throughout
- » Adds warmth to a sleeping bag
- » Mummy shape with a box foot
- » Draw cord hood with mini cord lock
- » Colour of liner is red
- » Weighs 399g (14oz)
- » Dimensions: 210cm (7') x 90cm (3')

**NEW**

### THERMOLITE® REACTOR

Code	Style	Colour	Weight
AREACTOR	Standard	Black	248 g

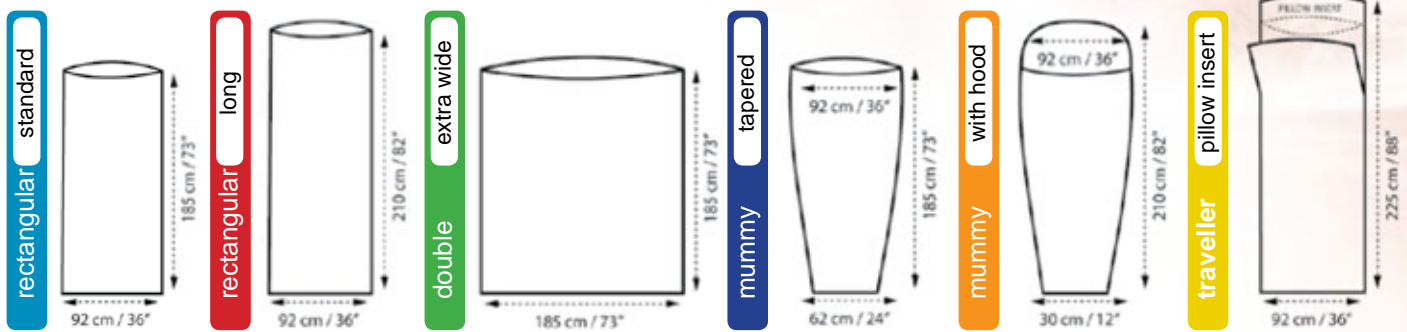

Increases sleeping bag performance by up to 8°C (14°F) with 80g/m<sup>2</sup> Thermolite® fabric. Ideal as part of a cold climate sleep system, or as a standalone bag in warm weather. The Reactor is made from the lightest weight Thermolite® fibre.

- » Packs into its own Ultra-Sil™ stuff sack
- » Lighter weight, more packable than fleece
- » Adds warmth to a sleeping bag
- » Mummy shape with a box foot
- » Draw cord hood with mini cord lock
- » Colour of liner is black
- » Weighs 248g (8.7oz)
- » Dimensions: 210cm (7') x 90cm (3')

**UPDATED**

## SILK & COTTON TRAVEL LINER STYLES

### 100% PREMIUM SILK TRAVEL LINERS

Code	Style	Colour	Weight
ASTDSILK	Standard (Rectangular)	Outback Red	130 g
ALONGSILK	Long (Rectangular)	Jacaranda	145 g
ADBSILK	Double (Rectangular)	Eucalyptus Green	225 g
AMUMMYSILK	Mummy (Tapered)	Kangaroo Brown	125 g
AHOODSILK	Mummy (Hooded)	Navy	140 g
AYHASILK	Traveller (Pillow Insert)	Pacific Blue	165 g

We make our Premium Silk Travel Liners from the strongest, finest ripstop silk available. Perfect for keeping a sleeping bag clean and for hostel or budget hotel travelling. Our Traveller with pillow insert model is YHA approved.

- » Extends life of sleeping bags by keeping them clean
- » Premium, AA grade, ripstop silk for strength and durability
- » Luxuriously comfortable
- » Lightweight, super compact
- » Hygienic bedding for travel
- » Machine washable and colourfast
- » Double folded and reinforced seams
- » Assorted colours

### 100% COTTON TRAVEL LINERS

Code	Style	Colour	Weight
ASTD	Standard (Rectangular)	Outback Red	350 g
ALONG	Long (Rectangular)	Jacaranda	395 g
ADBL	Double (Rectangular)	Eucalyptus Green	710 g
AMUMMY	Mummy (Tapered)	Kangaroo Brown	325 g
AHOOD	Mummy (Hood)	Navy	370 g
AYHA	Traveller (Pillow Insert)	Pacific Blue	425 g

Cotton travelling sheets are the economical choice for the price conscious traveller. We use a durable, high thread-count cotton that is as comfortable and easy to care for as your bed sheets at home. The storage sack has a mesh back for more breathability. Our Traveller with pillow insert model is YHA approved.

- » Machine washable
- » Colourfast and pre-shrunk
- » Packaged in its own stuff sack
- » Double folded seams
- » Assorted colours

# Travel Liners

## COOLMAX® ADAPTOR

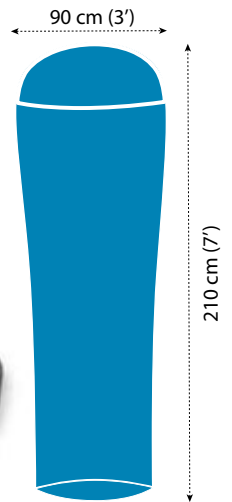

Code	Colour	Weight
ACMAX	Blue	274 g

A climate control travel liner specifically designed for warm or humid conditions. The Adaptor liner, as its name suggests, adapts to varied temperatures and humidity because it's made of Coolmax®, a proven moisture management fabric. Even if the weather is very balmy, the Adaptor provides a more comfortable night's sleep. Packs into its own 8 x 13 cm Ultra-Sil™ stuff sack.

- » Adapts to varied temperatures and humidity
- » Machine washable and quick drying
- » Wicks moisture; keeps you dry
- » Regulates your sleep comfort
- » Keeps sleeping bag clean
- » Comfortable stretchy fabric

UPDATED

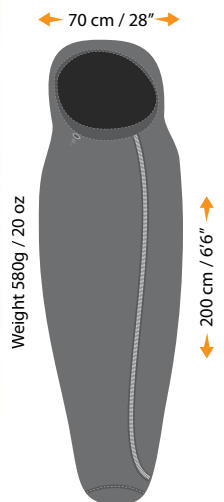

## FLEECE LINER

Code	Style	Colour	Weight
AFLEECE	Fleece Liner with Hood	Black	580 g

Add warmth to your sleeping bag with this lightweight microfleece liner. Comes packaged in a nylon stuff sack.

- » Box foot and hood design
- » Great for emergency use or in warm conditions
- » 3/4 length zipper
- » Ideal for use in wet environments
- » Quick drying

UPDATED

## LUXURY INFLATABLE PILLOW

Code	APILINF
------	---------

You know you want one! Why else would you invest in all that lightweight gear? You've scrimped and saved weight on all those siliconised nylon tents and sacks, bought the lightest stove and carry only freeze dried food. Now it's time to splurge on a well earned luxury that'll get at least 8 hours use a day on your next adventure. Remember you can still scrimp on the grams by leaving the insert at home if you are really hard core, as your down vest can always slot in for added loft. But don't forget that little self inflating insert also doubles as a bum warmer on the cold rock at lunchtime!

- » Colour Navy
  - » Plush finish, cotton blend face fabric
  - » Self inflating insert for extra comfort
  - » Durable water repellent nylon base
  - » Soft high lofting Dacron™ filled
  - » Compact and incredibly light\*
- (\*Compared to a normal pillow that you would use at home)

## Permethrin Treated Mosquito Nets

**Stops mosquitoes, bed bugs and other nasty bites.**

Insecticide treated nets (ITNs) are an important item in the reduction of the spread of Malaria and other vector borne diseases. Permethrin is an insecticide that will daze mosquitoes on contact, on repeated contact the insect will die. The dosage used on our nets does not harm humans.

Permethrin treatment will dissipate with time and washing.

**Permethrin is a very safe and effective insecticide which the WHO\* recommends for the reduction of Malaria and other vector borne diseases. \*(World Health Organisation)**

### MOSQUITO NETS SINGLE & DOUBLE

Ideal for travellers, backpackers and outback camping, this Mozzie Net is light, compact and is essential for travel in areas where mosquito borne disease is a risk. The mesh allows for good airflow and visibility while the generous sizing, mattress skirting and adjustability keeps the netting well away from body parts.

- » Helps prevent contraction and spread of Malaria, Japanese Encephalitis, Dengue Fever etc.
- » Permethrin impregnation deters insects
- » Fine woven 80 hole per cm<sup>2</sup> mesh
- » High visibility black mesh gives excellent vision through netting
- » Off-centre hanging point gives practical headroom
- » Also available in untreated mesh

### MOSQUITO HEADNETS

Effective protection from annoying and disease carrying mosquitoes and other bugs, such as sand flies. The mesh is optimised for outward visibility and has a drawcord neck with generous length for tucking into collars.

- » Helps prevent contraction and spread of Malaria, Japanese Encephalitis, Dengue Fever etc
- » Available with World Health Organisation recommended permethrin treatment
- » Also available in untreated plain mesh
- » Packaged in handy stuff sack

### MOSQUITO NETS SINGLE, DOUBLE & HEADNETS

Code	Style	Size (W x L x H)	Weight
AMOSS	Single Net - Standard	1.2 x 2.2 x 1 m	240 g

- » Adjustable cuffs and waist
- » Olive green mesh
- » Includes convenient storage sack

### BUG PANTS

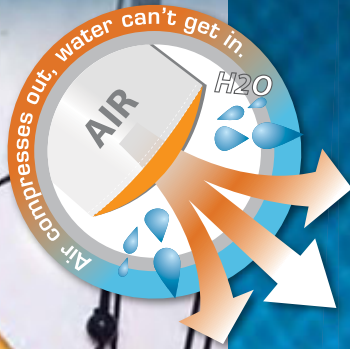

A superior bug protection system for any outdoor activity. Ultra compact and lightweight, using ultra fine 100% No-See-Um mesh.

- » Made from featherweight see-through polyester
- » Adjustable cuffs and waist
- » Olive green mesh
- » Includes convenient storage sack

# Big River Tapered Dry Bag

Made from super strong 420D nylon fabric  
Shaped to fit easily into hulls

For the kayaker, the new Sea to Summit Big River Tapered Dry Bag is also compressible thanks to the unique addition of eVent breathable fabric. With super heavy duty construction that is surprisingly light weight, it would be hard pressed to find a better fit for a hull than this!! Store your gear inside this to keep it dry, and maximise float in your boat!

**Tapered design**  
– Shaped to fit easily inside hulls.

**eVent® Fabric panel**  
is waterproof and air permeable

**Made from super strong abrasion resistant 420D nylon fabric**

**Waterproof Hypalon® roll top closure** does not wick moisture

**Reinforced stitching on stress points**

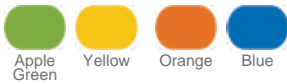

# Big River Dry Sacks

## BIG RIVER DRY SACKS (HEAVY DUTY)

Code	Dimensions (Base) x H	Colour	Volume	Weight
ABRDB5	(17 x 11cm) x 39cm	Yellow	5 L	96 g
ABRDB8	(21 x 13cm) x 44cm	Blue	8 L	106 g
ABRDB13	(23 x 15cm) x 51cm	Orange	13 L	128 g
ABRDB20	(27 x 17cm) x 60cm	Apple Green	20 L	184 g
ABRDB35	(33 x 21cm) x 70cm	Blue	35 L	239 g
ABRDB65	(38 x 25cm) x 85cm	Yellow	65 L	293 g

Super strong and abrasion resistant, this heavy duty dry bag has a space saving low profile, Hypalon® lash loops for secure stacking and roll-resistant oval base - the bag of choice for the rugged user.

- » TPU laminated fabric with 10,000 MM waterhead
- » Super strong and abrasion resistant 420D nylon fabric
- » Waterproof, double stitched, reinforced, tape sealed seams
- » Hypalon® lash loops for secure attachment or stacking
- » Waterproof Hypalon® roll top closure - does not wick moisture
- » Space saving, low profile, streamlined shape
- » Oval base resists rolling - stays where you put it

**NEW**

## BIG RIVER TAPERED DRY BAG (HEAVY DUTY)

- » Waterproof, double stitched and tape sealed seams
- » Reinforced stitching on stress points

# Ultra-Sil™ Sacks

**CORDURA**  
BRAND

## ULTRA-SIL™ DRY SACKS (ULTRA LIGHTWEIGHT)

Code	Dimensions	Colour	Volume	Weight
AUDS1	16 cm (flat) x 25 cm	Orange	1 L	20 g
AUDS2	20 cm (flat) x 32cm	Orange	2 L	23 g
AUDS4	24 cm (flat) x 38 cm	Orange	4 L	26 g
AUDS8	17 cm (dia) x 46 cm	Orange	8 L	30 g
AUDS13	22 cm (dia) x 53 cm	Orange	13 L	40 g
AUDS20	25 cm (dia) x 61 cm	Orange	20 L	50 g
AUDS35	30 cm (dia) x 70 cm	Orange	35 L	65 g

How about this - feather light, bone dry! Not only is the weight revolutionary, but the Hypalon® roll top and siliconised finish eliminates wicking to ensure a dry seal.

- » Waterproof seams, double stitched and tape seam sealed
- » Water tight Hypalon® roll top closure
- » Siliconised Cordura® for maximum durability
- » PU coated for ultimate waterproofing
- » Super compact and ultralight

## ULTRA-SIL™ PACK LINERS (ULTRA LIGHTWEIGHT)

Code	Size	Colour	Volume	Oval Base	Height	Weight
APLUS	Small	Blue	< 50 Litres	49 x 16 cm	79 cm	74 g
APLUM	Medium	Green	< 70 Litres	51 x 20 cm	90 cm	98 g
APLUL	Large	Orange	< 90 Litres	55 x 25 cm	122 cm	126 g

Ultra-lightweight insurance to keep your gear dry! At less than 100 grams for a 70 litre liner you'll be glad you've used an Ultra-Sil™ pack liner when the heavens open up.

- » Waterproof seams, double stitched and tape seam sealed
- » Watertight Hypalon® roll top closure
- » Siliconised Cordura® for maximum durability
- » PU coated for ultimate waterproofing
- » Super compact and Ultralight
- » 3 sizes - 50l, 70l and a cavernous 90l

## ULTRA-SIL™ STUFF SACKS (ULTRA LIGHTWEIGHT)

Code	Size	Dia / Height	Colour	Volume	Weight
ASN240XS	X Small	14 x 27 cm	Orange/Yellow	4 L	14 g
ASN240S	Small	17 x 30 cm	Red	6.5 L	17 g
ASN240M	Medium	18 x 34 cm	Blue	9 L	20 g
ASN240L	Large	21 x 40 cm	Grey	15 L	28 g
ASN240XL	X Large	24 x 45 cm	Black	20 L	34 g
ASN240XXL	XX Large	26 x 55 cm	Orange/Yellow	30 L	40 g

Ultra-Sil™ stuff sacks are not only super strong and lightweight, they're an absolute "must-have". We use a super light, 30d Ripstop Cordura® in a range of colours. Tiny, near weightless and with a slippery finish, Ultra-Sil™ stuff sacks make organising your gear easy and keeps your pack light.

- » 30 denier Ripstop Siliconised Cordura®
- » One third lighter than regular stuff sacks
- » High tear strength
- » Slippery finish for easy packing

## ULTRA-SIL™ COMPRESSION SACKS (ULTRA LIGHTWEIGHT)

Code	Size	Dia / Height	Colour	Weight	Compression
ASNCSS	Small	18 x 40 cm	Green	77 g	10 l to 3.3 l
ASNCM	Medium	20 x 46 cm	Red	91 g	15 l to 5 l
ASNCSL	Large	23 x 50 cm	Blue	96 g	20 l to 6.5 l
ASNCSDL	X Large	27 x 58 cm	Grey	116 g	30 l to 10 l

While we could make a lighter compression sack, it wouldn't handle the stresses involved with squashing gear down to a third! We've trimmed down webbing and buckles and made the sack more user friendly with a unique cap construction.

- » 5 sizes, to fit anything from a down jacket to a synthetic sleeping bag
- » 30 denier Siliconised Cordura® body
- » Reinforced stress points
- » Special cap construction to prevent tangles
- » Super lightweight

## ULTRA-SIL™ PACK COVER (ULTRA LIGHTWEIGHT)

Code	Size	Fits pack size	Weight

- » Counter display box available - fits slatwall

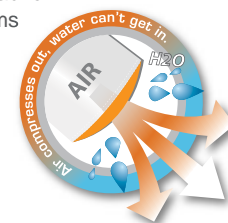

## EVAC DRY SACKS (FEATURING EVENT®)

Code	Dimensions (Base) x H	Colour	Volume	Weight
AEDS5	(17 x 11cm) x 39cm	Grey/Yellow	5 L	48 g
AEDS8	(21 x 13cm) x 44cm	Grey/Yellow	8 L	58 g
AEDS13	(23 x 15cm) x 51cm	Grey/Yellow	13 L	69 g
AEDS20	(27 x 17cm) x 60cm	Grey/Yellow	20 L	86 g
AEDS35	(33 x 21cm) x 70cm	Grey/Yellow	35 L	112 g

With our award winning eVENT® Compression Dry Sack as its inspiration, the eVac Dry Sack is constructed using waterproof, air permeable eVENT® fabric on the base for its valve-free air expelling innovation and compact packing capabilities.

- » eVENT® fabric base - waterproof and air permeable
- » Valve free air expelling design for compact packing
- » Space saving, low profile, streamlined shape
- » Oval Base resists rolling - stays where you put it
- » Waterproof Hypalon® roll top closure - does not wick moisture
- » 10,000mm waterhead, lightweight durable nylon fabric
- » Waterproof, double stitched and tape sealed seams
- » Reinforced stitching on stress points
- » White interior for better visibility

## COMPRESSION DRY SACKS (FEATURING EVENT®)

Code	Size	Dimensions	Colour	Weight	Compression
ADCSXS	X Small	15 x 35 cm	Grey/Yellow	107 g	6 l to 2 l
ADCSS	Small	18 x 40 cm	Grey/Yellow	129 g	10 l to 3.3 l
ADCSM	Medium	20 x 46 cm	Grey/Yellow	148 g	15 l to 5 l
ADCSL	Large	23 x 50 cm	Grey/Yellow	168 g	20 l to 6.5 l
ADCSXL	X Large	27 x 58 cm	Grey/Yellow	210 g	30 l to 10 l

Squash your gear down to one third and keep it dry! eVENT® fabric is totally waterproof and 'really' actually breathable (you can feel the air coming out!) allowing you to compress the air out and not allowing water in.

Quote from a happy user:

*"I got one to use with a down sleeping bag; you can definitely feel the air come out. As a suspicious type, I filled it with towels and left it in a pond at home for a day to see if it leaked- I even weighed them before and after but there was no leakage/vapour transfer/mystery water ingress at all."*

- » Watertight Hypalon® roll top closure
- » Waterproof seams, tape sealed and double stitched
- » Air compresses out, water cannot get in

# Standard Sacks and Accessories

## STANDARD STUFF SACKS

Code	Size	Dia / Height	Volume	Weight
ASS/XS	X Small	14 x 27 cm	4 L	32 g
ASS/S	Small	17 x 30 cm	6.5 L	42 g

ADS35	30 cm (dia) x 70 cm	Yellow	35 L	140 g

Incredible value, durable, light and compact; once you start using our lightweight drysacks you'll be addicted to them!

- » 70 denier nylon
- » Fully taped seams
- » Huge waterhead
- » Compact and light
- » Hypalon® roll top closure
- » D ring securing points at closure

## STANDARD COMPRESSION SACKS

Code	Size	Dia / Height	Weight	Compression
ACSS	Small	18 x 40 cm	128 g	10 L to 3.3 L
ACSM	Medium	20 x 46 cm	156 g	15 L to 5 L
ACSL	Large	23 x 50 cm	175 g	20 L to 6.5 L
ACSXL	X Large	27 x 58 cm	215 g	30 L to 10 L

Our Compression Sacks will help you squish down your gear with a 2:1 mechanical advantage. They're designed to evenly distribute the strain of maximum compression. You can rest assured our Comp Sack will not fall apart when stressed.

- » 210 denier base and sides
- » Toughest compression sacks on the planet
- » New packaging

## STANDARD WATERPROOF PACK LINERS

Code	Size	Volume	Oval Base	Height	Weight
APLSNEW	Small	< 50 Litres	49 x 16 cm	79 cm	232 g
APLMNEW	Medium	< 70 Litres	51 x 20 cm	90 cm	272 g
APLL	Large	< 90 Litres	55 x 25 cm	122 cm	376 g

The Pack Liner is basically a huge Dry Sack, offering fantastic protection and inexpensive insurance against gear damage in torrential rain and river crossings. Made from the same 70 denier fabric as our classic Dry Sack.

- » Oval base rucksack shaped liners
- » Fully waterproof seam sealed PU coated nylon

## STANDARD WATERPROOF PACK COVER

Code	Size	Fits pack size	Weight
APCSNEW	Small	30-50 Litres	125 g
APCM	Medium	50-70 Litres	160 g
APCL	Large	70-90 Litres	200 g

For off track or remote hiking or trekking this Pack Cover is ideal! A 70 denier nylon body offers a great combination of durability in scrub, low weight and excellent value, while a 210 denier base allows for the occasional bit of bottom sliding.

- » Mid-weight, great value pack cover
- » Contoured for walking packs
- » 210 denier reinforced base

# Standard Sacks and Accessories

## SEAM SEALED STUFF SACKS

Code	Size	Dia / Height	Volume	Weight
ASSSSXS	X Small	14 x 27 cm	4 L	34 g
ASSSSS	Small	17 x 30 cm	6.5 L	42 g
ASSSSM	Medium	18 x 34 cm	9 L	50 g

Breathe easy with our Mesh Sacks. Same construction details as our bombproof stuff sacks. Ideal for storing sleeping bags, transporting wet stuff or collecting molluscs!

- » 210 denier nylon base
- » Double overlap throat design
- » Bottom pull handle

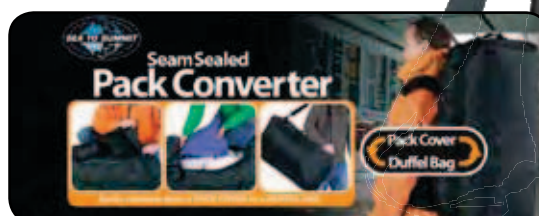

## PACK CONVERTER - PACK COVER / DUFFLE BAG

Code	Size	Colour	Fits pack size	Weight
APCONM	Medium	Black	50-70 Litres	502 g
APCONL	Large	Black	75-100 Litres	594 g

Designed for trekkers, travellers and hikers. This is our toughest pack cover, protecting your pack in pouring rain, treacherous Tasmanian scrub or the world's roughest baggage handler. The Pack Converter is one of the most versatile and useful travel products you can own, whether it's preventing hip belts being ripped off on conveyers, giving you an extra bag at your destination or keeping your pack dry.

- » Combination pack cover/travel tote
- » Contoured for walking packs
- » Fully seam sealed
- » Stowaway shoulder strap included
- » Use as lightweight duffel
- » In always-fashionable black

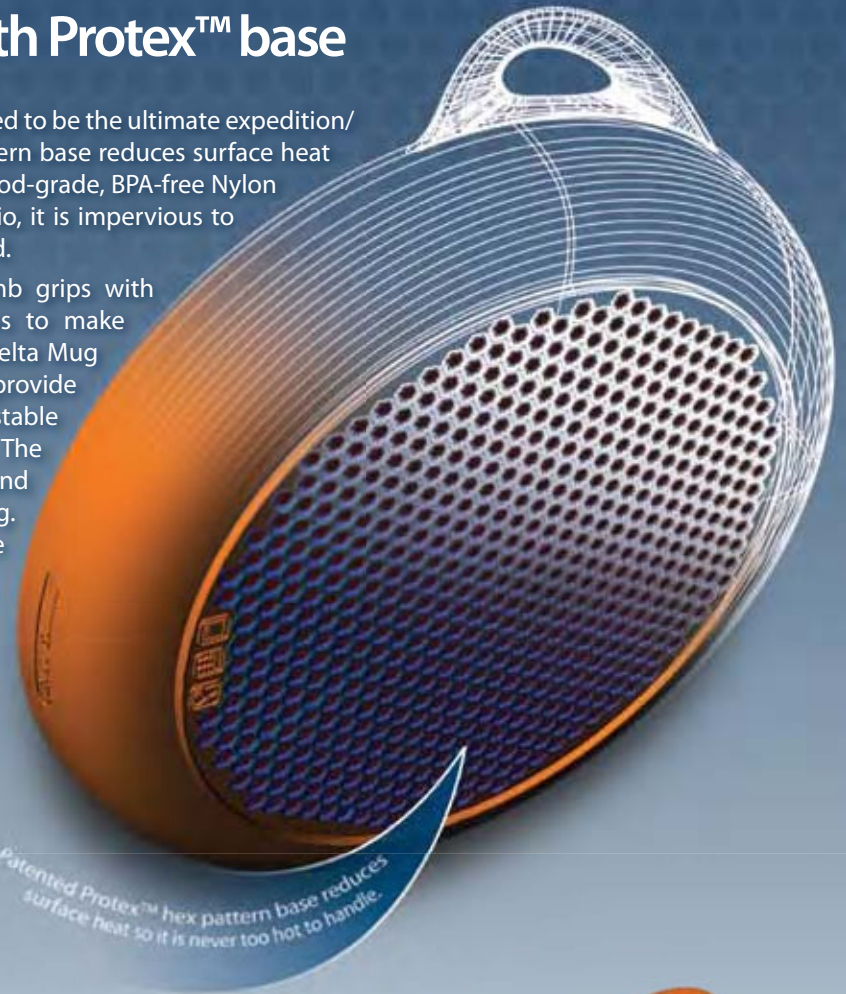

# Delta Series

with Protex™ base

The Delta Series by Sea to Summit is designed to be the ultimate expedition/outdoor dinnerware. Our patented Protex™ hex pattern base reduces surface heat so food and drink are never too hot to handle. The food-grade, BPA-free Nylon 66 material has an incredible strength-to-weight ratio, it is impervious to odours and stains and it will not crack in extreme cold.

The Delta Bowl and the Delta Plate feature thumb grips with carabiner hang loops for storage and steep sides to make capturing the last morsel of food even easier. The Delta Mug and Delta Insulmug have hollow, cool-grip rims to provide an ergonomic hold option, creating a low profile and stable design without the need for a hard-to-pack handle. The Delta Insulmug uses an EVA ThermoSkin™ sleeve and dribble-proof sipper lid to keep hot drinks steaming. And finally, measurement increments feature inside all models for campsite culinary needs.

with Protex™ base

thumb grip with carabiner hang loop

volume measurements on side

made from durable nylon 66

**Delta Mug**

Holds 473ml | Weighs 62g

## X-MUG

Code	Description	Colour	Weight/Volume
AXMUGOR	Silicone and Nylon mug	Orange	68 g / 480 ml
AXMUGGRN	Silicone and Nylon mug	Green	68 g / 480 ml
AXMUGRD	Silicone and Nylon mug	Red	68 g / 480 ml
AXMUGBL	Silicone and Nylon mug	Blue	68 g / 480 ml

The X-Mug is constructed from a flexible, European standard compliant, food grade silicone. A rigid ring within the rim keeps it sturdy and easy to drink out of but still allows the mug to be collapsed to a disk that will fit in the palm of your hand!

- » Unbreakable, folds flat for compact packing
- » Food grade flexible silicone
- » Unique design

## X-BOWL

Code	Description	Colour	Weight/Volume
AXBOWLO	Silicone upper / Nylon base	Orange	80 g / 650 ml
AXBOWLG	Silicone upper / Nylon base	Green	80 g / 650 ml
AXBOWLRD	Silicone upper / Nylon base	Red	80 g / 650 ml
AXBOWLBL	Silicone upper / Nylon base	Blue	80 g / 650 ml

The X-Bowl is constructed from a flexible European standard compliant, food grade, silicone upper that is securely bonded by a patent-pending process to a rigid, cut resistant base made of high temperature, food grade Nylon. It folds flat for compact packing and has metric measurements increments on the inside. The flexible sides make pouring easy.

- » Folds flat for compact packing
- » Food grade flexible silicone
- » Stable rigid base
- » Easy pouring, flexible, versatile shape
- » Cut resistant base for chopping
- » Measurement increments on the inside

## X-PLATE

Code	Description	Colour	Weight/Volume

AKITL	Large

With a chopping board, mini grater, whisk, can opener and heaps of bottles, the Kitchen Kit will help you excel as an outdoor chef wherever you are. The fold out case has extra slots and pockets for further customisation.

- » Fold out / hang up organiser bag
- » Loads of kitchen goodies
- » Lots of handy plastic mini jars

## KITCHEN BITS

Code
AKITBIT

A great collection of lightweight and fully functional camp cooking accessories. 'Kitchen Bits' features the contents of the 'Kitchen Kit' with a few extras. The bottles are incredibly handy for herbs, spices, olive oil, vinegar or any other culinary condiments.

- » Even more bits than the large Kitchen Kit
- » Loads of bottles/ jars, mini grater, whisk and chopping board

# Outdoor Essentials

## FOLDING BUCKET

Code	Size	Weight
AFB10	10 Litres	80 g

The ideal lightweight solution for carrying and storing water in the outdoors. Made from non absorbent, food grade, coated fabric. The additional handle on the base makes pouring easy.

- » Free standing on level surface
- » Non-absorbent fabric
- » Welded watertight construction
- » Additional handle for easy pouring
- » Food grade coating - PVC free

## KITCHEN SINKS

Code	Size	Weight
ASINK5	5 Litres	98 g
ASINK10	10 Litres	134 g
ASINK20	20 Litres	188 g

Now you can bring it with you! Our Sinks are great for washing dishes or washing yourself. Sea To Summit Sinks are ideal for group camping, backpacking or a great present for the outdoorsperson who has everything.

- » Packaged with mini stuff bag
- » Fine with hot water and detergent
- » 3 sizes: 5, 10 or 20 litres
- » Small size makes a great dog bowl!

## TRASH DRY SACK

Code	Min' bag liner size	Volume	Weight
ATRASHDL	50 x 70 cm	20 L	132 g

Designed with a unique roll top closure that accepts a disposable plastic garbage bag liner, the Trash Dry Sack is used as a soft garbage bin in the field or in your car. Roll the closure shut to prevent any liquids leaking out while transporting and open it up to throw your rubbish in. Fitted with Hypalon® clip in loops, you can hang it from a tree or on the back of the car seat.

- » Lightweight 10000 mm waterproof fabric
- » Double stitched and tape seam sealed
- » Roll top closure for drip and odour free carrying
- » Uses disposable plastic garbage bag as liner
- » Oval base gives flatter shape when attached to backpacks, kayaks, etc
- » Daisy chain webbing and Hypalon® clip loops for easy attachment

## ACCESSORY BAGS

Code	Size
AKITBAGS	Small
AKITBAGL	Large

A multi purpose fold out bag for the more organised among us, or those who need to be more organised!

- » Fold up - zip up organiser style
- » Hang hook and loop
- » Loads of places to hide things
